INTRODUCTORY SECTION

December XX, 2010

Honorable Stephen K. Benjamin, Mayor Members of City Council City of Columbia, South Carolina

Ladies and Gentlemen:

The Comprehensive Annual Financial Report for the fiscal year ended June 30, 2010 is presented herein with the senior leadership team's admiration and sincere thankfulness to the City Council for their energy, vision, devotion to public service and collective statesmanship. This report confirms the implementation of council's emphasis and favor of conservative fiscal practices and affirms the City of Columbia as one of South Carolina's financially well-managed cities.

The organization, form, and content of this report, and the accompanying financial statements and statistical tables, were formulated according to the principles prescribed by the Governmental Accounting Standards Board and the Government Finance Officers Association. The City of Columbia's financial statements have been audited by WebsterRogers LLP, a firm of licensed certified public accountants. WebsterRogers LLP concluded, that there was a reasonable basis for rendering an unqualified opinion that the City's financial statements for the year ended June 30, 2010, are fairly presented in conformity with Generally Accepted Accounting Principles. The independent auditor's report is presented as the first component of the financial section of this report. Accuracy of the presented data and the completeness and fairness of this publication rests with the City, and its management willingly assumes full responsibility for the same. We believe that the report includes all disclosures necessary to enable the reader to gain a thorough understanding of the City's financial affairs.

PRESENTATION

The Comprehensive Annual Financial Report is presented in three sections: Introductory, Financial and Statistical. The Introductory Section, which is unaudited, includes this Letter of Transmittal; a list of the City of Columbia's elected officials and organizational charts of City staff and the Accounting Division. The Financial Section includes the Management's Discussion and Analysis, the Government-Wide Financial Statements, Fund Financial Statements and Notes to the Financial Statements, Required Supplementary Information, combining schedules as well as the independent auditor's report on these financial statements and schedules. The Statistical Section, which is unaudited, includes selected financial and demographic information, generally presented on a multi-year basis.

Generally Accepted Accounting Principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Columbia's MD&A can be found immediately following the report of the independent auditors.

REPORTING ENTITY

The financial reporting entity (the government) includes all the funds and account groups of the Primary Government (i.e., the City of Columbia as legally defined), as well as its Component Units. The Component Units of the City of Columbia are legally separate entities for which the Primary Government is financially accountable. The government provides a full range of services including police and fire protection, certain judicial services, community development and promotion, water and sewer services, solid waste services, construction and maintenance of streets and infrastructure, recreational activities and cultural events.

Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the Primary Government and to differentiate their financial position and results of operations.

The City and its Organization

The City of Columbia is the largest city and the capital of South Carolina. The City remains steadfastly committed to enhancing the quality of life for each resident of, and visitor to the greater Metro-Columbia area. Being cast in the pivotal lead ambassador role of South Carolina is not foreign to the City and it is a duty and responsibility that leadership gladly accepts as we serve as the cultural, educational, health-care, and commercial center of the state. Columbia, located in the geographic center of South Carolina, is accommodated by three interstate highways, which enviably positions the City as a comfortable drive to most other southeastern metropolitan areas. There are 136.23 square miles of land within the corporate boundaries of the City. The City's estimated population is 129,333 with 626,567 in the metro area.

The City of Columbia operates under a Council – Manager form of government. Policy making and legislative authority is vested with the seven members of City Council and the elected Mayor. They also oversee the City Manager who is the Chief Executive Officer of the City and manages the day-to-day operations including budgeting and finances.

Economic Conditions and Outlook

The Greater Columbia Area has a world class business-friendly operating environment, a well-trained labor force, an excellent transportation network and support infrastructure that is conducive to business growth and development. This results in steady growth for the Columbia economy. A balanced economic base, including federal, state and local governments, plus a large medical community provides a stable source of jobs for the growing workforce. The number of jobs in the region decreased from 351,230 to 346,214. Even a regional decrease in employment did not prevent the City from increasing the General Fund assets. This economic balance does not happen by chance; the City has a strong economic development team of professionals that has embarked on an enterprising modernization strategy to ensure a favorable economic future by diversification.

Fort Jackson, one of the country's largest military training facilities, is also located in Columbia. Annual expenditures by Fort Jackson exceed \$700 million, and over 100,000 family members visit the Midlands area each year to attend basic training graduation activities. These visitors have a solid impact on the local economy, supporting local hotels, restaurants and the retail shopping industry. Fort Jackson's new \$150 million infrastructure project is under way and is a significant benefit to the local economy.

Another City strategic business partner is the University of South Carolina. In connection with the City of Columbia and Richland County, USC has recently launched a 56-acre research facility named the Innovista Campus. The research to be conducted at the Innovista Campus will concentrate on nanotechnology, hydrogen fuel cell research, bio-medical and environmental sciences. The economic impact of all this new construction, creation of new companies and new jobs is being felt currently and will positively impact the local and state business climate, adding another element of diversity to our economy far into the future.

OPARI, 10

The renaissance of Columbia's City Center continues; the Meridian Tower office building and headquarters of First Citizens Bank & Trust Company are complete. The CanalSide project, redevelopment of the S.C. Mental Health property, North Columbia projects and The Congaree Vista District (Vista) continues to be a major economic force in Columbia's City Center.

MAJOR INITIATIVES

As the City's Master Plan is implemented, the strengths and opportunities available to support the continued growth of Columbia become more apparent. The Master Plan sets forth a list of development opportunities, principles and strategies to guide public and private investment in the future, and focus on creating a vibrant urban core with a mixture of residential, retail and office space along with cultural and entertainment opportunities.

The Three Rivers Greenway is providing river access to the public while preserving the natural beauty and protecting the rivers as an asset for the local communities. The CanalSide Esplanade and Canalfront project provides prima facie evidence of the City's commitment to responsible riverfront development.

As previously reported, the City of Columbia is ready to embark on a variety of multi-year infrastructure projects. The projects will allow cabling for underground utilities, replacing or moving old water, sewer and storm drain utilities, redesigning streets, and updating gateways into the city. Streetscape improvement projects including new sidewalks, period street lighting, and major landscaping can be seen up and down the City's streets.

RELEVANT FINANCIAL POLICIES

Internal Controls

Internal controls are procedures that are designed to protect assets from loss, theft or misuse; to check the accuracy and reliability of accounting data; to promote operational efficiency; and to encourage compliance with managerial policies. The management of the City is responsible for establishing a system of internal controls designed to provide reasonable assurances these objectives are met.

Cash management practices

The investment portfolio is split between four asset managers. In addition to investments, the City has purchased certificates of deposit. At June 30, 2010, all certificates of deposit were insured through FDIC or collateralized with investments held by third party institutions. All investments are in compliance with South Carolina State Laws (S.C. Code of Laws, § 6-5-10).

Budgetary control

The City maintains budgetary controls, which are designed to ensure compliance with legal provisions of the annual budget adopted by Council. It is the City's objective to conduct an open budget process providing for input from department administrators, top management, elected officials and the public as the City's programs and services are determined for the next year.

ACKNOWLEDGEMENTS

The preparation of this report could not be accomplished without the dedicated staff of the entire Accounting Division of the Finance Department. We would also like to express our appreciation to all members of other departments who contributed to its preparation and dedicated considerable resources to ensure our successful completion of this report.

In closing, we are thankful for the leadership and support of Columbia City Council in the work that they do for the Citizens and Customers of the City of Columbia.

Respectfully submitted,

Steven A. Gantt City Manager William H. Ellis, CPA Finance Director

CITY OF COLUMBIA, SOUTH CAROLINA

ORGANIZATIONAL CHART

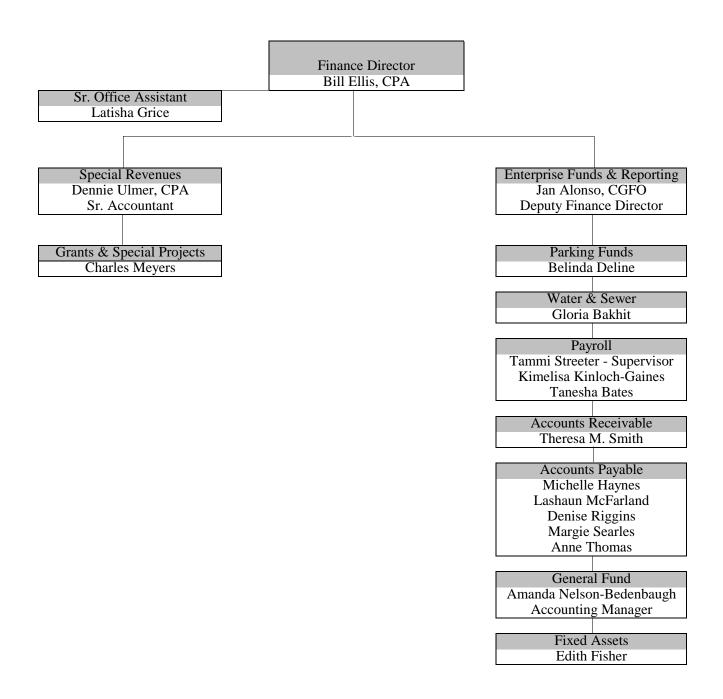

As of July 2010

CITY OF COLUMBIA, SOUTH CAROLINA

ACCOUNTING DIVISION ORGANIZATIONAL CHART

FINANCIAL SECTION

The following summary and overview is presented by the financial management team of the City of Columbia ("City") in an effort to provide a brief, easy to read, yet concise financial analysis of what the many pages of schedules, comparisons, statements and notes of the Comprehensive Annual Financial Report represents and supports. We have found that many interested readers, those that may not be particularly well versed in the accounting discipline, prefer to be informed via the narrative format, thus this is "our work" to satisfy that need. Please be encouraged to consider the information presented here as well as that found in the letter of transmittal which starts on page 1 of this report.

The discussion and analysis is organized to increase the amount of information and detail as the reader continues through the pages of this document. The following are the "top three" financially significant facts, if you should read nothing further, these highlights are important for you to know and find confidence in the fact that your elected officials and appointed professionals are maintaining the City's long history of financial stewardship, integrity and strength.

Financial Highlights

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$784.8 million (net assets), including \$363.3 million invested in capital assets, net of related debt.
- The government's total net assets increased by \$3.0 million when compared to the net assets on June 30, 2009.
- The Local Option Sales Tax was implemented in 2006. This alternative funding method provided \$15.7 million in revenue during the year ended June 30, 2010 as an "offset" to property taxes.

The financial data of the annual report is organized much like this discussion, in that it too provides consolidated information and aggregate reporting in the first few pages and then increases the amount of detail as the reader progresses through the report, and concludes by providing very detailed explanations to the "how and why" of certain presented financial data in the notes to the financial statement section. The reader will need to understand the concept of funds being established on the basis of legal requirement, source of revenue or service provided. You will come to know that the City of Columbia has three types of funds: Government, Proprietary, and Fiduciary.

Overview of the Financial Statements

The City's basic financial statements are comprised of three components: 1) government-wide (consolidating all the activities of the City), 2) fund (taking each activity of the City and placing its financial reporting into a designated fund), and 3) notes to the financial statements. The City of Columbia employs the government-wide financial statements to distinguish functions of the City's operations that are principally supported by taxes and government related revenues, which are **governmental activities**, and from the functions of the City's operations that are supported primarily by fees and charges for service rendered, which are **business-type activities**. The following are examples of each:

Governmental Activities – police and fire department, public works, and parks & recreation **Business-type Activities** – water and sewer facilities, parking facilities, and storm water facilities

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. In the private-sector the statement that presents all that the business owns (Assets) and the claims against those Assets by others (Liabilities) and the resulting Net Assets of the company (Assets minus Liabilities) is called the Balance Sheet. The government-wide balance sheet is titled "The Statement of Net Assets" and it provides the same information. Over time, increases or decreases in net assets may serve as a useful indicator of the financial well being of the City.

The consolidated net assets schedule below displays the net assets for both the governmental activities and business-type activities. The complete Government-wide financial statements can be found beginning on page 20 of this report.

Our discussion will first focus on the governmental activities followed by a review of the business-type activities. This schedule and the changes in net assets schedule will be our reference for these discussions.

City of Columbia Statement of Net Assets June 30, 2010 and 2009

Net assets - end of year	\$	187,024,725	\$	189,249,958	\$	597,753,627	\$	592,566,105	\$	784,778,352	\$	781,816,063

In comparison to the prior year net assets, the City's net assets decreased \$2.2 million in governmental activities and increased \$5.2 million in Business-type activities during the current fiscal year. The following tables and graphs provide information regarding the government's change in net assets for the year ended June 30, 2010.

Our discussion and analysis will include a discussion of the governmental activities, and the business-type activities review will follow. The tables below will calculate the changes to the net assets, first in aggregate and then by detailed sources and uses of how the changes were affected.

City of Columbia Net Change in Assets-Governmental Activities (in thousands)

Change in Assets	\$ (2,225)
Less: Net Assets June 30, 2009	189,250
Net Assets June 30, 2010	\$187,025

The next schedule will present the actual source of the revenues and use of the expenditures that were made over the year that resulted in this change.

City of Columbia Changes in Net Assets-Governmental Activities (in thousands)

(111)			
			Net
	<u>Revenues</u>	Expenses	<u>Change</u>
Program Revenues	\$89,947		
General Revenues	60,882		
Other Revenues/Transfers	4,838		
General Government		\$46,410	
Judicial		2,324	
Finance		1,962	
Community Development		3,950	
Public Safety		49,992	
Parks and Recreation		8,553	
Public Services		17,693	
General Services		3,575	
Community Promotions		4,845	
Interest on Bonds		3,413	
Other		15,175	
Net Revenues	\$155,667	•	
Less: Expenses		\$157,892	•
Total Net Change in Assets			\$ (2,225)

Our discussion will continue as we look more closely at the revenues and expenses. From the above schedule the reader can see where the revenues were generated and which department was charged for the expenses. Our next table will show the classification of both the revenues and expenses.

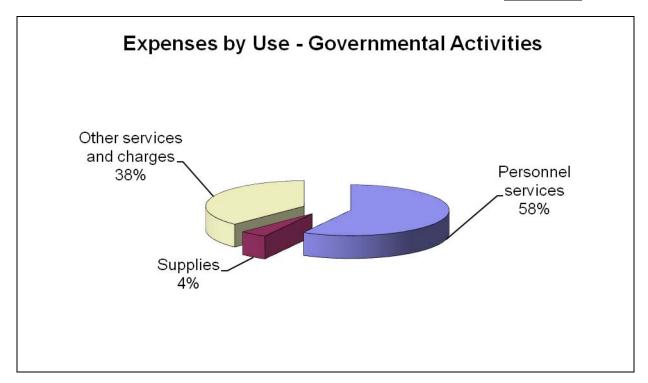

Revenues by Source – Governmental Activities (in thousands)

Charges for services	\$	50,199
Operating and capital grants and contributions		39,748
General property taxes		33,497
Other taxes		26,974
Unrestricted investment income		411
Other/Transfer		4,838
Total	\$ 1	155,667

We will now look at the "use" side of the changes in the net assets; the schedule below will show the expense classification. Most readers will find this table of interest as it will show the "mix" of expenses required to generate the changes we have been considering.

Expenses by Use - Governmental Activities (in thousands)

Personnel services	\$ 90,929
Supplies	5,686
Other services and charges	61,277
Total	<u>\$ 157,892</u>

Our review will now move to the business-type activities, in much the same manner as we explored the governmental activities.

City of Columbia Net Change in Assets-Business-type Activites (in thousands)

Net Assets June 30, 2010	\$ 597,754
Less: Net Assets June 30, 2009	592,566
Change in Assets	\$ 5,188

The next schedule will present the actual source of the revenues and use of the expenditures that were made over the year that resulted in this change.

City of Columbia Changes in Net Assets-Business-type Activities (in thousands)

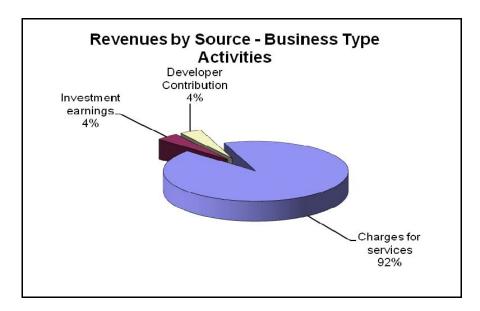

`	Revenues	<u>Expenses</u>	Net Change
Charge for Services	\$122,047		
Developer Contributions	5,155		
Investment Income	5,146		
Water & Sewer		\$103,084	
Hydro-Electric Plant		3,310	
Storm Water		4,075	
Parking Facilities		6,917	
Redevelopment		4,704	
Parks and Recreation Camp		249	
Other/Transfers		4,821	
Net Revenues	\$132,348		
Less: Expenses	_	\$127,160	
Total Net Change in Assets		=	\$5,188

The table and graph below will present the same information in a different format as well as from a different perspective, much as we did in the review of the governmental activities portion of our discussion.

Revenues by Source – Business-type Activities

(in thousands)

Charges for services	\$ 122,047
Investment earnings	5,146
Developer Contribution	5,155
Total	\$ 132,348

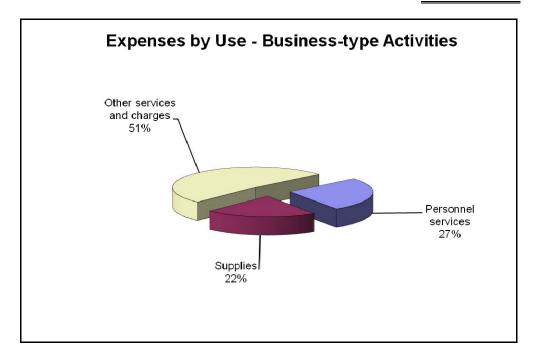

The previously displayed information shows that operating revenues are considerable and that the Water and Sewer department is the main contributor of total revenue for charges for services.

As we did in the governmental activities review, an analysis of the expenses will follow:

Expenses by Use - Business-type Activities

(in thousands)

Personnel services Supplies	\$ 33,973 27,554
Other services and charges	65,633
Total	\$ 127,160

We have concluded our discussion of the government-wide statements but as noted earlier in this analysis, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The following paragraphs provide a discussion of these funds.

Financial Analysis of the City's Funds

Governmental Funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available to address interruption in cash flow due to timing of cash receipts (most of the taxes are collected in the middle of the fiscal year) or contribute to the next fiscal year's revenue requirement.

At the end of the current fiscal year, the City's governmental funds report a combined increase in fund balance of \$3.8 million in comparison with the prior year decrease of \$9.3 million. A portion of the total fund balance amount of \$55.0 million constitutes unassigned fund balance of \$14.0 million, which is available for allocation at the government's discretion. However, a significant part of the fund balance is assigned or committed to indicate that it is not available because it has already been allocated to liquidate contracts and purchase orders of the prior period.

The general fund is the main operating fund of the City. At the end of the current fiscal year, an unassigned fund balance of \$13.7 million existed, which is a measure of the general fund's liquidity. This is the result of a increase of \$8.6 million during the current fiscal year. At the close of the same year the fund balance of the non-major special revenue funds decreased by \$5.1 million. Also of note is the non-major Capital Project funds that decreased by \$3.7 million, which is evidence that the City's construction projects are properly funded.

Proprietary Funds. Proprietary funds are established and utilized to report the business functions of the City. The City of Columbia has two types of proprietary funds: enterprise and internal service. Enterprise funds are used to account for our departments that "sell" goods and services outside the government, such as our Water & Sewer Facilities.

Internal service funds account for our departments which "sell" goods and services only to departments and components of the City's government, such as our Fleet Management department.

The City's proprietary funds provide the same type of information found in the Government-wide financial statements, but in more detail.

The City's Water & Sewer Facilities is the largest of the enterprise funds with total assets of approximately \$831.1 million and operating revenues of \$108.9 million. Both of these measures reflect well upon the long-term management practices of the department.

Capital Assets and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of June 30, 2010 amounts to \$805.6 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment, park facilities, roads, highways, and infrastructure. To fairly report an estimated current value, much like a business entity would, the City employs a depreciation allocation method, which reduces the cost reported as the asset ages or decreases in value due to usage, obsolescence, or amortization.

Major capital asset events during the current fiscal year included:

- Improvements to the water treatment plants were included in "construction in progress".
- \$16.7 million of improvements to the water and sewer projects were completed and added to capital assets.
- The Horizon and Discovery garages recorded in the Columbia Parking Facilities Corporation Fund for approximately \$30 million, were removed from the fund as a capital lease was executed with the University of South Carolina.
- Additional capital was contributed to the capital assets fund during this fiscal year.
- Major streetscaping projects were ongoing (no new projects were started during fiscal year 2010).

City's Capital Assets (net of depreciation)

		Governmenta	l Activities	Business-type	e Activities	Tota	ıl

Total	\$	206,955,612 \$	236,964,944 \$	598,606,876 \$	604,895,471 \$	805,562,488 \$	841,860,415

Additional information on the City's capital assets can be found in note III. F. on pages 55-56 of this report.

The schedule above displays the tremendous importance of assets to the efficient operations of the City. Paying for the investment in assets is not a one year transaction, but rather a long-term commitment by the City and those obligations warrant discussion as well.

City's Outstanding Debt - General Obligation and Revenue Bonds

The City's total long-term debt increased by \$176.1 million during the current fiscal year. This increase in debt is attributed to the issuance of 2009 and 2010 series of bonds by the Water and Sewer fund decreased by principal payments made during the year on outstanding debt. The 2009 series was issued in the amount of \$81.7 million and 2010 series was issued in the amount of \$105 million.

At the end of the current fiscal year, the City had total debt outstanding of \$448.0 million. Of this amount, \$23.1 million comprises debt backed by the full faith and credit of the government. The remainder of the City's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds), such as those issued by the Water & Sewer Facilities or the Parking Facilities, and other items such as compensated absences and capital leases.

The City maintains an "AA" rating from Standard & Poor's and an "Aa2" rating from Moody's for general obligation debt and water and sewer long term debt. The parking system long term ratings of the City have been rated "BBB+" Standard & Poor's and "A3" by Moody's.

State statutes limit the amount of general obligation debt a governmental entity may issue to 8 percent of its total assessed valuation without referendum; the City is below this limit.

Additional information on the City's long-term debt can be found in note III. I. on pages 59-66 of this report.

Current Conditions That Are Expected to Have a Significant Effect on the City's Financial Position

Rising health care costs and the issuance of GASB (Governmental Accounting Standards Board) Statement 45 resulted in the City making changes to health care benefits for employees and retiree benefits in order to adequately fund its health care program and reduce the amount of the liability required for reporting GASB 45. Adding to the costs associated with risk management is rising workers compensation claims which is also impacted by the rising cost of health care.

Due to the adoption of GASB Statement 45, in the year ended June 30, 2008, the City recognized the Annual Required Contribution ("ARC") of \$15.4 million associated with Other Post-Employment Benefits ("OPEB") as an expense and the Net OPEB Obligation as a liability. The ARC consists of benefits accruing in a year plus an amount calculated to amortize any unfunded actuarial liability over a period of thirty years. The City currently pays for post-employment benefits on a pay-as-you-go basis. See Note III H. Other Post-Employment Benefits for more details.

While the City's primary revenue sources are not as sensitive to changes in the economy, the cost to operate is impacted by the rising cost of goods and services such as gasoline, electricity, and construction materials. Special revenue sources such as hospitality tax and accommodations tax remain stable due to the growth in entertainment and tourism sectors of the area, and the opening of the Central Midlands Convention Center; however, the impacts of any downturn in the economy are reflected in these collections.

The most significant impact on the City's primary source of general fund revenue is property tax reform passed by the South Carolina Legislation which caps millage increases to CPI and population growth. These caps will have a major impact on the City's ability to adjust property taxes accordingly to fund the services provided to citizens.

Requests for Information

This portion of the financial report is designed to provide a general overview of the City's financial position. The management team hopes this narrative has proved to be helpful in your understanding of the City's finances. If you have questions concerning any of the information provided in this report or suggestions that you feel will help improve this discussion paper, please address same to City of Columbia, PO Box 147, 1136 Washington Street, Columbia, South Carolina, 29217.

Thank you for your interest in the City, in general, and its finances specifically.

William H. Ellis Finance Director

CITY OF COLUMBIA, SOUTH CAROLINA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2010

Amounts reported for governmental activities in the statement of activities are different because

Net change in fund balance - total governmental funds	\$	3,839,675
Internal Service funds are used by management to charge the costs of fleet management, support services, and risk management to individual funds.		
The net revenue of certain activities of internal service funds is reported with governmental activities		(594,567)
Eliminations relating to the consolidation of internal service funds resulted in a net decrease in expenses for the business type activities in the statement of		
activities		165,055
Governmental funds report capital outlays as expenditures while governmental		
activities report depreciation expense to allocate those expenditures over the life of the assets		
Capital asset purchases capitalized		8,888,007
Depreciation expense		(7,991,812)
Disposition of capital assets		(13,246,002)
Proceeds from the sale of capital assets		156,782
Some expenses reported in the Statement of Activities do not require		
the use of current financial resources and therefore are not reported		
as expenditures in governmental funds		
Accrued compensated absences		229,939
Accrued interest		30,917
Donations of capital assets increase net assets in the statement of activities, but		
do not appear in the governmental funds because they are not financial		
resources		1,126,700
Because certain receivables will not be collected soon enough after the City's fiscal year		
ends, the related revenues are not considered "available" and are deferred in		040 500
the governmental funds		243,569
The issuance of long-term debt (e.g. bonds) provides current financial		
resources to governmental funds, while the repayment of the principal of long	n_	
term debt consumes the current financial resources of governmental fund	-	
Neither transaction, however, has any effect on net assets. Also, government		
funds report the effect of issuance costs, premiums, discounts, and similar	ar	
items when debt is first issued, whereas these amounts are deferred an	d	
amortized in the statement of activities. This amount is the net effect of thes	e	
differences in the treatment of long-term debt and related items.	_	4,926,504
Net change in net assets - governmental activities	\$	(2,225,233)

DISCRETELY PRESENTED COMPONENT UNITS

The Discretely Presented Component Units are presented separately to emphasize that they are legally separate from the City, but are a part of the City's reporting entity.

Columbia Action Council provides support to the community through the sponsorship and promotion of community programs and festivals.

Columbia Development Corporation assists the City in promoting and improving the growth and development of business concerns through the strengthening of the economic and residential base of the community. This Corporation also includes the activity of the formerly separate South Columbia Development Corporation.

Columbia Housing Development Corporation assists the City in the development of housing and to promote growth in the residential base of the community.

Eau Claire Development Corporation provides assistance in the conservation and redevelopment of neighborhoods located in North Columbia.

Midlands Authority for Conventions, Sports, and Tourism directs and manages activities and missions of the Columbia Metropolitan Convention Center and Visitor's Bureau.

TN Development Corporation promotes growth and develops opportunities for affordable rental housing.

Columbia Empowerment Zone, Inc. initiates, develops, and maintains projects and programs in economically depressed or blighted areas that encourage the attraction and utilization of both public and private investment capital.

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Columbia, a political subdivision of the State of South Carolina incorporated in 1854, is located in the central part of South Carolina. Columbia is the state capital as well as the county seat of Richland County. The City has a population of 129,333 living within an area of 136.23 square miles. The Greater Columbia Metropolitan Area consists of Lexington and Richland Counties and has an estimated population of 626,567. The City's economy is driven by education, government, military, finance, and industry. In 1950, the City approved a charter adopting a Council-Manager form of government and is governed by a six (6) member council and Mayor.

The financial statements of the City have been prepared in accordance with Generally Accepted Accounting Principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The more significant of these accounting policies are described below.

A. REPORTING ENTITY

The basic financial statements of the City present the reporting entity that consists of the primary government and those organizations for which the primary government is financially accountable and for which the nature and significance of their relationship with the primary government are such that exclusion could cause the City's financial statements to be misleading or incomplete. Using the criteria of GASB Statement No. 14, "The Financial Reporting Entity," as amended by GASB Statement No. 39 "Determining Whether Certain Organizations Are Component Units," discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the government.

Blended Component Units

Public Facilities Corporation

This is a single purpose corporate entity that was formed in 2002 as a non-profit corporation to undertake certain obligations with respect to the acquisition of real and personal property and the design, construction, operation and financing of a multipurpose conference/convention center and other improvements. Its board is comprised of the City Manager of Columbia, the Assistant City Manager for Development, and the Finance Director or the equivalent thereof. For details of the outstanding debt see Note III. I. The balances of this Corporation are reported in a non-major special revenue fund as well as a non-major capital projects fund.

Columbia Parking Facilities Corporation

This is a single purpose entity that was formed during fiscal year 2007 to undertake certain obligations with the University of South Carolina (the University) to build two parking garages. These garages are part of the University's new research campus, Innovista. The Board of Directors is comprised of five members of City Council. For further discussion of this component unit, see Note III. F.

Discretely Presented Component Units

Columbia Action Council (CAC)

The CAC, incorporated in 1979, provides support to the community through the sponsorship and promotion of community programs and festivals. Partial funding is supplied by the City and the CAC board is appointed by City Council. No retiring members were replaced and there were no active board members at June 30, 2010.

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. REPORTING ENTITY (Continued)

Columbia Empowerment Zone, Inc. (CEZ)

Incorporated in 2009, the CEZ, Inc. was formed to carry out the mission of the Columbia Empowerment Zone (CEZ), a federally designated area (1999-2009). The purpose of CEZ, Inc. is to initiate, develop and maintain projects and programs in economically depressed or blighted areas that encourage the attraction and utilization of both public and private investment capital. The nine member Board of Directors promotes: the fostering of sustainable business; government and community alliances to help lessen the burdens of Government; reduction of physical and economic blight; combating community deterioration by fostering business attraction, retention and expansion in areas in need of permanent job opportunities; workforce advancement and general growth opportunities. CEZ, Inc. is not a governmental entity and therefore uses a different reporting model. As such, its balances and transactions are reported on separate financial statements.

Columbia Development Corporation (CDC)

Incorporated in 1980, the CDC was formed to assist the City in promoting and monitoring the growth and development of business concerns through the strengthening of the economic and residential base of the community. The nine member Board of Directors is composed of three members of City Council, the Mayor, the City Manager and four members that are appointed by City Council. The Executive Director of the CDC serves as an ex-officio Administrative Secretary. Funding for the CDC is derived from property sales, contributions, appropriations from the City, and a grant from the Environmental Protection Agency for pollution site identification and cleanup.

Columbia Housing Development Corporation (CHDC)

The CHDC, an eleemosynary organization, was formed in 1980, to assist the City in the development of housing and to promote growth in the residential base of the community. The twelve member Board of Directors is composed of three members of City Council, the Mayor, the City Manager, and seven members that are appointed by City Council. In an ex-officio capacity, city staff serves as the Secretary/Treasurer and the Executive Director. Funding for the CHDC is derived from sale of properties, interest income, mortgages receivable, and the U.S. Department of Housing and Urban Development (HUD) Grants passed through the Community Development Special Revenue Fund.

Eau Claire Development Corporation (ECDC)

Incorporated in 1993, the ECDC provides assistance in the conservation and redevelopment of neighborhoods located in North Columbia. The nine-member Board of Directors is composed of three Council members and six members appointed by City Council. Current funding is derived from the U.S. Department of Housing and Urban Development (HUD) grants passed through the Community Development Special Revenue Fund, appropriations from the City of Columbia, and sale of properties and rents

Midlands Authority for Conventions, Sports, and Tourism (MACST)

The MACST, originally incorporated as the Midlands Regional Convention Center in July 2001, was formed to oversee the development of a regional convention center and operate the convention center under a long-term management arrangement for the mutual benefit of the City and Richland and Lexington Counties of South Carolina (the Governmental Entities). The Governmental Entities have pledged their tourism development fees to support this project. However, outside of this pledge of revenues, the City is responsible for issuing the initial debt to fund this project and will retain title to the Convention Center.

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. REPORTING ENTITY (Continued)

TN Development Corporation (TNDC)

Incorporated in 1993, as an eleemosynary organization, the TNDC was organized to promote growth and develop opportunities for affordable rental housing. The ten member Board of Directors is composed of three members from Council and seven members appointed by City Council. Funding for the TNDC is derived from rental income, the State of South Carolina Housing Trust Fund, the Federal Home Loan Bank, HOME Program funds received as a subrecipient through the City, and the U.S. Department of Housing and Urban Development (HUD) grants passed through the Community Development Special Revenue Fund.

Complete financial statements of the discretely presented individual Component Units can be requested from the City's Deputy Chief Financial Officer.

B. BASIS OF PRESENTATION

GOVERNMENT WIDE FINANCIAL STATEMENTS

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. The City's internal service funds are a cost allocation of shared services and are combined with the governmental funds to produce the government wide financial statements. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

FUND FINANCIAL STATEMENTS

The City uses funds to report financial position and the results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Funds are classified into three categories: Governmental, Proprietary and Fiduciary as follows:

Governmental Fund Types:

General Fund

The General Fund is the principal operating fund of the City that accounts for all financial resources not accounted for in other funds.

ORAFINO

CITY OF COLUMBIA, SOUTH CAROLINA

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. BASIS OF PRESENTATION (Continued)

Special Revenue Funds

These funds are used to account for revenues derived from specific taxes, governmental grants and other revenue sources that are designated to finance particular functions or activities of the City. Special Revenue Funds include:

- County Services -- accounts for fire services and 911 emergency communications provided to citizens outside the City limits and the reimbursement for expenditures from Richland County.
- Accommodations Tax -- accounts for State Hotel Accommodations Tax receipts to promote activities of City organizations.
- Tourism Development -- accounts for the Tourism Development Fee imposed upon the rental of hotels, motels, and other lodging establishments in the City. This fee is dedicated to the attraction of and improving the services provided to tourists.
- Business Improvement District -- accounts for the Business Improvement District taxes assessed
 on the businesses in the downtown area of the City to promote downtown beautification.
- Hospitality Tax -- accounts for a local 2% gross sales tax on prepared food and beverages sold in establishments.
- Confiscated Drug Program -- accounts for the disposition of forfeited property and money seized in Columbia by law enforcement agencies.
- Other Programs -- provides for miscellaneous programs for park improvements and special events.
- Community Development Grants and Awards -- accounts for the Community Development Block Grants
- Justice Department Grants -- accounts for receipt of Federal and State funds for programs to improve public safety and law enforcement to the community.
- Other Grants -- accounts for the receipt of Federal and State funds used for various signal grants, and highway safety grants, various tree-planting projects, and various public services and planning projects.

Debt Service Fund

This fund accounts for the accumulation of financial resources for the payment of interest and principal on the general long-term debt of the City, other than debt service payments financed by proprietary fund types. Ad valorem taxes, interest earned on the investments of the Debt Service Fund and, if applicable, interest earned on investments of certain Capital Projects Funds are used for the payment of principal, interest, and fiscal agent expenditures on the City's general obligation and revenue bonds, and bond anticipation notes.

Capital Projects Funds

The Capital Projects Funds account for all capital improvements, except those accounted for in Proprietary Funds, financed by the City's general obligation bond issues, tax increment district property taxes, certain Federal grants and other specific receipts. These funds include:

- Parking Facilities Corporation -- accounts for funds designated for the Innovista parking garages.
- Tax Increment District -- accounts for the construction and development of parks and infrastructure, within the Congaree Vista Redevelopment District, and is funded by tax increment district property tax revenues.
- Streetscaping -- accounts for capital improvements to street landscaping.
- General Capital Projects-- accounts for various capital projects funded by various funds.
- Miscellaneous Projects -- accounts for various capital projects funded by the General Fund.

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. BASIS OF PRESENTATION (Continued)

Permanent Funds

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the City's programs. This fund includes:

Anna Dickson Park Fund -- accounts for trust funds specifically intended for the income to be
used for beautification of the parks. The funds are invested in an interest bearing account. The
amount invested equals the fair value.

Proprietary Fund Types:

Business-type Funds

The business-type funds are used to account for operations of the City (a) that are financed and operated in a manner similar to private business, where the intent is for the cost of providing goods or services to be recovered, in whole or in part, through user charges; or (b) where the City Council has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. These funds include:

- Water/Sewer Facilities Fund -- accounts for water and sewer utility activities.
- Parking Facilities Fund -- accounts for parking garage and parking ticket activities.
- Hydro-Electric Plant -- accounts for hydro electric plant activities.
- Storm Water Facilities Fund -- accounts for storm water utility activities.
- Redevelopment Programs Fund -- accounts for various home rehabilitation and mortgage lending programs funded from various sources.
- Parks and Recreation Camp Fund -- accounts for parks and recreation camp activities.

Internal Service Funds

Internal Service Funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the City, or to other governments, on a user charge basis. These funds include:

- Fleet Management -- accounts for the maintenance and repair of movable vehicles.
- Support Services -- accounts for a decentralized governmental and business-type inventory system, a central supply facility, procurement functions and the City's general maintenance functions.
- Risk Management -- accounts for the costs associated with self-funded liability plans for employee health, worker's compensation, unemployment, and tort liability for all City departments.

Fiduciary Funds Types (Not included in government-wide statements):

Transactions related to assets held by the City as an agent of a private organization, are accounted for in Fiduciary Fund types. These are presented separately in the statements. The City's fiduciary fund types are comprised of:

Agency Fund

This fund is used to account for assets held by the City as an agent and does not involve measurement of results of operations.

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. BASIS OF PRESENTATION (Continued)

Private-Purpose Trust Funds

These funds are used to account for assets held by the City as a trustee capacity under which principal and income benefit individuals, private organizations, or other governments.

The City reports the following major governmental funds:

- The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The County Services Fund accounts for fire services provided to citizens outside the City limits and the reimbursement for expenditures from Richland County.

The government reports the following major proprietary funds:

- The Water and Sewer Facilities Fund accounts for the activities of the water and sewer facilities.
- The Parking Facilities Fund accounts for the activities of the parking facilities.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Additionally, the effect of interfund activity has been eliminated from the government-wide financial statements, except for amounts due between the City's governmental activities and business-type activities.

The governmental fund financial statements are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets, and the unreserved fund balance is a measure of available spendable resources.

All governmental fund types use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the transaction can be identified, and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property taxes are considered available if they are collected within sixty days after year-end for government-wide financial statement purposes. The City considers revenues available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the Debt Service Fund for payments to be made early in the following year. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (Continued)

Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are received by the City before it has a legal claim to them, as when grant monies are received prior to the occurrence of the qualifying expenditures. When the revenue recognition criteria are met and the City has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet, and revenue is recognized.

Proprietary fund financial statements are accounted for on a flow of economic resources measurement focus. The accrual basis of accounting is utilized by proprietary fund types. Under this method, revenues are recognized when earned, and expenses are recorded at the time liabilities are incurred.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidelines.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the balance sheet date, and reported amounts of revenues and expenses during the reporting period. Estimates are used to determine depreciation expense, the allowance for doubtful accounts and certain claims and judgment liabilities, among other accounts. Actual results could differ from those estimates.

D. ASSETS AND LIABILITIES

Deposits

City procedures require that all unrestricted cash belonging to the City be placed in a "Pooled Cash" account to maintain the cash and investment accounts in the accounting records. Under this method, all cash is pooled for investment purposes, and each fund has equity in the pooled accounts.

The City considers cash and cash equivalents (including restricted cash and cash equivalents), to be: currency on hand, demand deposits with banks, amounts included in pooled cash and investment accounts, and liquid investments with an original maturity of three months or less when purchased.

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. ASSETS AND LIABILITIES (Continued)

Investments

In accordance with GASB 31, investments in all funds are stated at fair value. State statutes authorize the City to invest in certificates of deposit, United States Treasury and United States Agency obligations, South Carolina and related political subdivision general obligation bonds and repurchase agreements collateralized by these obligations.

Inventory and Prepaid Assets

In the fund financial statements all governmental City inventories are recorded in the Internal Service Fund at cost or estimated historical cost on a first-in, first-out (FIFO) basis. All proprietary inventories are recorded in the respective fund at cost or estimated historical cost on a first-in, first-out (FIFO) basis. The related expenditures or expenses are recognized when inventories are consumed. Changes in the year-end inventory are reflected in expenses.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Real Estate

Real estate held for resale is recorded at the lower of cost or net realizable value.

Mortgage Notes and Notes Receivable and Allowance for Loan Losses

Mortgage notes receivable, secured by the financed property, and other notes receivable are recorded in various business-type funds and component units and are stated at unpaid principal balances net of an allowance for loan losses. An allowance for loan losses is increased by charges-offs, net of recoveries. Management's periodic evaluation of the adequacy of the allowance is based on past loan loss experiences, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay the loan, estimated value of any underlying collateral, and current economic conditions. Interest is accrued monthly on notes receivable and stops when the notes go into default.

Accounts Receivable and Allowance for Bad Debt

Accounts receivable are recorded in various funds and are stated net of their allowance for uncollectible accounts.

Interfund Balances

All balances between funds that are outstanding at the end of the fiscal year are referred to as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Bond Discount and Issuance Costs

In the government-wide financial statements and proprietary fund types in the fund financial statements, bond discount and issuance costs are deferred and amortized using the straight-line method over the term of the applicable bonds, providing no material differences between the straight-line method and the interest method. In the fund financial statements, governmental fund types recognize bond discounts and issuance costs during the current period.

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. ASSETS AND LIABILITIES (Continued)

Capital Assets

In the government-wide financial statements, capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities columns. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Interest incurred during the construction phase is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds during the same period.

Under the provisions of GASB 34, the City switched from the modified method to the straight line depreciation method of reporting infrastructure during the year ended June 30, 2006. To determine the historical value of the infrastructure, the City used the information provided by the Department of Utilities and Engineering on streets acquired during fiscal years 2003 through 2006. This information provided the street name and the cost or estimated cost of the street at acquisition. These amounts also included sidewalks, curbs, and gutters adjacent to the street acquired. The City determined the life of the streets to be 20 years using the "Capital Assets of Local Governments Suggested Useful Lives".

Infrastructure assets acquired prior to 1986 would have been fully depreciated and were not considered in this calculation. For those assets acquired between fiscal years 1986 and 2008, the acquisition date is assumed to have been on the last day of the fiscal year. Infrastructure assets acquired during fiscal year 2008 were depreciated from the date of acquisition.

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide financial statements.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the estimated useful lives as follows:

Improvements	10-50 years
Buildings and Utility Plant	15-50 years
Infrastructure	20 years
Office Furniture and Equipment	5-15 years
Machinery	5-12 years

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Debt is reported net of applicable premiums or discounts on the statement of net assets. Bond premiums and discounts are deferred and amortized over the term of the bonds using the straight-line method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as issuance costs, during the current period. Bond proceeds are reported as an "other financing source" net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as expenditures.

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. REVENUES, EXPENDITURES AND EXPENSES

Property Tax Revenues

Real property and business personal property taxes, excluding automobile property taxes, become enforceable liens as of January 1. Real property taxes are levied in November and are payable without penalty before January 16. Automobile property taxes are levied throughout the year depending on vehicle tag expiration dates. Business personal property taxes are levied in September and are payable by January 15. Property taxes are assessed and collected by Richland and Lexington Counties under a joint billing and collection agreement. The City collects property taxes assessed in Richland and Lexington Counties on property annexed into Columbia.

That portion of General Fund property taxes allocated for payment of debt services is transferred to the Debt Service Fund. All Special District, Tax Increment property taxes are recorded as revenue in the Debt Service Fund and any excess revenues over debt service requirements are remitted as principle outstanding on the balance of the debt.

Sales Tax Revenue

The City incorporated a Local Option Sales Tax during the year ended June 30, 2006 of 1% to offset a reduction in property taxes. This revenue is included in the general fund property tax revenue. The tax generated \$17.1 million during the year ended June 30, 2010, and was capped in order to prevent a windfall effect of taxes collected. This "cap" created deferred revenue of approximately \$1.3 million in the General Fund as of June 30, 2010. Deferred revenue of the Local Option Sales Tax will be utilized to offset any reduction of property tax revenue and/or adjust future property tax increases.

Investment Income

The City has a policy of allocating interest income on pooled cash and investments to appropriate funds on an annual basis. The allocation is based on a percentage of the fund's average daily equity in pooled cash and investments to the total average daily-pooled equity in cash and investments.

Grant Revenue

Revenues from Federal and State grants are recognized when qualifying expenditures are made and all grant requirements have been met. Cash received by the City prior to the City making qualifying expenditures is recorded as deferred revenue.

Compensated Absences

It is the City's policy to allow employees to accumulate unused vacation and sick leave benefits up to certain maximum hours. Once an employee has completed the probationary period, accumulated unused vacation and 20% of unused sick leave, as restricted below, are payable upon termination of employment with the City. An employee with service of less than ten years may receive up to a maximum of two weeks of vacation. An employee with service of ten to twenty years may receive up to a maximum of four weeks, and service of over twenty years may receive a maximum of five weeks. Maximum carryover allowed per employee is two calendar years of accrued compensated absences.

The liability for compensated absences in the financial statements is calculated based upon recorded balances of unused leave for which the City would compensate employees if employment ended June 30, 2010. The change in this calculated amount from the previous year is expensed in current operations.

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. REVENUES, EXPENDITURES AND EXPENSES (Continued)

Operating and Nonoperating Revenues and Expenses

Proprietary and internal service funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a fund's principal ongoing operations. The principal operating revenues of the water/sewer facilities fund and the parking facilities fund are charges to customers for sales and services. Operating revenues for internal service funds consist of charges to other funds for the services being provided by the internal service funds. Operating expenses for business-type funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, expenditures are classified as follows:

Governmental Funds – By Characteristic: Current (further classified by function)

Debt Service Capital Outlay

Proprietary Funds – By Operating and Nonoperating

In the fund financial statements, governmental funds report expenditures of financial resources. Proprietary funds report expenses relating to use of economic resources.

Interfund transfers

Permanent reallocations of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated.

F. FUND BALANCE

The GASB has issued Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2010. However, early implementation is allowed and the City elected to implement the provisions of this statement during the year ended June 30, 2010. The following categories of fund balance are now being used in the fund level financial statements of the governmental funds:

Nonspendable fund balance

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable, as well as property acquired for resale.

ORAFINO

CITY OF COLUMBIA, SOUTH CAROLINA

Notes to Financial Statements June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. FUND BALANCE (Continued)

Restricted fund balance

The restricted fund balance classification includes amounts that are either restricted externally by creditors, grantors, contributors, or laws or regulations of other governments or restricted by law through constitutional provisions or enabling legislation.

Committed fund balance

The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the City removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. Committed fund balances also incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance

The assigned fund balance classification includes amounts that are constrained by the City's intent to be used for specific purposes but are not restricted or committed. The authority for making an assignment is not required to be the City's highest level of decision-making authority and as such, the nature of the actions necessary to remove or modify an assignment does not require the City's highest level of authority.

Unassigned fund balance

The unassigned fund balance classification includes amounts that have not been assigned to other funds and has not been restricted, committed, or assigned for specific purposes within the general fund.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. ENCUMBRANCES

Encumbrance accounting represents commitments related to unperformed contracts for goods and services. These contracts record expenditures as reserves to the applicable appropriation in each fund. At year-end, encumbrances are carried forward and related appropriations are considered to be budget amendments. Certain of the encumbrances will be paid by subsequent receipt of entitlements.

B. DEFICIT FUND EQUITY

Risk Management and Other Programs of the Special Revenue Fund had a combined deficit fund balance of \$3,921,317 at June 30, 2010. Revenues and transfers from other funds in subsequent years will fund these deficits.

TN Development Corporation, a component unit, has a total deficit fund balance of \$_____. Revenues from other funds in subsequent years will fund these deficits. TN Development Corporation has a \$500,000 promissory note due to the City due June 30, 2010.

C. RISK MANAGEMENT

The City is self-insured for medical and dental coverage. Health claims for individuals are limited to a lifetime amount of \$1,000,000 with a stop-loss provision of \$275,000 per year. The accrued liability for prior year claims represents estimates for medical and dental claims incurred as of June 30, 2010. Some of these claims were reported at June 30, 2010, while others may not be reported until a later date. The incurred but not reported (IBNR) is estimated by the City's independent insurance administrator based on historical results.

Notes to Financial Statements June 30, 2010

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

C. RISK MANAGEMENT (Continued)

The City self-insures worker's compensation and general liability programs. The City accounts for the Worker's Compensation program in the Risk Management Fund (an internal service fund) by charging premiums to user departments. The stop-loss provision for Worker's Compensation is \$800,000. The limits of liability for tort actions not specifically exempt by the South Carolina Government Tort Claims Act are \$300,000 per person and \$600,000 per occurrence.

The Risk Management Fund establishes claim liabilities (health, dental, worker's compensation and legal) based on estimates of the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled, and of claims that have been incurred but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. Estimated amounts of salvage, subrogation, and reinsurance recoverable on unpaid claims are deducted from the liability for unpaid claims. Because actual claim costs depend on such complex factors as inflation, changes in doctrines of legal liability, and damage awards, the process used in computing claim liabilities does not necessarily result in an exact amount, particularly for coverage such as general liability. Adjustments to claim liabilities are charged or credited to expense in the period in which they are made.

Changes in the aggregate liability for health, dental, worker's compensation and legal claims were as follows:

		Current Year		
		Claims and		
	Beginning	Changes in	Claims	Ending
Fiscal Year	Liability	Estimates	Payments	Liability
2009	\$ 15,079,452	\$ 19,815,099	\$ (20,890,611)	\$ 14,003,940
2010	\$ 14,003,940	\$ 20,418,456	\$ (21,411,752)	\$13,010,644

Fiscal year 2010 aggregate liability includes the following amounts for legal claims: \$7,647,140 beginning liability, \$899,888 current year claims and changes in estimates, and \$1,331,138 claims payments. The ending liability for legal claims is \$7,215,890. See also Note VI. B.

Property and Boiler Coverage policies are accounted for in the Risk Management Fund, as well as other small insurance policies, such as surety bond coverage and miscellaneous floaters. Funds are charged expenditures based on premium amounts and administrative charges. The City has had no significant reductions in insurance coverage during the year and settlements have not exceeded insurance coverage for each of the past three fiscal years.

Notes to Financial Statements June 30, 2010

III. DETAIL NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

As of June 30, 2010, the City, excluding component units, had the following investments (in thousands):

	Investi	ment Maturities	(in Years)
	Fair	Less	Greater
Investment Type	Value	Than 1	Than 1
Certificates of Deposit / Money Market	\$ 230,528	\$ 74,539	\$ 155,989
Treasuries	36,405	4,199	32,206
Agencies	45,356	16,851	28,505
Total	\$ 312,289	\$ 95,589	\$ 216,700

Investment Classification

Investments are classified as current on the Statements of Net Assets based on the ability of the City to sell the securities at any time regardless of maturity.

Interest Rate Risk

In accordance with its investment policy the City manages its exposure to declines in fair values typically by limiting the maturity of its portfolio to no more than seven years.

Credit Risk

State law and the City's investment policy limit investments to the following securities:

- Obligations of the United States and agencies thereof.
- General obligations of the State of South Carolina or any of its political subdivisions.
- Certificates of deposit where the certificates are collaterally insured by securities described above held by a third party as escrow agent or custodian, of a market value not less than the amount of the certificates of deposit so secured, including interest.
- Repurchase agreements when collateralized by securities set forth above.

Concentration of Credit Risk

The City's investment policy prohibits investing more than 10% of the total portfolio in a single holding or more than 25% in any one issuer except for United States Treasury securities and money market mutual funds.

Custodial Credit Risk - Deposits

The City's cash deposit policy requires that United States Treasury securities of a fair value equal to the bank deposits be held by a third party custodian in the City's name. At June 30, 2010 the City was in full compliance with its collateral policy.

Custodial Credit Risk - Investments

Similarly, the City uses an independent investment custodian who takes direction from the outside portfolio managers and independently settles all trades with the securities being held by the custodian on behalf of and in the name of the City.

Notes to Financial Statements June 30, 2010

III. DETAIL NOTES ON ALL FUNDS (Continued)

B. RECEIVABLES

Receivables for the primary government, as of year-end are shown net of allowances for uncollectible accounts. Management's estimates of uncollectible accounts at June 30, 2010 are as follows:

General Fund	\$ 1,163,297
Water/Sewer Facilities	\$ 1,497,237
Parking Facilities	\$ 1,534,369
Nonmajor Business-type activities	\$ 2,674,781

Receivables for the Component Units consist of items totaling \$____at June 30, 2010. As of June 30, 2010, the allowance for doubtful accounts was approximately \$____.

Contractual rights and related obligations

During the year ended June 30, 2004 the City acquired the contractual right to receive approximately \$1,000,000 per year for seven years in monthly installments. At the same time, the City contracted to pay \$1,000,000 per year annually for seven years to an unrelated governmental entity. No interest was specified in either contract. This receivable and related payable has been discounted at 4.75% (prime rate at the date of the transaction). Further details of the contract can be found in Note VI. C.

C. MORTGAGE NOTES RECEIVABLE AND REVOLVING LOAN POOLS

The various mortgage programs involve the Community Development loan programs which are reported in the nonmajor proprietary funds and certain component units. The various types of loan programs are complex in nature and require specialized accounting methods, including the valuation of notes and mortgages receivable at the lower of cost or market.

Primary government

Mortgage notes receivable in the various Community Development Revolving Loan programs are evaluated annually and loan loss allowances are applied where appropriate. All mortgages are secured by the property and delinquent mortgages receivable are estimated to be \$2,324,178 as of June 30, 2010.

Component units

The Columbia Housing Development Corporation (CHDC) has mortgage notes receivable consisting of \$_______. Mortgage notes receivable consist of loans to individuals under various federal housing lending programs and have various interest rates and maturity dates. The Columbia Housing Development Corporation is considered a real estate development corporation and revenue recognition is applied under the cost recovery method.

The Columbia Development Corporation (CDC) has mortgage notes receivable consisting of \$_____. Mortgage notes receivable consist of two loans to corporations for the purpose of community development and have various interest rates and maturity dates. The Columbia Development Corporation is considered a community development corporation and revenue recognition is applied under the cost recovery method.

Notes to Financial Statements June 30, 2010

III. DETAIL NOTES ON ALL FUNDS (Continued)

D. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The interfund receivables and payables at June 30, 2010 are as follows:

	Interfund Receivables	Interfund <u>Payables</u>	
Funds:			
Water/Sewer Facilities	\$ 17,325,088	\$	0
Other Governmental	0		8,488,005
Other Proprietary	0		3,585,270
Internal Service	0		5,251,813
Total	\$ 17,325,088	\$	17,325,088

The outstanding balance between funds results primarily from one of the following time lags: (1) the dates that interfund goods and services are provided or reimbursable expenditures occur; (2) transactions are recorded in the accounting system; and (3) payments between funds are made.

The interfund transfers at June 30, 2010 are as follows:

	Transfers <u>Out</u>	Transfers <u>In</u>
General	\$ 6,402,076	\$ 10,230,780
County Services	822,655	0
Nonmajor governmental funds	12,586,433	12,571,083
Water/Sewer	7,094,469	342,783
Parking	1,333,763	0
Nonmajor proprietary funds	2,101,673	5,349,039
Internal service funds	1,298,903	3,146,287
	\$ 31,639,972	\$ 31,639,972

Transfers are used to 1) move revenues from the fund with collection authorization to the debt service fund as debt service principal and interest payments become due, 2) move restricted amounts from borrowing to the debt service fund to establish mandatory reserve accounts, 3) move unrestricted general fund revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grants programs.

Notes to Financial Statements June 30, 2010

III. DETAIL NOTES ON ALL FUNDS (Continued)

E. OPERATING LEASES

The City is committed under various operating leases for office and copier equipment. Operating lease expenditures for the year ended June 30, 2010, were \$1,108,159. Future minimum lease payments for these leases are as follows:

Year Ending June 30,	Amount
2011	\$ 981,416
2012	687,825
2013	259,517
2014	262,070
2015	267,177
Total	\$ 2,458,005

F. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2010, is as follows (in thousands):

Governmental activities		Balance								Balance
Capital assets, not being depreciated:	Ju	ine 30, 2009		Increases		Transfers		Decreases		June 30, 2010

Construction commitments as of June 30, 2010 totaled approximately \$143,839,000.

Columbia Parking Facilities Corporation

In 2008, construction was completed on the Innovista parking garages. The parking garages and corresponding long term debt were recorded by the Columbia Parking Facilities Corporation (the Corporation), a blended component unit as noted in Note III I. The Corporation entered into an agreement with the University of South Carolina (the University) that provided the University use of the garages and, in return, the University would pay the debt service on the associated long term debt. A review of the terms of the agreement during 2010 determined that the agreement represented a capital lease with the University and therefore, the parking garages were removed from the Corporation and recorded by the University. Additionally, a lease receivable from the University was also recorded in the amount of the outstanding associated debt. See Note III. I. for details of the related debt.

Notes to Financial Statements June 30, 2010

III. DETAIL NOTES ON ALL FUNDS (Continued)

G. DEFERRED COMPENSATION PLAN

The City has two approved deferred compensation plans administered by the South Carolina Public Employees Deferred Compensation Commission. Although the City makes no contributions to either plan, employees may elect to participate under either Internal Revenue Service Section 401K or 457. The amount of the deferred compensation is expensed as salaries and a like amount is remitted to the Deferred Compensation Commission. The City owns none of the plan assets and has no liability to its employees.

H. OTHER POST-EMPLOYMENT BENEFITS

The City provides post-employment health care benefits, in accordance with City policy, to all employees who retire from the City under early or regular retirement and have been employed by the City for twenty years or more. Currently, 662 retirees meet those requirements. The City pays all premiums for all qualifying retirees. For the year ended June 30, 2010 premiums totaled \$478,940. Retirees paid dependent coverage of \$558,329. Currently, the City is financing the post-employment retirement benefits on a pay-as-you-go basis and expenditures for these insurance premiums are recorded in all of the City's funds.

The following schedule reflects the costs and number of participants in the City's health care program.

	Year Ended June 30, 2010									
	<u>2010</u>	<u>2009</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>

Retired	6.70%	5.62%	6.10%	5.81%	5.87%					
Total	<u>21.74%</u>	<u>18.23%</u>	<u>18.42%</u>	<u>18.54%</u>	16.78%					

For the fiscal year ending June 30, 2008, the City implemented Governmental Accounting Standards Board Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions", for certain postemployment health care benefits provided by the City, which are offered under a single employer plan.

From an accrual perspective, the cost of other post-employment healthcare benefits (OPEB), like the cost of pension benefits, generally should be associated with the periods in which that cost occurs. In adopting GASB Statement 45 during the year ended June 30, 2008, prospectively, the City recognized the ARC (Annual Required Contribution) associated with OPEB as an expense and the liability associated with the net OPEB obligations. The ARC consists of the cost of benefits accruing in a year plus an amount calculated to amortize any unfunded actuarial accrued liability over a period of 30 years.

Notes to Financial Statements June 30, 2010

III. **DETAIL NOTES ON ALL FUNDS (Continued)**

H. **OTHER POST-EMPLOYMENT BENEFITS (Continued)**

Annual OPEB costs and Net OPEB Obligation

The City first had an actuarial valuation performed for the plan as of July 1, 2008 to determine the funded status of the plan as of that date as well as the employer's annual required contribution (ARC) for the fiscal year ended June 30, 2010. The City's annual OPEB costs and the net OPEB obligation for the year ended June 30, 2010 on the Statement of Net Assets was as follows (information for prior years is not available as the actuarial valuation was performed for the first time as of June 30, 2007):

Employer Normal Cost	\$ 5,140,977
Amortization of UAAL*	10,290,057
Annual Required Contribution (ARC)	15,431,034
Interest on Net Obligation	877,594
Adjustment to the ARC	0
Annual OPEB Cost	16,308,628
Contributions made	(5,169,167)
Increase in Net OPEB Obligation	11,139,461
Net OPEB Obligation, July 1, 2009	 16,716,085
Net OPEB Obligation, June 30, 2010	\$ 27,855,546

^{*} Unfunded Actuarial Accrued Liabilities (UAAL) were amortized over 30 years.

Funded status and Funding Progress of the plan as of June 30, 2010 was as follows:

Present Value of Future Benefits:

Retirees & Beneficiaries	\$ 69,803,814
Covered Spouses of Retirees	21,917,988
Participants Fully Eligible for Benefits Participants Not Fully Eligible for	17,364,704
Benefits	52,760,198
Total Present Value of Future Benefits	\$ 161,846,704
Present Value of Future Normal Costs	\$ 5,140,977
Actuarial Accrued Liabilities	\$ 161,846,704
Actuarial Value of Assets	 0
Unfunded Actuarial Accrued Liability	\$ 161,846,704
Funded Ratio	0%
Covered payroll (active plan members)	\$ 86,752,201
UAAL as a percentage of covered payroll	186.56%

Notes to Financial Statements June 30, 2010

III. DETAIL NOTES ON ALL FUNDS (Continued)

H. OTHER POST-EMPLOYMENT BENEFITS (Continued)

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events well into the future, thus reflecting a long-term perspective. Examples would include assumptions about future employment, rates of retirement, mortality, and health care cost trends. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

In the June 30, 2010 actuarial valuation, the projected unit credit cost method was used. The UAAL amortization payment is the level percent of payroll (assumed to increase 3%) required to fully amortize the UAAL over a 30 year period. The actuarial assumptions included 5.25% rate of investment return. The valuation assumes a 10% health care trend inflation rate for 2010 and decreases 1% each year until 2014. General inflation is assumed to be 3% per year.

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year-end, \$241,586 of internal service funds compensated absences is included in the above amounts. Also, for the governmental activities, claims and judgments and compensated absences are generally liquidated by the general fund. The City has complied in all material respects with the bond covenants as outlined in each issue's indenture.

General Obligation Bond Anticipation Notes

In February of 2007, the City created the Columbia Parking Facilities Corporation (the Corporation), a blended component unit, and entered into an agreement with Richland County and the University of South Carolina (the University), related to the construction and operation of two parking garages. These garages are part of the University's development of a research campus known as Innovista. Under this agreement, the City agreed to issue \$7,750,000 in bond anticipation notes (BANS), of which \$6,600,000 were issued, to fund a portion of the construction costs of the first garage. Richland County agreed to issue the same amount of bond anticipation notes to assist in the funding of the first garage, with the remainder of the costs coming from resources of the University. In December of 2007, the City issued general obligation bonds and retired the bond anticipation notes.

ORAFINO

CITY OF COLUMBIA. SOUTH CAROLINA

Notes to Financial Statements June 30, 2010

III. DETAIL NOTES ON ALL FUNDS (Continued)

I. LONG-TERM DEBT (Continued)

Under the operating agreement, the University has agreed to operate the garage. Revenues of this garage are pledged to pay bonds issued to finance the garage. As noted in Note III. F. the agreement constitutes a capital lease with the University and the City has recorded a receivable for future lease payments.

General Obligation Bonds

The City has issued General Obligation Bonds to fund building programs of the City and also to refinance debt issued to fund parking facilities. The City has complete liability for the retirement of these obligations. Principal payments on all bonds are due annually and interest is due semi-annually.

The South Carolina Constitution limits local unit borrowing power to 8 percent of its assessed property value. The limitation excludes bonded indebtedness existing prior to December 1, 1977, (date of the Constitutional Amendment), certain special levies assessed on properties located in an area receiving special benefits, and other prescribed indebtedness approved by the voters.

In accordance with Section 148 of the Internal Revenue Code of 1986, as amended, and Sections 1.103-13 to 1.103-15 of the related Treasury Regulations, the City must rebate to the federal government "arbitrage profits" earned on governmental bonds issued after August 31, 1986. Arbitrage profits are the excess of the amount earned on investments over the interest paid on the borrowings, if any.

General Obligation Bonds outstanding as of June 30, 2010, are as follows:

Governmental Activities:

\$15,500,000 City of Columbia General Obligation Bonds, Series 2002

Proceeds for: Infrastructure improvements, acquisition of land Annual Principal Installments of \$575,000 to \$1,190,000

Through June 1, 2022

Interest Rate: 2.75 to 4.625% \$ 11,125,000

\$9,085,000 City of Columbia General Obligation Bonds, Series 2007A

Proceeds for: Defeasance of the 2006 Bond Anticipation Notes,

construction and infrastructure improvements

Annual Principal Installments of \$410,000 to \$770,000

through June 1, 2027

Interest Rate: 3.75 to 4.05 % 9,085,000

\$3,050,000 City of Columbia General Obligation Bonds, Series 2007B

Proceeds for: Defeasance of the 2006 Bond Anticipation Notes,

construction and infrastructure improvements

through February 1, 2012

Total Government Activities General Obligation Bonds \$ 23,125,000

Notes to Financial Statements June 30, 2010

III. DETAIL NOTES ON ALL FUNDS (Continued)

I. LONG-TERM DEBT (Continued)

Special District (Tax Increment) Debt

Title 31, Chapter 6 of the South Carolina Code of Laws allows municipalities to redevelop deteriorating areas using incremental tax revenues from property owners located in those areas. In order to finance the development of the Congaree Vista area, the City issued bonds, which are repaid from the incremental taxes of property owners in that neighborhood. The Water and Sewer Facilities Fund Revenues are pledged as a junior lien to secure this Special District Tax Increment Debt.

In December 2008, the City defeased the 2001 Tax Increment Bonds by placing its own funds in an irrevocable trust to provide for the 07/08 and 08/09 debt service payments on the bonds. Accordingly, the trust account assets and the liability for the defeased bonds will not be included in the City's financial statements. The defeased balance related to these bonds is approximately \$590,000.

Revenue Bonds, Notes and Certificates of Participation

Revenue bonds, notes and certificates of participation are special obligations of the City payable from revenues derived from certain operations. The City's revenue bond ordinances stipulate that the City maintain certain debt service, operations, and renewal and replacement funds.

The construction of the second of two Innovista garages was funded by the issuance of a \$13,070,000 tax-exempt South Carolina Jobs-Economic Development Authority Revenue Bonds, Series 2007. The Columbia Parking Facilities Parking Corporation, a component unit of the City, is responsible for the payment of the bonds. The Corporation has ownership of both garages. BB&T, the bond holder, also holds a first mortgage on both garages. Richland County is responsible for 50% of the construction costs. The garages are operated by the University, and the revenues from them are remitted by USC to the Corporation to retire this debt. This arrangement constitutes a capital lease agreement with the University, and as such, a receivable has been recorded for the amount of future debt service. The garages have been recorded by the University (See Note III. F. for more details). Interest payments began on April 1, 2007. The principal balance is payable in monthly installments beginning September 1, 2008, together with interest on the unpaid balance, with a final payment of all principal and interest, due and payable in full on March 1, 2031. Interest is at a rate per annum equal to 95% of the LIBOR Rate, which was 0.347% at June 30, 2010.

In the event of default of these Series 2007 revenue bonds, no judgment for any deficiency upon the indebtedness will be sought or obtained by the bank against the City. The University of South Carolina is the guarantor for payment of the debt.

An additional \$5,185,000 taxable (based on percent of garage used for private purposes) construction and term loan was made to the Corporation by a bank for the second garage that enables the Corporation to draw down proceeds from the loan as needed during the construction of the second garage. The principal balance and any accrued interest are due in full on March 1, 2017. Interest is payable at an adjusted LIBOR rate, which is a rate of interest per annum equal to the One Month Libor plus 1.5% per year. This rate is adjusted monthly on the first day of each month for each LIBOR interest period (0.347%, at June 30, 2010). At June 30, 2010, \$4,809,142 was outstanding on the term loan.

In the event of foreclosure of this note, no judgment for any deficiency upon the indebtedness will be sought or obtained by the bank against the City.

Total Water and Sewer Revenue Bonds

301,260,000

Total Business-type Activities Revenue Bonds

\$ 348,240,000

Defeasance Debt

In prior years, the City defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. On June 30, 2010, revenue bonds outstanding, considered defeased in previous years, are approximately \$1,600,000 in the Water and Sewer Facilities Fund.

Conduit Debt

Resolution 2006-027 passed June 28, 2006 was issued in support of the issuance of not exceeding \$4,500,000 in revenue bonds by JEDA for the Palmetto Health Foundation Project. While the City is not obligated for the repayment of conduit type debt, disclosure is required in the notes to the financial statements. As of June 30, 2010, the balance of this conduit debt was \$3,415,002.

IV. PENSION PLANS

The City's retirement plans are as follows:

Description of Plans

As a condition of employment, all eligible City employees are required to participate in a pension plan. All firemen and law enforcement officers must belong to the South Carolina Police Officers' Retirement System (SCPORS). All other eligible employees must belong to the South Carolina Retirement System (SCRS). Both plans are a cost-sharing multiple-employer Public Employee Retirement System (PERS) administered by the Retirement Division of the State Budget and Control Board. Retirement costs are funded by withholding from the employees' salaries, and by a contribution from the City of a percentage of the employees' salaries. Both Retirement Systems are administered by the South Carolina Retirement System, which is a state agency. The City has no fiduciary responsibility for or further liability for either of the retirement plans beyond their current contributions, except as noted below, which are established to fund prior year's liabilities. A Comprehensive Annual Financial Report containing financial statements and required supplementary information for the South Carolina Retirement System and Police Officers Retirement System is issued and publicly available by writing the South Carolina Retirement System, Post Office Box 11960, Columbia, South Carolina 29211-1960.

Notes to Financial Statements June 30, 2010

IV. PENSION PLANS (Continued)

Basic Provisions

Benefit provisions are established under the authority of Title 9 of the South Carolina Code of Laws. Under current statutes pertaining to the SCRS, member employees who retire at age 65 or after 28 years of credited service are entitled to an annual full service retirement benefit, payable monthly for life, equal to 1.82 percent of the average final compensation (average compensation over the last three years of credited service) times years of credited service. A member with at least 25 years of credited service who terminates employment may continue to pay employee and employer contributions until 28 years of credited service credit is reached. The contributions will be made through the most recent employer on a regular basis and remitted to the South Carolina Retirement System.

Under current statutes pertaining to the SCPORS, member employees who retire at age 65 or after 25 years of credited service are entitled to an annual full service retirement benefit, payable monthly for life, equal to 2.14 percent of average final compensation times years of credited service.

Member employees who are at least 60 years of age may elect early retirement in which case the full service benefit is reduced by 5 percent for each year the employee's age at retirement is less than 65. In either case, any unrecovered contributions are payable upon death and cost of living adjustments are evaluated annually on an ad hoc basis. Full service or early retirees may elect other optional methods of benefit distributions, including lump sum distributions, benefit levels coordinated with the retiree's social security benefits and distributions to a named beneficiary. Benefits are fully vested on reaching 5 years of service. The SCRS and SCPORS also provide life insurance, survivor and disability benefits to all member employees.

Funding Policy

South Carolina Retirement System (SCRS)

From July 1, 1988 – June 30, 2006 employees participating in the SCRS were required to contribute 6 percent of eligible compensation. Effective July 1, 2006 the employee contribution rate increased to 6.50 percent of eligible compensation. Effective July 1, 2007, the employer contribution rate became 9.39 percent which includes 0.15 percent towards group life insurance. City contributions to SCRS for the years ended June 30, 2008, 2009 and 2010 were \$4,902,695, \$5,253,110 and \$5,038,156, respectively equal to the actuarially required contributions for each year.

Police Officers Retirement System (SCPORS)

Since July 1, 1988, employees participating in the PORS have been required to contribute 6.5 percent of all compensation. Effective July 1, 2007, the employer contribution rate became 10.85 percent which includes 0.20 percent towards group life insurance. Contributions to SCPORS for the years ended June 30, 2008, 2009 and 2010 were \$3,818,658, \$4,144,042, and \$3,860,867, respectively, equal to the actuarially required contribution rates for each year.

V. RECENT ACCOUNTING PRONOUNCEMENTS

The GASB has issued Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2010. However, early implementation is allowed and the City elected to implement the provisions of this statement during the year ended June 30, 2010. See footnote I. F. for further information.

Notes to Financial Statements June 30, 2010

V. RECENT ACCOUNTING PRONOUNCEMENTS (Continued)

The GASB has issued Statement No. 56, "Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards". The objective of this Statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance presented in the AICPA's Statements on Auditing Standards. This Statement addresses three issues not included in the authoritative literature that establishes accounting principles - related party transactions, going concern considerations, and subsequent events. The presentation of principles used in the preparation of financial statements is more appropriately included in accounting and financial reporting standards rather than in the auditing literature. This Statement does not establish new accounting standards but rather incorporates the existing guidance (to the extent appropriate in a governmental environment) into the GASB standards. The City has implemented the provisions of this statement.

The GASB has issued Statement No. 57, "Governmental Accounting Standards Board OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans". The objective of this Statement is to address issues related to the use of the alternative measurement method and the frequency and timing of measurements by employers that participate in agent multiple-employer other post-employment benefit (OPEB) plans (that is, agent employers). As the City does not use an alternative measurement method, the provisions of this statement are not applicable to the City.

The GASB has issued Statement No. 58, "Accounting and Financial Reporting for Chapter 9 Bankruptcies". The objective of this Statement is to provide accounting and financial reporting guidance for governments that have petitioned for protection from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. It requires governments to re-measure liabilities that are adjusted in bankruptcy when the bankruptcy court confirms (that is, approves) a new payment plan. As the City has not filed for bankruptcy, the provisions of this statement are not applicable to the City.

The GASB has issued Statement No. 59, "Financial Instruments Omnibus". The objective of this Statement is to update and improve existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools for which significant issues have been identified in practice. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2010. The City has not yet determined the impact on its financial statements for this standard.

VI. COMMITMENTS AND CONTINGENCIES

A. Federal Grants

In the normal course of operations, the City receives grant funds from various federal agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to insure compliance with conditions precedent to the granting of funds. Any liability for reimbursement that may arise as the result of audits of grant funds is not believed by City officials to be material.

B. Litigation

The City is a party to legal proceedings that normally occur in government operations. The City is involved in unresolved legal actions concerning construction contracts and other matters. The City believes its positions are meritorious and is vigorously defending its positions. The City's estimate of ultimate loss has been recorded as a liability in the Risk Management Fund financial statements (Note II. C).

ORAFINO NO. 15.10

CITY OF COLUMBIA, SOUTH CAROLINA

Notes to Financial Statements June 30, 2010

VI. COMMITMENTS AND CONTINGENCIES (Continued)

C. Central Midlands Regional Transit Authority ("CMRTA")

In 2002, the City entered into a conveyance agreement with South Carolina Electric & Gas Company ("SCE&G"). The basic premise of this agreement was to convey the operations of the CMRTA from SCE&G to the direction of the City. The CMRTA was established in October 2002, and is committed to providing safe, dependable and accessible public transit service to the heart of the Midlands, including Columbia, Cayce, West Columbia, Forest Acres, Arcadia Lakes, Springdale and the St. Andrews area. Under the conveyance agreement SCE&G agreed to transfer funds of \$15,000,000 and \$17,290,000, both under installment agreements, to the City. The City then entered into an agreement with CMRTA to transfer these SCE&G payments to the CMRTA. In addition to transferring the SCE&G funds to the CMRTA, the City also made the following commitments:

- 1. The City agreed to pay CMRTA the amount of \$1,000,000 annually on each October 1 beginning October 1, 2003; provided, however, that if a dedicated tax or dedicated source of revenue is approved to provide funds for the operation of transit services, the City's obligation under this Section shall cease on the first anniversary of the approval of the dedicated source of revenue. As of June 30, 2009, no dedicated tax or dedicated source of revenue has been approved. The payments continue in perpetuity until an alternate source of revenue is approved.
- 2. The City agreed to transfer to the CMRTA on the effective date all amounts budgeted by the City but unspent for all expenses related to the trolley service for fiscal year 2002/2003. Thereafter, the City shall pay the CMRTA the amount of \$90,000 as verified by the current budget for the fiscal year 2002/2003 annually for seven years on each October 1 beginning October 1, 2003; however, if a dedicated tax or dedicated source of revenue is approved to provide funds for the operation of transit services, the City's obligation under this Section shall cease on the first anniversary of the approval of the dedicated source of revenue. As of June 30, 2009, no dedicated tax or dedicated source of revenue has been approved.

On July 9, 2009, the City and SCE&G amended the conveyance agreement. The amendment requires that SCE&G remit \$4,000,000 to the City in two equal installments of \$2,000,000 in lieu of conveying the Huger Street bus barn property. The first installment was made contemporaneously with the execution of the amendment and the second will be due 365 days from that date. If needed, these payments will be available for payment to CMRTA.

D. Eau Claire Development Corporation

The City has committed to provide a line of credit to the Eau Claire Development Corporation ("ECDC"). The line of credit will be used by ECDC to fund a construction commitment to Rex Thompson Builders to build twelve houses in the amount of \$1,399,421. The terms of the line of credit provide for reimbursement from ECDC to the City at the time each house is sold.

VII. INTEREST RATE SWAP AGREEMENTS

To hedge exposure to rising interest rates the Columbia Parking Facilities Corporation ("The Corporation") entered into two variable-to-fixed interest rate swap agreements related to \$13,070,000 and \$5,185,000 bonds payable. The agreements were entered into in February 2007 and were effective on February 23, 2007 and March 1, 2007, respectively. The Counterparty is Branch Bank and Trust Corporation. The purpose of the swaps was to effectively change the variable rate notes to fixed rate bonds. The bonds and related swap agreements mature on March 1, 2017. The notional amounts of the swaps equal the principal amounts of the associated bonds and decrease simultaneously with the reduction in the principal amounts of the associated bonds. As of June 30, 2010, the notional amounts were \$12,520,000 and \$4,995,000.

Notes to Financial Statements June 30, 2010

VII. INTEREST RATE SWAP AGREEMENTS (Continued)

The swaps provide for payment by the Corporation of a 5.085% and 6.815% fixed rate on a notional amount, having an amortization schedule equal to that of the bonds. In return, the counterparty will pay the Corporation a variable rate equal to 95% of the one-month London Interbank Offered Rate (LIBOR) on such notional amount. At June 30, 2010, 95% of LIBOR was 0.347%. As a result of these hedge transactions, the payments received by the Corporation from the counterparties pursuant to the swaps are expected to approximate the interest payment on the notes, which are based on an auction rate, resulting in net fixed rate debt service. Because the variable interest rates paid by the Corporation and paid to the Corporation are based on different indexes, the Corporation is exposed to basis risk.

There can be no assurance that the actual payments received by the Corporation from the counterparties will match the actual interest payments. The Corporation is also exposed to credit risk. That is the risk that the counterparty, Branch Bank and Trust, cannot perform their obligation on the swap contract. In the event that either party to the swap, BB&T or Columbia Parking Facilities Corporation, cannot perform on the agreement, no judgment for any deficiency will be sought or obtained against the City of Columbia. The University of South Carolina is solely responsible for payment if the Corporation cannot perform on the agreements. As such, the City has decided not to implement the provisions of GASB Statement No. 53 for this interest rate swap.

The obligation of the Corporation to make regularly scheduled payments under the swaps ranks on a parity basis with the Corporation's obligation to make debt service payments on its outstanding bonds. Under certain circumstances, the swaps are subject to termination prior to their respective scheduled expiration dates and prior to the maturity of the bonds to which each such swaps relates, in which event the Corporation may be obligated to make a substantial payment to the respective counterparty ("Termination Payments"). The obligation of the Corporation to make any termination payments under the swaps is junior and subordinate to the obligation to make debt service payments on notes. Under the swaps, the counterparties have certain limited rights to consent to modifications to the master resolution, which modifications would affect the rights of the counterparties under the swaps. To minimize credit or repayment risk, the swap agreements contain varying collateral agreements with the counterparties. The swaps require collateralization of the fair value of the swaps should the counterparty's credit rating fall below the applicable thresholds. During fiscal year 2010, the Corporation made variable interest payments of \$113,026 and the net settlement of variable receiver and fixed payer payments of \$881,715. The market value of the swaps was (\$2,142,007) and (\$899,557) at June 30, 2010, respectively.

Debt service payments on the notes are disclosed in Note III.I.

VIII. SUBSEQUENT EVENTS

In February 2009, the City issued \$81,860,000 of Series 2009 Waterworks and Sewer System Revenue Bonds. During the year and subsequent to year end, the City approved contracts and agreements for materials and services in the amount of approximately \$86 million which will be paid primarily from the proceeds of the bond issue. Details of the revenue bond issue can be found at Note III. I.

REQUIRED SUPPLEMENTARY INFORMATION

The Schedules of Funding Progress and Employer Contributions – Other Postemployment Benefits provide information relating to the City's adoption of GASB Statement No. 45.

General Fund is the principal operating fund of the City that accounts for all financial resources not accounted for in other funds.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Accommodations Tax accounts for State Hotel Accommodations Tax receipts to promote activities of City organizations.

Tourism Development Convention Center accounts for the Tourism Development Fee imposed upon the rental of hotels, motels, and other lodging establishments in the City. This fee is dedicated to the attraction of and improvement of the services provided to tourists.

Business Improvement District accounts for the Business Improvement District taxes assessed on the businesses in the downtown area of the City to promote downtown beautification.

Hospitality Tax accounts for a 2% gross sales tax on prepared food and beverages sold in establishments to promote activities of City organizations.

Confiscated Drug Program accounts for the disposition of forfeited property and money seized in Columbia by law enforcement agencies.

Other Programs provides for miscellaneous programs for park improvements and special events.

Community Development grants and awards accounts for the Community Development Block Grants and Emergency Shelter Grant.

Justice Department Grants accounts for receipt of Federal and State funds for programs to improve public safety and law enforcement to the community.

Other Grants accounts for the receipt of Federal and State funds for programs to improve public safety and law enforcement to the community, various tree-planting projects, and various public service and planning projects.

Debt Service Funds

Debt Service accounts for the accumulation of financial resources for the payment of interest and principal on the general long-term debt of the City, other than debt service payments financed by proprietary fund types. Ad valorem taxes, interest earned on the investments of the Debt Service Fund and interest earned on investments of certain Capital Projects Funds are used for the payment of principal, interest, and fiscal agent expenditures on the City's general obligation and revenue bonds. There is a General Obligation ("GO") Bond Debt Service Fund and a Special District Bond Debt Service Fund. Each fund is set up to hold the investments set aside for the payments of the respective debt.

Capital Project Funds

Tax Increment District accounts for the construction and development of parks and infrastructure within the Congaree Vista District funded by tax increment district property tax revenues.

Streetscaping accounts for capital improvements to street landscaping.

General Capital Projects accounts for various capital improvements in the City.

Miscellaneous Projects accounts for various capital projects funded by the General Fund.

Permanent Trust

Anna Dickson Park Fund accounts for an endowment for which the investment income must be used to purchase flowers for the parks.

NONMAJOR PROPRIETARY FUNDS

Nonmajor Proprietary Funds are used to account for operations of the City (a) that are financed and operated in a manner similar to private business, where the intent is for the cost of providing goods or services to be recovered, in whole or in part, through user charges; or (b) where the City Council has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. These funds include:

Hydro-Electric Facilities Fund accounts for hydro electric plant activities.

Storm Water Facilities Fund accounts for storm water utility activities.

Redevelopment Programs Fund accounts for various home rehabilitation and mortgage lending programs funded from various sources.

Parks and Recreation Camp Fund accounts for the parks and recreations camp activities.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the City, or to other governments, on a user charge basis. These funds include:

Fleet Management accounts for the maintenance and repair of vehicles.

Support Services accounts for a decentralized governmental and enterprise inventory system, a central supply facility, procurement functions and the City's general maintenance functions.

Risk Management accounts for the costs associated with self-funded liability plans for employee health, worker's compensation, unemployment and tort liability for all City departments.

The City levied and collected real and personal property taxes in some areas of Lexington County due to annexation. Ξ

(2) Includes only 80% of taxes levied on real property on which the assessment has been appealed.

This represents delinquent taxes collected within the fiscal year. A breakdown of delinquent tax collections by year of tax is not available. Therefore, the ratio of total tax collections to total tax levy may exceed 100%. ල

(4) Does not include payment in lieu of taxes from Columbia Housing Authority.

* Change from prior year figures
