RE: 1. Continuing Disclosure Agreement dated as of November 25, 2008 between Presbyterian Healthcare Services and Wells Fargo Bank, National Association (the "Continuing Disclosure Agreement")

2. Continuing Disclosure Agreement dated as of September 24, 2009 between Presbyterian Healthcare Services and Wells Fargo Bank, National Association (the "Continuing Disclosure Agreement")

3. Continuing Disclosure Agreement dated as of August 30, 2012 between Presbyterian Healthcare Services and Wells Fargo Bank, National Association (the "Continuing Disclosure Agreement")

Dear Shana,

Pursuant to Section 3(d) of the above referenced Continuing Disclosure Agreement(s) and on behalf of the Members of the Obligated Group, I have enclosed our Quarterly Report for the fiscal quarter ended March 31, 2013, which includes unaudited financial statements, management discussion and analysis, and other supplementary information for the Obligated Group, as defined in the Continuing Disclosure Agreement(s).

Also included are operating data for Presbyterian Healthcare Services for the periods ended March 31, 2013 and 2012.

Please distribute copies of the Quarterly Report for the quarter ended March 31, 2013 to the Master Trustee, each NRMSIR, SID (as applicable) and to the Electronic Municipal Market Access system for the Municipal Securities Rulemaking Board, each as defined in the Continuing Disclosure Agreement(s).

Should you have any questions, please do not hesitate to contact me at <u>cspencer@phs.org</u> or call me at (505) 923-6395.

Regards,

Christopher C. Joencer

Christopher C. Spencer Vice President Treasury Services

Presbyterian Healthcare Services Quarterly Report March 31, 2013

Forward-Looking Information -

This disclosure report may contain disclosures which contain "forward-looking statements." Forward-looking statements include all statements that do not relate solely to historical or current facts, and can be identified by the use of words such as "believe," "expect," "may," "might," "will," "should," "seek," "could," "approximately," "intend," "plan," "estimate," "budget," "anticipate," or "continue" or the negative of those words or other similar expressions. Forward-looking statements involve inherent risks and uncertainties and are based on the current plans and expectations of Presbyterian Healthcare Services (PHS) and are subject to a number of known and unknown uncertainties and risks, many of which are beyond PHS's control, that could significantly affect current plans and expectations and PHS's future financial position and results of operations. These factors include, but are not limited to, (i) the highly competitive nature of the health care business, (ii) the efforts of insurers, health care providers and others to contain health care costs, (iii) possible changes in the Medicare and Medicaid programs that may impact reimbursements to health care providers and insurers, (iv) changes in federal, state or local regulations affecting the health care industry. (v) the possible enactment of federal or state health care reform, (vi) the ability to attract and retain qualified management and other personnel, including affiliated physicians, nurses and medical support personnel, (vii) liabilities and other claims asserted against PHS, (viii) changes in accounting standards and practices, (ix) changes in general economic conditions, (x) future divestitures or acquisitions which may result in additional charges, (xi) changes in revenue mix and the ability to enter into and renew managed care provider arrangements on acceptable terms, (xii) the availability and terms of capital to fund future expansion plans of PHS and to provide for ongoing capital expenditure needs, (xiii) changes in business infrastructure costs, (xiv) delays in receiving payments, (xv) the ability to control administrative, supply and infrastructure costs, (xvi) the outcome of pending and any future litigation, (xvii) PHS's continuing efforts to monitor, maintain and comply with appropriate laws, regulations, policies and procedures relating to PHS's status as a tax-exempt organization, as well as its ability to comply with the requirement of Medicare and Medicaid programs, (xviii) the ability to achieve expected levels of patient volumes and control the costs of providing services, (xix) results of reviews of PHS's cost reports, and (xx) PHS's ability to comply with legislation and/or regulations. As a consequence, current plans, anticipated actions and future financial position and results of operations may differ from those expressed in any forward-looking statements made by or on behalf of PHS. You are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in this report.

Forward-looking statements contained herein are made only as of the date made, and we do not undertake any obligation to update them to reflect events or circumstances after the date of this disclosure to reflect the occurrence of unanticipated events.

Presbyterian Healthcare Services Notes to Condensed Combined Financial Statements March 31, 2013

1. Organization

Presbyterian Healthcare Services (PHS) is a New Mexico nonprofit corporation exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. PHS is a diversified healthcare organization which owns, leases, controls, operates or manages a variety of healthcare-related organizations, including six hospitals in New Mexico, a for-profit health maintenance organization, and several other affiliated organizations. PHS provides a broad range of healthcare services, including inpatient, outpatient, sub-acute, home healthcare and physician services.

PHS consists of the following divisions and affiliates:

Presbyterian Healthcare Services Divisions:	Presbyterian Healthcare Services Affiliates:
Presbyterian Hospital*, including the following	Southwest Health Foundation
which are designated as remote locations of	Presbyterian Network, Inc. (PNI)
Presbyterian Hospital:	Presbyterian Insurance Company, Inc.
Presbyterian Kaseman Hospital*	Presbyterian Health Plan, Inc.
Presbyterian Northside*	Albuquerque Imaging Associates
Presbyterian Rust Medical Center*	Southwest Magnetic Imaging Associates
Presbyterian Rio Rancho Patient Access	Presbyterian Properties, Inc. (PPI)
Center*	Presbyterian Healthcare Foundation*
Plains Regional Medical Center*	Bernalillo County Health Care Corporation
Presbyterian Española Hospital*	d.b.a. Albuquerque Ambulance Service*
Socorro General Hospital*	

Lincoln County Medical Center (leased facility) Dr. Dan C. Trigg Memorial Hospital (leased facility)

* Denotes Obligated Group members.

PHS accesses the capital markets through an Obligated Group. Obligated Group members include PHS and certain divisions and affiliates as noted above, which are jointly and severally liable for the long-term debt outstanding under a Master Trust Indenture. None of the other PHS affiliates have any obligation related to requirements of the Master Trust Indenture. The Obligated Group's net assets represent approximately 62% and 60% of PHS and affiliates' combined net assets at March 31, 2013 and December 31, 2012, respectfully.

Presbyterian Network, Inc. (PNI) is a wholly owned subsidiary of Southwest Health Foundation. PNI is the parent organization of two wholly owned subsidiaries, Presbyterian Health Plan, Inc. (PHPI) and Presbyterian Insurance Company, Inc. (PIC). PHPI is a state-licensed HMO in New Mexico, and is also a federally qualified HMO under Title XIII of the Public Health Service Act, and provides services to individuals through employer contracts, to eligible individuals through the New Mexico Medicaid program and to Medicare-eligible individuals through a Medicare risk program. PIC offers preferred provider and indemnity products to individuals directly and through contracts with employer groups.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying condensed combined financial statements include the accounts of PHS and its affiliates described in Note 1 (collectively PHS) and have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and notes required for complete financial statements. All significant intercompany balances and transactions have been eliminated in combination.

The December 31, 2012 financial statement information was derived from and should be read in conjunction with the Presbyterian Healthcare Services and Affiliates 2012 audited combined financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Actual results could differ from those estimates.

3. Fair Value Measurements

PHS has designated the accumulations of certain funds for future replacement of property and equipment, other capital improvements, debt retirement, self-insurance reserves and other long-term purposes. Under the terms of the Master Trust Indenture for the outstanding bond issues, funds held by the trustee have been established and legally designated for debt service and qualifying capital expenditures.

The following is a summary of assets limited as to use or restricted at fair value, except for the alternative investments held in PHS's corporate investment portfolio, which are recorded at the net asset value using the equity method. Alternative investments held by Presbyterian Healthcare Foundation and in the PHS defined benefit plan are recorded at fair value.

	March 31, 201	B December 31, 2012
	(In	Thousands)
Cash and cash equivalents	\$ 57,64	1 \$ 76,701
Fixed income securities	467,19	7 437,926
Equity securities	620,99	2 582,290
Alternative investments	180,38	3 189,700
Public Master Limited Partnerships	80,49	5 108,193
Government securities and other	102,27	5 66,682
	\$ 1,508,98	3 \$ 1,461,492

3. Fair Value Measurement (Continued)

In March, 2012, Presbyterian and the Foundation entered into a systematic hedge overlay strategy (the "SHO strategy") with Goldman Sachs Financial Markets, L.P. which utilizes a combination of puts and calls (each combination a "position") based on an index in order to provide protection against declines in the market value of equity investments. Each position includes selling a call which pays for the downside protection but effectively limits the upside returns on those equity investments. The current SHO strategy involves hedging multiple equity positions for a three-month tenor which mature on a staggered monthly basis. Approximately \$200 million of Presbyterian's equity investments were hedged through the SHO strategy as of March 31, 2013. The hedge positions are recorded at fair value in the combined financial statements. Presbyterian recorded realized losses of \$11.7 million and zero for the three month periods ended March 31, 2013 and 2012, respectively, which are included in investment income in the combined statement of operations. The fair value of outstanding positions at March 31, 2013 resulted in an unrealized loss of approximately \$3.5 million which is included in changes in unrealized gains on investments in the combined financial statements.

As of March 31, 2013 and December 31, 2012 PHS had a total of \$180 million and \$189 million, respectively, invested in alternative investments representing various hedge funds, real assets and other alternative asset classes that included limited liability companies, limited liability partnerships and master limited partnerships as follows:

	Marc	h 31	December 31 2012		
	201	3			
		(In Thous	sands)		
Absolute return asset class	\$	32,760	\$	32,900	
Hedged equity asset class		34,400		43,600	
Private equity asset class		6,500		6,500	
Real Asset class		63,600		63,200	
Other alternatives		13,300		13,300	
Total cost basis		150,560		159,500	
Equity method changes, net		29,823		30,200	
	\$	180,383	\$	189,700	

Investment income on assets limited as to use or restricted (excluding restricted by donor) consist of the following:

		Three Months Ended March 2013 2012						
	2	(In Thousa		<u></u>				
Interest and dividend income	\$	6,406	\$	6,828				
Realized gains on investments		(887)		10,567				
Total realized income		5,519		17,395				
Changes in unrealized gains on investments		47,812		65,423				
	\$	53,331	\$	82,819				

Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, requires the categorization of financial assets and liabilities into a three-level hierarchy based on pricing inputs to the valuation technique. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs. The various levels of the fair value hierarchy are described as follows:

3. Fair Value Measurement (Continued)

- Level 1 Pricing is based on observable inputs such as quoted prices in active markets.
- Level 2 Pricing inputs are based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Pricing inputs are generally unobservable and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require management's judgment or estimation of assumptions that market participants would use in pricing the assets or liabilities. The fair values are therefore determined using factors that involve considerable judgment and interpretations, including but not limited to private and public comparables, third-party appraisals, discounted cash flow models, and fund manager estimates.

Assets and liabilities measured at fair value are based on one or more of three valuation techniques noted in ASC 820. The three valuation techniques are identified in the tables below. Where more than one technique is noted, individual assets or liabilities were valued using one or more of the noted techniques. The valuation techniques are as follows:

- (a) *Market approach*. Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
- (b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost).
- (c) *Income approach*. Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. The majority of PHS' marketable debt and equity securities are measured based on observable market prices. PHS' swap instruments are measured using models based upon observable pricing inputs.

3. Fair Value Measurements (continued)

The Following table presents the fair value hierarchy for those financial assets and liabilities measured at fair value on a recurring basis as of March 31, 2013:

		Level 1	_	evel 2		evel 3		air Value		Equity Aethod		ving Value at Iarch 31	Valuation Tcchnique (a, b, c)

=	\$ 588,523	\$	583,934	

The Series 2012A Revenue Bonds were issued through the New Mexico Hospital Equipment Loan Council in August 2012. Proceeds of the bonds will be used to fund various healthcare facilities throughout the PHS system including, a patient tower at the Espanola Hospital, a cancer center on the Rust Medical Center campus, a physician office building adjacent to Socorro General Hospital, and other general capital improvements, and to pay costs of issuance. The 2012 bonds are fixed-rate term bonds and have scheduled mandatory sinking fund deposits starting in 2013 continuing through 2042.

The Series 2009A Revenue Bonds totaling \$134,610,000 original issue discount bonds were issued through the New Mexico Hospital Equipment Loan Council. Proceeds of the bonds were used to fund a project fund for the construction of the Presbyterian Rust Medical Center, and pay the costs of issuance. The 2009 bonds are fixed-rate bonds and have scheduled mandatory sinking fund deposits starting in 2033 and continuing through 2039.

4. Long-Term Debt and Capital Leases (Continued)

The 2008 Revenue Bonds were issued through the New Mexico Hospital Equipment Loan Council in four series (Series A, Series B, Series C, and Series D) (the Series 2008 Bonds) in November 2008 to defease the 2005 Series A and B Revenue Bonds (\$201,895,000), to pay off a Wells Fargo Credit Agreement, which defeased the 2004 Series A through D Bonds (\$128,655,000) and the 1993A Bonds (\$17,900,000) during March and April of 2008, to reimburse PHS for prior capital expenditures, and to pay certain expenses of issuing the Series 2008 Bonds. The 2008 Series A Bonds are fixed-rate bonds. The Series 2008 Series B through D Bonds are variable-rate demand obligations and bear interest on a weekly rate period at amounts set by a remarketing agent.

The interest rate mode can be modified under the terms of the legal documents. To secure the tender price of the Series 2008 B Bonds, PHS has entered into standby bond purchase agreements with JPMorgan Chase Bank N.A. and with Wells Fargo, National Association for the Series C and D Bonds. During 2010, the expiration dates for the standby bond purchase agreements were extended to November 2014, 2015, 2016 for the Series 2008 B, C, and D bonds, respectively.

The Series 2008 B, C, and D Bonds are subject to optional redemption at the discretion of PHS. In addition, the Series 2008 Bonds have a schedule of mandatory sinking fund deposits starting in 2009 and continuing through 2034.

All of the outstanding bonds are collateralized by a pledge of unrestricted receivables of the Obligated Group as defined under the Master Trust Indenture. The Master Trust Indenture of the Obligated Group requires, among other things, certain funds be established and held by a trustee, certain limitations on additional indebtedness, liens on property, disposition or transfers of assets, and the maintenance of certain cash balances and other financial ratios. The Obligated Group was in compliance with all such covenants at March 31, 2013.

The note payable to bank originated in September 2012 and represents draws on a \$50 million loan for the purpose of constructing a new administrative complex for PHS. The note is variable-rate with interest payable quarterly and is due in October 2022.

Interest Rate Swaps

In connection with the Series 2005 Bonds, PHS entered into two floating to fixed-rate swaps (the 2005 Swaps) effective July 28, 2005, for notional amounts of \$102,400,000 and \$102,600,000 to manage the overall cost of borrowing. On November 25, 2008, PHS refunded the Series 2005 Bonds with the Series 2008 B-D Bonds.

The amortization schedule for the Series 2008 B-D Bonds was established to match the amortization of the Series 2005 Bonds. The 2005 Swaps provide that PHS receives a floating amount based on a percentage of one-month LIBOR (58.3% of LIBOR plus 0.36%) and PHS pays a fixed rate of 3.085% based on a notional amount equal to the principal amount of the Series 2005 Bonds. As of and subsequent to April 1, 2007, PHS recognizes the entire change in the fair value of these swaps within the excess of revenue over expenses under ASC 815. *Derivatives and Hedging.*

The total outstanding notional amount of the 2005 Swaps at March 31, 2013, was approximately \$188,640,000.

Interest Rate Swaps (Continued)

On February 9, 2006, PHS entered into a series of four floating to fixed-rate, forward-dated swaps (the 2006 Swaps) in notional amounts of \$38,695,000, \$38,665,000, \$31,460,000, and \$25,720,000 to manage the overall cost of borrowing. The 2006 Swaps were effective January 2, 2007, and provide that PHS receives a floating amount based on a percentage of one-month LIBOR (68%) and PHS pays a weighted-average fixed rate of 3.564% based on a notional amount equal to the principal amount of the Series 2004 Bonds. One June 5, 2009, PHS terminated the two 2006 Swaps that were initially originated in the notional amount of \$31,460,000 and \$25,720,000 and partially terminated two of the 2006 Swaps that were initially originated in the notional amount of \$38,695,000 and \$38,665,000. In 2009, PHS paid a termination amount of \$7,600,000, which was recorded against the change in fair value of interest rate swaps. The remaining portion of the 2006 Swaps match the amortization schedule for the Series 2008 B-D Bonds that are not hedged by the 2005 Swaps. PHS recognizes the entire change in the fair value of these swaps within the excess of revenue over expenses under ASC 815. The total outstanding notional amount for the 2006 Swaps at March 31, 2013, is approximately \$24,745,000.

ASC 820 defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. In order to measure the fair value of municipal derivatives under ASC 820, PHS adjusted its mid-market periodic values of the swaps outstanding to incorporate nonperformance risk by PHS (when the financial instrument is a liability) or the counterparty (when the financial instrument is an asset). All derivatives that are being measured by PHS under ASC 820 are considered Level 2 assets (liabilities) because a quoted price can be obtained from a number of dealer counterparties and other market sources based on observable interest rates and yield curves for the full term of the asset or liability. In order to determine the risk of nonperformance when the financial instrument is a liability. To determine the credit market for debt issues by entities with the same credit characteristics as PHS. To determine nonperformance risk when the instrument is an asset, PHS determines the change in the credit market for debt issues by the counterparty.

The fair value of the 2005 and 2006 Swaps is determined based on the agreed-upon terms and discounted at the prevailing swap curve on the valuation date. As of March 31, 2013 and December 31, 2012, the fair value of the 2005 and 2006 Swaps was a net liability of \$31,126,000 and \$33,843,000 respectively and is included in other liabilities in the accompanying combined balance sheets.

Fair Value of Long-Term Debt

The fair value of long-term debt is estimated upon current rates offered to health care systems for similar issues and approximated \$635,759,000 and \$630,116,000 at March 31, 2013 and December 31, 2012 respectively. The long-term debt of PHS is considered to be a level 2 liability for fair value purposes.

5. Pension Plans

PHS has a defined benefit pension plan (Plan I) that previously covered substantially all of the employees of its related organizations, except employees of PNI. Effective January 1, 2006, Plan I was closed to new entrants, but it continued to accrue benefits for those employees in the plan as of December 31, 2005.

Pension Plans (Continued)

Effective December 31, 2012, Plan I was frozen and no additional benefits will be subsequently accrued.

PHS contributes such amounts as necessary on an actuarial basis to provide Plan I with assets sufficient to meet the benefits to be paid to Plan I participants. PHS contributed \$40,100,000 to Plan I in 2012 and \$3,500,000 during the first quarter of 2013. PHS expects to contribute \$6,100,000 during 2013.

The funded status of Plan I is recognized in the statements of financial position as the difference between the fair value of the investments and the actuarially determined pension obligation. The funded status of Plan I was approximately 71% and 66% at March 31, 2013 and December 31, 2012 respectively.

PHS has defined contribution Plan (Plan II), which consists of a Section 403(b) plan and a Section 401(a) plan, as well as a 401(k) defined contribution plan (Plan III). The cost recognized for Plans I, II and III for the three month periods ended March 31, 2013 and 2012 was \$6,864,000 and \$12,397,000, respectively.

6. Commitments and Contingencies

Litigation

PHS is subject to pending and threatened legal actions arising during the ordinary course of business. Management and legal counsel periodically assess whether losses have been incurred related to pending or threatened litigation, claims, and assessments. Loss estimates are continually monitored and reviewed, and as estimates are adjusted, changes in estimated losses are reflected in current operations. Losses incurred due to the actual results of litigation could differ from estimates recorded. In management's opinion, upon consultation with legal counsel, these matters should not have a material adverse effect on PHS's financial condition, results of operations, or cash flows. However, PHS's evaluation of the likely effects of these actions could change in the future and an unfavorable outcome, depending upon the amount and timing, could have a material effect on PHS's results of operations or cash flows of a future period.

Health Care Regulatory Environment

The health care industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Violations of these laws and regulations could result in exclusion from government health care programs, together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed and paid. Management believes that it has established adequate reserves to investigate, defend, and ultimately resolve any alleged instances of noncompliance. Compliance with such laws and regulations can be subject to future government review as well as regulatory actions unknown or unasserted at this time.

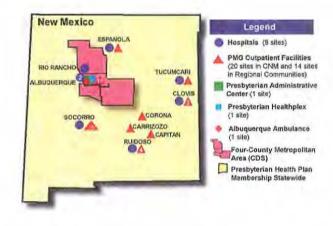

March 31, 2013 Organization

Organizational Description

Presbyterian Healthcare Services (Presbyterian/PHS) is a nonprofit integrated health care system that has served the state of New Mexico for more than 104 years. PHS is comprised of two business units: Presbyterian Delivery System (PDS) and Presbyterian Health Plan (PHP). PDS provides patients with preventive, diagnostic and treatment services in hospitals and ambulatory facilities throughout New Mexico (Figure 1) and operates eight hospitals. The three hospitals in Albuquerque and Rio Rancho operate as the Central Delivery System (CDS) and the remaining five hospitals comprise the Regional Delivery System (RDS). Presbyterian Medical Group (PMG), which is part of PDS, employs physicians and mid levels such as physician assistants and nurse practitioners. PMG provides inpatient hospital care as well as ambulatory and specialty care in over 100 clinics located at 42 sites throughout New Mexico.

PHP includes a statewide health maintenance organization and a health insurance company. PHP provides health care financing through products and services designed and delivered to prevent illness and coordinate care for over 400,000 members throughout New Mexico. PHP products include Commercial (employer-sponsored and individual) and Government (Medicaid, Medicare and other) programs. The PHP network is comprised of both PHS owned and operated facilities, employed physicians and employed mid levels as well as contracted independent hospitals and practitioners throughout the state.

Figure 1

March 31, 2013

The Obligated Group

PHS is based in Albuquerque, New Mexico and is exempt from federal income taxation under Section 501(a) and Section 501(c) (3) of the Internal Revenue Code of 1986, as amended. Presbyterian Healthcare Services together with Presbyterian Healthcare Foundation (Foundation) and Bernalillo County Health Care Corporation (dba Albuquerque Ambulance Service), are the current Members of the Obligated Group (the "Obligated Group"), as such terms are used in the Master Trust Indenture (Amended and Restated), dated as of July 28, 2005 between Wells Fargo Bank, National Association, as master trustee (the "Master Trustee") and the Members of the Obligated Group, as supplemented and amended (the "Master Indenture").

There have been no changes to the Obligated Group.

Purpose

Presbyterian exists to improve the health of the patients, members and communities we serve.

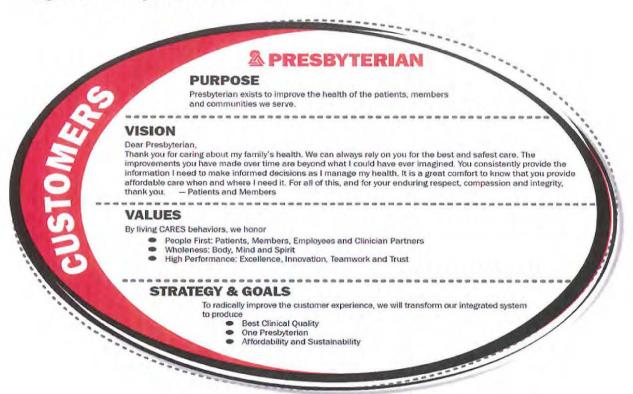

Vision

Presbyterian's purpose, vision, values and strategy and goals are captured in the "EGG." Each employee, employed physician and advanced practitioner as well as each member of the PHS Board of Directors and Committees thereof understand the EGG (Figure 2) and develops a Personal Egg to demonstrate the alignment of his or her role with the PHS EGG.

Presbyterian believes patients and members determine when we succeed. Consequently, the organization's vision is to earn a symbolic letter from a patient or member of a community served. Our strategy is to transform our integrated system to radically improve the customer experience. The strategy is adopted by the PHS Board of Directors and is found in the Strategy and Goals section of the EGG.

March 31, 2013

Figure 2 – Presbyterian EGG

March 31, 2013

Results of Operations

Quarters Ended March 31, 2013 and 2012

For the three month period ended March 31, 2013 total operating income decreased by \$10.4 million to \$10.1 million (2.0% operating margin) from \$10.5 million (4.0% operating margin) in 2012.

Total operating revenue for the three month period ended March 31, 2013 increased by \$0.9 million to \$515.5 million from \$514.6 million in 2012. This increase includes a \$1.3 million or 0.2% increase in net premium revenue compared to the prior year and although the overall change is minor, we continue to experience a shift in the Health Plan membership. At-risk Health Plan membership decreased a modest 0.6% from March 31, 2012 to March 31, 2013, comprised of a 8.9% increase in Medicare, a (1.6%) decrease in Commercial, and a decrease of (1.0%) in Medicaid membership. Net patient service revenue decreased (\$0.8) million or (0.4%) during the first quarter to \$182.3 million compared to \$183.1 million in 2012 driven by a \$4.7 million or 26.1% increase in provision for bad debts.

During the quarter ended March 31, 2013, total inpatient discharges for PDS increased by 0.8% or 107 discharges compared to the quarter ended March 31, 2012 while total inpatient days decreased by (2.2%) or (1,301) days. Total outpatient visits increased by 0.7% or 975 visits. Outpatient volumes throughout the system continue to benefit from the shifting of procedures to an outpatient setting from an inpatient setting.

Inpatient discharges for the Obligated Group increased by 1.1% or 141 discharges in the first quarter compared to the first quarter of 2012 while inpatient days decreased by (2.3%) or (1,201) days. Outpatient visits increased by 1.3% or 1,703 visits.

Inpatient discharges within CDS increased during the three month period ended March 31, 2013 compared to 2012 by 1.9% or 200 discharges. Inpatient Days were down from prior year by (1.4%) or (703) days. Total Outpatient Visits in CDS increased from the prior year first quarter by 4.8% or 4,233 visits.

Inpatient discharges in RDS decreased in the three month period ended March 31, 2013 compared to 2012 by (3.1%) or (93) discharges, while total inpatient days decreased by (6.7%) or (598) days and outpatient visits decreased by (6.4%) or (3,258) visits. RDS volumes have been impacted by the system wide decrease as well as the challenge of recruiting and retaining physicians in these small markets.

Other operating revenue increased during the three month period ended March 31, 2013 compared to the same period in 2012 by \$1.0 million or 5.9%.

March 31, 2013

For the three month period ended March 31, 2013 total operating expenses increased \$11.4 million to \$505.4 million from \$494.1 million in 2012. Medical claims expense increased by \$1.5 million or 1.0% commensurate with the increase in net premium revenue although the Health Plan is experiencing an increasing medical cost trend. Salary expense decreased (\$5.4) million or (2.8%) in the quarter ended March 31, 2013 compared to the same quarter of 2012, which was more than offset by a \$1.2 million or 14.5% increase in professional fees to provide coverage for vacancies in hospital clinical staffing and a \$7.5 million or 10.2% increase in purchased services related to higher utilization of non-employed nurses. Supplies expense increased \$4.6 million or 10.8% driven primarily by higher prescription drug and blood product costs. Depreciation expense increased by \$1.7 million or 7.5% related primarily to the opening of a new patient tower at the Espanola regional hospital in the fourth quarter of 2012. Interest expense increased \$0.4 million during the first quarter of 2013 over 2012 related the 2012A bonds and the note payable to bank issued in the third quarter of 2012.

Investment Income

The Investment Subcommittee of the PHS Board works with an investment consultant to review asset class allocations, select and monitor various professional investment managers and to oversee Presbyterian's investment portfolios in accordance with the investment policy and guidelines.

	Target		Target		
Asset Class	PHS	PHS	Foundation	Foundation	Total
Large Cap Equity	16%	\$ 175.3	18%	\$ 14.1	\$ 187.6

Cash	5%	91.3	- %	1.9	93.2
Total	100%	1,109.8	100%	76.0	1,185.8
Less Restricted Net					
Assets		-		(31.8)	(31.8)
Total Unrestricted		······		······································	
Obligated Group		\$ 1,109.8		\$ 44.2	\$ 1,154.0

The investment portfolio of the Obligated Group at March 31, 2013 consisted of the following: (In Millions)

Total unrestricted investments for the Obligated Group include the PHS Corporate portfolio and the PHS Foundation portfolio. For the period ending March 31, 2013 the unrestricted Obligated Group portfolio totaled \$1.15 billion.

Realized investment gains for PHS totaled \$5.5 million and \$17.4 million for the three month periods ended March 31, 2013 and 2012, respectively. The combined investment income and changes in unrealized gains (losses) on investments for the first quarter of 2013 totaled \$53.3 million compared to \$82.8 million for the same period in 2012. Overall, the investment portfolio benefited during the first quarter of 2013 from positive returns across most investment classes, with significant attribution from domestic equities. The investment returns for the PHS

March 31, 2013

Corporate and Foundation portfolios were 3.8% and 5.1% respectfully for the quarter ended March 31, 2013.

Liquidity and Capital Resources

On an aggregate basis, unrestricted cash and investments of PHS was \$1.38 billion as of March 31, 2013, an increase of \$20 million from \$1.36 billion of unrestricted cash and investments at December 31, 2012. The increase in cash and investments was derived primarily from investment returns during the first quarter.

In August, 2012 PHS completed the issuance of a \$75 million in tax exempt bonds (the "2012A Bonds"). These 30-year term bonds have fixed coupon rates of 4.0% and 5.0% with interest payable semiannually. Principal payments begin in 2033. Proceeds from these bonds are being used to fund various capital construction projects throughout the delivery system. In September 2012, PHS closed on a \$50 million bank loan (the "2012 Bank Loan") which is a taxable transaction and will be used exclusively to finance the renovation and expansion of property previously acquired to house PHS' administrative offices. The loan is variable rate with interest payable quarterly due in October 2022 if not renewed. At March 31, 2013, \$20 million had been drawn with the remaining \$30 million to be drawn over the next 9 to 15 months as the construction is completed. The administrative offices currently occupied by PHS are leased from a third party.

Cash provided by operating activities totaled \$8.6 million for the period ended March 31, 2013 compared to \$36.8 million in 2012. Cash used in investing activities was \$27.8 million, including capital expenditures of \$27.5 million, in the first quarter compared to \$24.1 million, including capital expenditures of \$25.4 million, for 2012. Capital expenditures for fiscal 2013 are expected to approximate \$165 million which will be financed from a combination of internally generated funds and from the 2012A Bonds and the 2012 Bank Loan.

Days cash on hand for PHS and the Obligated Group was 264 days and 309 days, respectively, as of March 31, 2013, compared to 262 days and 307 days, respectively, at December 31, 2012.
