Paula S. O'Neil, Ph.D.
Clerk & Comptroller
Pasco County, Florida

July 29, 2016

The Honorable Kathryn Starkey, Chairman
Board of County Commissioners
Pasco County, Florida
37918 Meridian Avenue
Dade City, FL 33525

Dear Chairman Starkey:

The Comprehensive Annual Financial Report (CAFR) of Pasco County, Florida (the "County") for the fiscal year ended September 30, 2015 is submitted herewith. The Financial Services Department, within the Office of the Clerk of Circuit Court and County Comptroller, prepared this report. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data, as presented, are accurate in all material aspects and are presented in a manner designed to present fairly the financial position and results of operations of the various funds. All disclosures necessary to enable the reader to gain an understanding of the County's financial activities have been included.

In accordance with Florida Statutes that require each county to have an annual financial audit of its accounts and records by an independent certified public accountant, the firm of KPMG LLP has audited Pasco County's financial statements. The goal of the independent audit was to obtain reasonable assurance about whether the financial statements are free of material misstatement. The independent audit included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. It also included assessing the accounting principles used and significant estimates made by management, as well as, evaluating the overall financial statement presentation. KPMG LLP concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that Pasco County, Florida's financial statements for the fiscal year ended September 30, 2015, are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles (GAAP). KPMG LLP's independent auditors' report is presented as the first component of the Financial Section of the CAFR.

ORGANIZATION AND CONTENT OF THE CAFR

The Comprehensive Annual Financial Report complies with the financial reporting model as required by Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*.

The CAFR is organized into three sections:

- **Introductory Section**

This section is intended to familiarize the reader with the organizational structure of the County, the nature and scope of the services it provides, and the specifics of its legal environment. It also provides economic and major initiative highlights.

- **Financial Section**

This section includes the audited Basic Financial Statements, notes to the financial statements, and supporting statements and schedules necessary to fairly present the financial position and the results of operations of the County in conformity with U.S. generally accepted accounting principles, as well as the independent auditors' report on the Basic Financial Statements. Also included in this section are the narrative introduction, overview, and analysis found in Management's Discussion and Analysis (MD&A). MD&A is intended to disclose any known significant events or decisions that affect, or may affect, the financial condition of the County.

- **Statistical Section**

This section includes selected financial and demographic information, generally presented on a multi-year basis.

THE REPORTING ENTITY AND ITS SERVICES

Pasco County is a Non-Charter County established under the Constitution and the laws of the State of Florida. This Comprehensive Annual Financial Report is a County-wide report which discloses the results of operations for the following entities: the Board of County Commissioners (the "Board"); the Clerk of Circuit Court and County Comptroller (the "Clerk and Comptroller"); the Property Appraiser; the Sheriff; the Supervisor of Elections; and the Tax Collector. The Board of County Commissioners is the legislative body for Pasco County and, as such, it budgets and provides all funding used by the Board's departments and the separate Constitutional Officers, with the exception of certain fees and service charges collected by the Clerk and Comptroller, Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector. Under the direction of the Clerk and Comptroller, the Financial Services Department maintains separate accounting systems for the Board of County Commissioners and the Clerk and Comptroller operations. The Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector maintain their own accounting systems. However, for purposes of this Comprehensive Annual Financial Report, the operations of the County as a whole, including those of the Constitutional Officers, have been presented.

The process of evaluating potential component units involved the application of criteria set forth in Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The definition of the reporting entity is based primarily on the notion of financial accountability. The primary government is financially accountable for the organizations that make up its legal entity - the Board of County Commissioners and the Constitutional Officers. The primary government is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and, either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government.

Based on the application of the aforementioned criteria, the Pasco County Housing Finance Authority and the J. “Ben” Harrill Villages of Pasadena Hills Stewardship District were determined to be discretely presented component units properly included in the County’s reporting entity.

Pasco County provides a full range of services. These include public safety (law enforcement and fire), culture and recreation, health and social services, streets and highways, public improvements, planning and zoning, water and sewer, resource recovery, as well as general and administrative services.

ECONOMIC CONDITION AND OUTLOOK

Pasco County is comprised of three distinct demographic areas:

- The largely rural, agricultural eastside is the location of the County Seat in Dade City.
 - The heavily developed, residential west side is home to the Government and Judicial Centers in New Port Richey.
 - The developing central part of the County contains growing office space and a correctional facility in Land O’Lakes.
- ❑ In general, the Tampa Bay area was named one of the fastest growing areas in Florida. Pasco County is the only government in the area that has a portion (20% of the County’s 45% portion) of the Local Government Infrastructure Surtax (additional 1% sales tax) dedicated to economic development.
 - ❑ Resident income levels have increased since 2000 – Median Household Income levels are now \$45,678 versus \$32,969 in 2000.
 - ❑ The population of Pasco County increased from 479,340 in 2014 to 487,588 in 2015, the fifth year in a row of growth. The County’s population is projected to grow 11% by the year 2020.

- ❑ The County's unemployment rate as of November 2015 was 5.2%, the lowest unemployment rate since 2008.

- ❑ The number of foreclosures has declined dramatically as evidenced by the number of new filings falling from a high of 837 in February 2010 to 181 in October 2015. In addition, the number of single-family homes that are “underwater,” in other words the homeowner owes more on the mortgage than the home is worth, has dropped from 26% in 2014 to 20% in 2015 in the Tampa-St. Petersburg-Clearwater MSA.
- ❑ The median value of a single-family home in Pasco County increased from \$107,300 in 2012 to \$142,000 in 2015 or more than 30%.
- ❑ The County's 2014 Florida Price Level Index of 98.19 calculated by the Director of Economic Analysis at the Florida Polytechnic University, under the direction of the Florida Legislature, ranks Pasco County 24th in the State. The County was ranked 19th in 2013. The index indicates, in general, that Pasco County's cost of living compares favorably with the Florida State average of 100.00.
- ❑ Total Taxable Assessed Values (TTAV) have increased each year since 2013 following five years of decline. In fact, TTAV increased by more than 12% since 2013 with the value of new construction accounting for about half of that increase.

- ❑ There were 1,774 permits issued for the construction of single-family homes between January and November 2015 compared to 1,738 permits issued during all of 2014. During this same time period, the number of building permits issued for non-residential construction increased from 1,393 to

1,414. The value of those single-family building permits in 2015 was \$435.7 million, an increase of \$4.6 million over the 2014 value. During fiscal year 2015, 2,278 permits were issued.

- ❑ The County's Economic Development Incentive Ordinance, adopted in 1995, is used to attract value-added jobs. Incentives are available to companies that create jobs, construct facilities, and pay wages above stated minimum standards. The incentives are in the form of reduced transportation, water, and sewer impact fees.
- ❑ Tru-Simulation, a military and commercial simulation and training company, will be adding 75 new employees to enhance its training and engineering capabilities.
- ❑ Leggett and Platt, a global manufacturer of diversified products, will be locating a new manufacturing facility in northwest Pasco. It is expected to employ over 100 new employees.
- ❑ Florida Medical Clinic announced plans to build a new three-story medical office building in Wesley Chapel. The facility expects to employ 45-50 physicians and more than 150 medical staff.
- ❑ Appius Wealth Management, a financial services company, will construct a 10,000 square foot office building in Lutz.
- ❑ The Premier Outlet Mall along I-75 opened its doors in October 2015.
- ❑ The County launched its new branding initiative which introduced the "Open Spaces. Vibrant Places" theme. The new branding initiative is designed to promote a unified image and consistent message for use in promotion of the County to businesses, tourist, and cultural events.

MAJOR INITIATIVES

The following capital projects give only a partial listing of major improvements recently completed or currently under construction by the County:

- A safety improvement was completed at Lemon Road and Orchid Lake Intersection resulting in the construction/reconstruction of sidewalk, milling/resurfacing of the intersection, addition of signage and new pavement markings. The improvement benefited students walking to/from three schools located in the area: Calusa Elementary School, Marchman Technical School, and Ridgewood High School.

- Paved shoulders were added to Lake Iola Road in conjunction with a road resurfacing project. The shoulders were deemed to be a safety improvement for this roadway.
- Ridge Road Widening from Broad Street to Moon Lake Road is complete. Ridge Road has been reconstructed as a new 4-lane urban section with an 8' Multi-Use Path and 6' Sidewalk.
- Established a strategic code compliance response team to provide a concentrated rapid response to areas in need of neighborhood and/or business stabilization.
- The renovation of the Land O'Lakes Community Center Park was completed. This project included the construction of a new concession building, new football, softball and practice fields, additional parking spaces and other site amenities.
- Established a bus service connection between Hernando and Pasco Counties.
- Property Appraiser, Tourism and Economic Growth renovations at the West Pasco Government Center were recently completed and involved the renovation of the existing Property Appraiser office space in the West Pasco Government Center to accommodate the Tourism Development office and the Economic Growth staff.
- Sunwest Park Phase I was recently completed. The work included the construction of a fresh water beach, restrooms pavilion, walking/ jog trails, lagoon, pavilions, picnic areas, parking and other site improvements.
- Moon Lake Road from SR52 to Ridge Road was repaved and 3 foot paved shoulders were added.
- Program Maintenance repaved Jasmine Blvd., Pasco Road, East Road, Curley, Melrose and Berry Roads.
- Stormwater Structure Replacements were completed on 4345 Baden Drive, 3609 Luma Drive, Islander/Yachtsman Lane, 3501 Murrow Street, Sunray Drive, 2645 San Luis Road and 2705 San Luis Rd.
- Completing Stormwater Structure Replacements on 23632 Shining Star Dr., 23050 Brighton Place, 22621 Weeks Blvd, 4502 Shallow Tail Dr. and 3142 Munsun Dr.
- Drainage Projects were completed on Birdwood Ct. and Birdsong Ave.
- Public Works completed the reconstruction of all of the roads in Lacoochee Phase I. Lacoochee Phase II is underway.
- Completing a major drainage project in the Duck Lake watershed in Dade City that installed multiple new culverts including a 48" under the CSX railroad at Wilson Road.
- A major drainage project increasing the size of the discharge from the Forest Hills area south into Pinellas County was designed and permitted and will be constructed next year.
- New flood maps for the County were rolled out this past year, the first update since 1988. This concluded a 10 year \$15,000,000 effort with Public Works partnering with both FEMA and the Southwest Florida Water Management District.
- The Boyette Reservoir project consists of the construction of a 500-million gallon reservoir in the Wesley Chapel area to enhance the Pasco County Master Reuse system by balancing the seasonal variation of reclaimed water availability. The project was completed in the fall of 2015.
- The Pasco County Utility Administration Building project consists of the construction of a new 50,000 square-foot building that will house the Utility offices and Customer Service Center for

the Utility Branch. The building, located in the Connerton area on US Highway 41, opened in June 2015.

- The Deer Park Diversion Project is for the overall shutdown of the Deer Park Waste Water Treatment Plant (WWTP) and diversion of the collection system. It will transfer approximately 4 million gallons per day of wastewater flow from the southwestern service area to the Shady Hills WWTP. This includes the construction of two (2) Master Pump Stations, a Booster Pump Station, and over 10 miles of large diameter force main. The project will consolidate treatment operations and comply with the Florida Department of Environmental Protection Consent Order requirements.

FINANCIAL INFORMATION

The County's accounting records for general governmental operations are maintained on the modified accrual basis, with revenues recorded when measurable and available, and expenditures recorded when the services or goods are received and the liabilities are incurred, except for principal and interest on general long-term debt and compensated absences, which are recognized as expenditures to the extent that they have matured. Accounting records for the County's enterprise and internal service operations are maintained on the accrual basis, with the revenues recorded when earned and expenses recorded when the liabilities are incurred. Procedures have been developed for financial reporting adjustments and reconciliation data in order to apply the accrual method of accounting across all funds in accordance with GASB Statement No. 34.

In developing the County's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding:

- the safeguarding of assets against loss from unauthorized use or disposition; and
- the reliability of financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that:

- the cost of a control should not exceed the benefits likely to be derived; and
- the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control is maintained at the subfunction level by encumbrance of estimated purchase amounts prior to the release of purchase orders to vendors. Purchase orders, which would result in an overrun of subfunction balances, are not released until additional appropriations are made available. Open encumbrances at September 30, 2015 are reported in the assigned classification of fund balance.

Capital Assets

The capital assets of the County are used in the performance of governmental and business-type activities. Under Florida Statutes, only assets that cost \$1,000 or more, and which have a useful life of one year or more, are considered capital assets. In accordance with U.S. generally accepted accounting principles, capital assets in Pasco County are recorded at either historical (original) costs, or estimated historical costs if original cost data is not available, except for contributed property which is recorded at its estimated fair value at the date of contribution. In accordance with GASB Statement No. 34, the County has recorded and reported all infrastructure acquired since 1980. Infrastructure includes streets, roads, sidewalks, and bridges.

Independent Audit

Section 218.39 of the Florida Statutes requires an independent certified public accountant's financial audit of counties in the State. Pasco County has complied with this requirement, and the report of our independent auditor, KPMG LLP, has been included in this report. As a recipient of federal and state assistance, the County is responsible for maintaining an adequate internal control framework to ensure compliance with applicable laws and regulations related to these assistance programs. The independent certified public accountant issues a separate report on compliance and internal control over compliance in the annual Single Audit, which covers major federal grant programs, and in the annual Florida Single Audit, which covers major state grant programs. The federal and state Single Audits were designed to meet the requirements of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, as well as Section 215.97, Florida Statutes, respectively. The independent certified public accountants' *Single Audit Report* is issued separately.

Reporting Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Pasco County, Florida for its Comprehensive Annual Financial Report for the fiscal year ended September 30, 2014. This was the thirty-second consecutive year that Pasco County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

We would like to express our appreciation to the members of the staff of the Financial Services Division, who so greatly contributed to the preparation of this report. In particular, we acknowledge the hard work and professionalism of CliftonLarsonAllen LLP and the entire Financial Services Department for their assistance in the preparation of the CAFR document.

We would also like to offer our gratitude to the Board of County Commissioners and its staff, and the Pasco County Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector, to name a few, who have been instrumental in the completion of this report.

We want to further extend our thanks to all of the departments and agencies outside the County that contributed financial information for use in this report.

Independent Auditors' Report

Distinguished Members of the Board of County Commissioners
Pasco County, Florida:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Pasco County, Florida (the County), as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Pasco County, Florida, as of September 30, 2015, and the respective changes in financial position and, where applicable,

cash flows thereof, and the general fund budgetary comparison for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matter

As discuss in note 21 to the financial statements, the County adopted the provisions of Governmental Accounting Standards Board Statements No. 68, *Accounting and Financial Reporting for Pensions* and No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis, schedule of funding progress – other postemployment benefits, schedule of employer contributions – other postemployment benefits, schedules of the County's proportionate share of the net pension liability and related ratios, and contribution requirements for the Florida Retirement System Pension Plan and Florida Retirement System Retiree Health Insurance Subsidy Program on pages C-1 through C-14 and F-1 through F-6, respectively be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Pasco County, Florida's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, the introductory and statistical sections, and the schedule of receipts, disbursement and balances in compliance with Section 714(3) of the indenture of trust are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections and the schedule of receipts, disbursement and balances in compliance with Section 714(3) of the indenture of trust have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 29, 2016 on our consideration of Pasco County, Florida's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Pasco County, Florida's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Provides an objective analysis of the County's financial activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Management's discussion and analysis provides an overview of the financial activities of Pasco County, Florida (the "County") for the fiscal year ended September 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the Letter of Transmittal on page A-1 and in the County's financial statements that begin on page D-1.

Financial Highlights

- ❑ At September 30, 2015, the County's total assets and deferred outflows exceeded its total liabilities and deferred inflows by \$1.791 billion (net position), an increase of \$108.7 million over the prior year restated net position..
- ❑ At September 30, 2015, governmental funds reported a combined ending fund balance total of \$433.68 million, an increase of \$28.07 million (or 7.0%) over the prior year. Of the total, \$59.79 million is available for spending at the County's discretion (assigned or unassigned fund balance), subject to the intent of the Board of County Commissioners or the Office of the Clerk & Comptroller, to which the authority to assign amounts for specific purposes has been delegated by the Board.
- ❑ At September 30, 2015, the fund balance of the County's General Fund was \$60.4 million, representing a decrease of \$9.96 million (or 14.15%) from the prior year. \$56.6 million of the fund balance total was assigned or unassigned.
- ❑ The County's total long-term liabilities increased by \$195 million during the fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Pasco County's *Basic Financial Statements*. The *Basic Financial Statements* include three components: government-wide financial statements, fund financial statements, and notes to the financial statements. This comprehensive annual financial report also contains other statements and schedules which are presented as supplemental information.

Government-wide Financial Statements

The government-wide financial statements provide a broad overview of Pasco County's finances, using the accrual basis of accounting that is similar to the accounting method used by private-sector business. They are comprised of the statement of net position and the statement of activities.

The statement of position presents information on the assets and deferred outflows and liabilities and deferred inflows of the County as a whole. The difference between assets and deferred outflows and liabilities and deferred inflows is reported as net position. Net position is reported in three categories: net investment in capital assets; restricted; and unrestricted. The assets, deferred outflows, liabilities, deferred inflows, and net position of governmental activities are reported separately from those of business-type activities. The governmental activities of the County include general government, public safety, physical environment, transportation, economic environment, human services, culture and recreation, and court-related functions. The business-type activities of the County are the Water and Sewer Unit and the Solid Waste Disposal and Resource Recovery System. In the government-wide financial statements, emphasis is placed on the position of governmental activities and business-type activities and on the change in net position. Over time, changes in net position may serve as an indicator as to whether the financial position of the County is improving or deteriorating.

The statement of activities presents information on all revenues and expenses of the County and shows how the County's net position changed during the fiscal year. Expenses are reported by major function. Program revenues related to those functions are reported, resulting in the net cost of all functions provided by the County. Changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of when cash is received or paid. Therefore, some of the revenues and expenses reported in the statement of activities will only result in cash flows in future periods. For example, certain uncollected taxes are shown as revenues although cash receipts will occur in the following year. Also, an increase in earned, unused vacation leave is recorded as an expense although the related cash outflows will occur in the future.

Both of the government-wide financial statements distinguish between activities of the County that are supported primarily by program revenues, taxes, and intergovernmental revenues (governmental activities) and activities that recover all or most of their costs through user fees and charges (business-type activities).

Within the government-wide financial statements, all assets of the County, including land, buildings, improvements other than buildings, equipment, and infrastructure, are reported in the statement of net position. All liabilities, including the principal outstanding on bonds, and future employment benefits obligated but not yet paid by the County, are reported. The statement of activities includes depreciation on all long lived assets of the County, but transactions between the different functions of the County have been eliminated in order to avoid "doubling up" the revenues and expenses.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate entity, the Pasco County Housing Finance Authority, for which the County is financially accountable. The financial information for this component unit is reported separately from the financial information of the primary government. To obtain separately issued financial statements of this discretely presented component unit, see Note 1, *Summary of Significant Accounting Policies, Reporting Entity*, in the *Notes to Financial Statements*. The J. "Ben" Harrill Villages of Pasadena Hills Stewardship District, the other discretely presented component unit, had no financial activities during the year.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, including those involving legislative, administrative and contractual obligations. The fund financial statements provide a picture of each of the major funds of the County as well as a column that groups all nonmajor funds.

All of the County's funds can be divided into three categories: governmental, proprietary, and fiduciary. The governmental fund financial statements provide information on the current assets and liabilities of the funds, as well as changes in current financial resources (revenues and expenditures) and current available resources. In the case of governmental activities, outlays for long-lived assets are reported as expenditures and long-term liabilities, such as bonds, are not included in the fund financial statements. The proprietary fund financial statements provide information on all assets and liabilities of the funds, as well as changes in economic resources (revenues and expenses), and total economic resources. The fiduciary fund statement provides information concerning assets held in an agency capacity by the County on behalf of others.

Notes to the Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in both the government-wide financial and fund financial statements. The notes begin on page E-1 of this report.

Reconciliations – The Link Between Government-Wide and Fund Financial Statements

The government-wide financial statements and the fund financial statements provide different pictures of the County. In order to link the fund financial statements to the government-wide financial statements, reconciliations are provided *from* the fund financial statements *to* the government-wide financial statements.

The reconciliations describe the relationship (or differences) between governmental *activities* (reported in the *Statement of Net Position* and the *Statement of Activities* --- in the government-wide financial statements) and governmental *funds* (reported in the fund financial statements). These reconciliations are located after the *balance sheet – governmental funds* and after the *statement of revenues, expenditures, and changes in fund balances – governmental funds*, in the *Basic Financial Statements*.

The Funds of the County

Governmental Funds

Most of the County's basic services are reported in governmental funds. Governmental funds are used to account for essentially the same functions as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Consequently, governmental fund financial statements provide a detailed focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. This information may be useful in evaluating a government's near-term financing requirements.

Funds that are most significant in terms of revenues, expenditures, assets or liabilities are identified as major funds in the Basic Financial Statements. In addition, budget and actual comparison statements are presented in the Basic Financial Statements for the General Fund, the County's only major governmental fund in 2015. The County's nonmajor funds, and budget and actual comparison schedules for any nonmajor funds with legally adopted annual budgets, are presented as supplemental information in the *Combining and Individual Fund Statements and Schedules* section of this report.

Proprietary Funds

The County maintains two types of proprietary funds. The first type, enterprise funds, is used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its Water and Sewer Unit and its Solid Waste Disposal and Resource Recovery System. Both of these operations are considered to be major funds of the County. The second type of proprietary funds, internal service funds, is used to account for the Equipment Service, County Insurance, County Self Insurance, Clerk and Comptroller's Insurance, and the Sheriff's Health Insurance. Internal service funds are used to accumulate and allocate costs internally among the County's various functions. As these operations predominantly benefit governmental rather than business-type functions, they are included within governmental activities in the government-wide financial statements. The five internal service funds are combined into a single column in the proprietary fund financial statements. The proprietary fund financial statements can be found in the *Basic Financial Statements*. Individual fund data for the internal service funds are provided in the *Combining and Individual Fund Statements and Schedules* section of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Agency funds are the only type of fiduciary fund used by the County in fiscal year 2015. These agency funds are not included in the government-wide financial statements because the resources of these funds are not available to support the County's own programs. However, the separate *Statement of Fiduciary Net Position – Agency Funds* is included in the *Basic Financial Statements*, since the County has custodial responsibility. Additionally, the individual agency funds are included in the *Combining and Individual Fund Statements and Schedules* section of this report.

Other Information

The combining statements for the nonmajor funds, internal service funds, agency funds, as well as individual fund budget and actual comparison schedules, are found in the *Combining and Individual Fund Statements and Schedules* section of this report beginning on G-1.

Also, see the Statistical Section beginning on H-1 for additional financial, demographic and economic information about the County.

Government-Wide Financial Analysis

In accordance with the requirements of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* (GASBS No. 34), the government-wide financial statements have been prepared using accrual accounting for all of the County's activities. Accrual accounting measures not just current assets and liabilities but also long-term assets and liabilities, such as capital assets and bond issue debt. The use of accrual accounting results in the reporting of all revenues and all costs of providing services each year, not just those received or paid in the current year or soon after year-end, as does modified accrual basis accounting.

As noted earlier, net position may serve, over time, as a useful gauge of a government's financial position. At September 30, 2015, the County's total net position, or total assets and deferred outflows, less total liabilities and deferred inflows, was, \$1.791 billion. The largest portion of the County's net position, \$1.25 billion (or 69.6%), is reflected in its investment in capital assets (e.g., land, buildings, equipment, and infrastructure), less any related debt outstanding that was used to acquire those assets. Since Pasco County uses these capital assets to provide services to its citizens, the net assets represented by "investment in capital assets, net of related debt" are not available for future spending. Although the County's investment in capital assets is reported net of related debt, the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Pasco County's net position include restricted net position of \$477.1 million (or 26.6%) that are subject to external restrictions on how they may be used, such as those imposed by debt covenants, grantors, laws and regulations. The balance in net position, \$67.4 million (or 3.8%), is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

Table of Net Position and Table of Changes in Net Position

As shown in the table of Net Position, below, the County reported positive Net Position balances at September 30, 2015 and 2014 for both governmental activities and business-type activities. Only the 2015 beginning of year net position has been restated for the adoption of GASB Statement 65.

Business-type Activities Fiscal Year 2015

Governmental Activities

Governmental activities increased Pasco County's net position by \$66.3 million, or 6.2%, during fiscal year 2015. In 2015, the change in net position increased by 108% from the previous year. The cost of all governmental activities in 2015 was \$374 million, lower by 9.8% than in 2014. However, the amount that taxpayers paid for these activities through property, sales, telecommunications, gasoline, and tourist development taxes was only \$229.43 million. Those who directly benefit from the programs paid some of the cost (\$87.9 million) through charges for services, while other governments and organizations subsidized programs with grants and contributions, and shared revenues (\$101.79 million).

Business-type Activities

As stated earlier, the County has two business-type activities, the Water and Sewer Unit and the Solid Waste Disposal and Resource Recovery System.

The **Water and Sewer Unit** provides a potable water supply, and its distribution, as well as wastewater collection and treatment, disposal and reuse. These services are provided through facilities owned by the County and through contracts with other entities. The water distribution system, including pump stations, treatment plants, water mains, and water storage facilities, is connected to two major supply sources - Tampa Bay Water (Starkey, Cypress Creek, and Lake Bridge) and fifty-eight individual water supply wells throughout the County. The County also operates seven wastewater treatment plants, in addition to a Residual Management Facility and a Grease Facility. Disposal of wastewater is primarily accomplished through the use of reclaimed water systems, spray irrigation evaporation/percolation ponds, and cooling tower water for the County's Waste-to Energy Facility (see below).

The County annually updates its Capital Improvements Plan which will produce population and wastewater flow projections, examine service areas, wastewater treatment and disposal alternatives, and include recommendations concerning construction and implementation schedules. In addition, a Sanitary Sewer Management Plan and the Water Quality and Water Distribution Management Plan have been undertaken to evaluate and address the Unit's infrastructure.

The **Solid Waste Disposal and Resource Recovery System** provides an integrated approach to waste management. Collection is primarily achieved by private hauling firms that are licensed by the Board of County Commissioners. Processible solid waste is trucked either directly to the mass-burn resource recovery facility (the "Facility") or to the East Pasco Transfer Station, for subsequent transportation to the Facility. The Facility converts solid waste to electrical power through a combustion process that generates approximately 23 megawatts of electricity per hour for sale to Duke Energy (Formerly Progress Energy) under a power purchase agreement. The facility has a current capacity of 1,050 tons per day.

Non-processible solid waste disposal is provided for by landfill facilities. The County also actively pursues recycling, following the mandate provided for in the Recycling Act. The recycling rate in the County was 65% (2015 rate published by the State of Florida, the latest reporting period available).

The activities of the Water and Sewer Unit, and the Solid Waste Disposal and Resource Recovery System are analyzed below in the proprietary funds section of the **Financial Analysis of the County's Funds**.

Financial Analysis of the County's Funds

As noted earlier, Pasco County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. This information is useful in assessing Pasco County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the net resources available for spending at the end of the fiscal year. The governmental fund types include the general, special revenue, debt service, and capital projects funds.

As noted above, at September 30, 2015, Pasco County governmental funds reported an increase in combined fund balances of \$28.07 million over the prior year. Of the total combined ending fund balances of \$433.7 million, 83.4%, or \$361.9 million, represents restricted amounts that can only be used for specific purposes that are imposed by external constraints such as bond covenants, grantors, or regulations of other governments; 2.6%, or \$11.2 million, are committed amounts that can only be used in accordance with the formal action taken by the Board of County Commissioners; and 2.3%, or \$9.97 million, are amounts assigned by either the Board, or the Office of the Clerk and Comptroller, to be used for specific purposes that are neither restricted nor committed, such as disaster recovery.

Major Governmental Funds

As noted above, the fund balance of the **General Fund**, the chief operating fund of the County, decreased by \$9.96 million during fiscal 2015. Overall, revenues increased by \$10 million from 2014, primarily due to an increase in tax revenues of \$6.7 million, as assessed values increased by \$2.9 billion or 14.28% from the previous year and the assessed value as a percentage of estimated actual value increased to 69.37% from 64.18% in 2014. The overall increase in revenues was offset by an increase in the General Fund's expenditures of \$10.5 million, primarily related to an increase in public safety of \$6.7 million, or 6.2%, for fire rescue services and the Sheriff's operations and a transfer out of \$10.3 million.

Nonmajor Governmental Funds

Those funds that do not meet the GASBS No. 34 criteria for major fund classification are considered nonmajor. Total fund balances of all nonmajor special revenue funds increased by \$38 million from the prior year. The largest increase related to the Road and Bridge Fund - \$9.6 million, resulting primarily from increased tax revenues and transfers in.

Debt service funds, all of which are classified as nonmajor, are used to account for the accumulation of resources for, and the payment of long-term debt principal and interest. During fiscal year 2015, there was an overall fund balance increase of \$10 million resulting primarily from an increase of \$5 million for the Guaranteed Entitlement Refunding Revenue Bonds Series 2013 and a \$4.9 million increase in the Guaranteed Entitlement Loan Series 2014. The fund increases were related to State of Florida Revenue Sharing Trust Fund payments made for the purpose of refunding the portion of the County's Guaranteed Entitlement Refunding Revenue Bonds Series 2003.

Capital projects funds, which account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds), exhibited an overall increase in fund balances of \$19.3 million during fiscal 2015, primarily coming from a \$8.9 million increase in the Penny for Pasco Fund, a \$3.6 million increase in the Mobility Fee District 2 Central fund, and a \$6.5 million increase in the Mobility Fee District 3 East fund. These increases resulted from the Penny for Pasco tax revenues and license and permit fees earned in excess of capital outlay costs incurred in those funds during 2015.

General Governmental Functions

For the purpose of this section, general governmental functions are defined as those that include the General, Special Revenue, Debt Service, and Capital Projects Funds. This data is the result of the application of the modified accrual basis of accounting for general governmental functions.

Revenues for general governmental functions totaled \$447.6 million in fiscal 2015, an increase of \$42.5 million, or 10.5% over the prior year. While current tax collections were 99.76% of the tax levy (0.07% higher than the prior year), and the ratio of total collections (current and delinquent) to the current tax levy was also 99.80%, 0.07% higher than in 2014, there was an upturn of \$19.3 million in total tax revenues over 2014, or 9.4%. Intergovernmental revenues, in all governmental funds, experienced an overall increase of \$4.5 million, primarily due to increased state funding.

Expenditures for general governmental functions totaled \$417.4 million in fiscal 2015, a decrease of \$1.4 million, or 0.34% from fiscal 2014.

Proprietary Funds

Proprietary funds statements provide the same type of information found in the government-wide financial statements, because they follow the accrual method of accounting; however, the information is in more detail.

As noted above, the County's proprietary funds include enterprise funds, comprised of the Water and Sewer Unit Fund and the Solid Waste Disposal and Resource Recovery System Fund, both of which are classified as major funds of the County, and internal service funds that account for equipment and insurance services.

The **Water and Sewer Unit Fund** had total net position of \$581.8 million at September 30, 2015, which represented a \$25.6 million increase over the prior restated net position (see Note 21). The increase was due to a number of factors; charges for services rose by \$5.5 million in 2015, and operating expenses increased by \$4.4 million compared to the prior year, in large part due to a \$1.4 million increase in equipment rental and maintenance and an increase of \$1.7 million increase in materials and supplies. The larger current year net position increase as compared to prior year was further caused by higher capital contributions and grants of \$9.1 million than in 2014, this is due primarily to more developer contributions and impact fees collected in the current year compared to the prior year.

The **Solid Waste Disposal and Resource Recovery System Fund's** net position at year-end was \$80.4 million, which represented an increase of \$16.8 million over 2014 restated net position (see Note 21), as compared with the 2014 increase of \$12.5 million. This increase over 2014 was related to a \$2.7 million increase in charges for services, a minimal decrease in operating expenses of \$0.03 million.

The **Internal Service Funds** had net position at year-end of \$75.04 million, an increase of \$5.38 million over the prior year restated net position of \$69.6 million (see Note 21). This increase was comparable to the prior year's growth of \$6.2 million. Charges for services rose by \$10.5 million over 2014 to \$61.6 million, offset by an increase in operating expenses of \$11.1 million, primarily related to health insurance expenses of \$9.1 million, and an upturn in contractual services of \$2.3 million.

General Fund Budgetary Highlights

The budget and actual comparison statement for the General Fund displays the original adopted budget, the final revised budget, and actual costs. The original budget, as approved, may be revised during the year for a number of reasons. The General Fund's amendments and supplemental appropriations for the year were not material. Actual expenditures (budget basis) for fiscal year 2015 were \$41.3 million less than budgeted. This included \$7.9 million less in general government (noncourt-related) costs, with the largest reductions being in: Customer Service, \$.95 million; Facilities Management, \$1.7 million; and Information Technology Projects and Capital, \$2.4 million. Total Court-related expenditures were less than budgeted by \$2.4 million with the largest reduction being in Court-tech-administration; \$1.84 million. Overall, actual revenues in the General Fund exceeded budgeted revenues by \$16.1 million. The largest positive variances were in miscellaneous revenues, charges for services, and taxes, where actual revenues for the year exceeded the budget by \$6.5 million, \$3.8 million, and \$2.96 million, respectively.

Capital Assets

The County's capital assets, for both governmental and business-type activities at September 30, 2015, totaled approximately \$1.5 billion, net of accumulated depreciation. Capital assets include land, buildings, improvements other than buildings, equipment, construction in process, infrastructure, and intangibles. Infrastructure includes roads, streets, and sidewalks. The County's intangible assets include easements and internally generated software. The balances are summarized below.

Additional information about Pasco County's capital assets can be found in Note 7.

Debt Administration

At September 30, 2015 Pasco County had total bonded debt (net) outstanding of \$358.3 million. Of this amount, \$57.1 million comprises debt related to governmental activities, and \$301.2 million of the total is bonded debt of business-type activities. All bonded debt of the County is in the form of revenue bonds.

Additional information regarding bond issues can be found in Note 9.

The highest quality ratings available from the respective services are as follows: S&P AAA; Fitch AAA; Moody's Aaa. With the exception of the bank qualified issue (1) and those issues which are uninsured and for which a stand-alone rating is presented (2), all Pasco County bond issues are insured, and the payment of principal and interest is guaranteed. Such insurance is non-cancellable.

(Note: Bonds with higher ratings offer cost savings to issuers like Pasco County)

Currently Known Facts and Conditions

Although the County has suffered a decrease in taxable value in recent years, fiscal year 2015 indicates an increase of more than 12% since 2013, with the value of new construction accounting for half of that increase. The approved total County budget for fiscal 2016 is \$1.310 billion, an increase of 7.7% over last year's budget.

In 2015, we began collecting proceeds from the renewed Penny for Pasco. As approved by the voters, 20% of the County's share of the revenue, or an estimated \$5.5 million per year, was used to establish the Jobs and Economic Opportunities (JEO) Trust Fund. Implementation of the plan has begun. Pasco County has participated with Duke Energy and the City of Zephyrhills in a site readiness exercise for the Zephyrhills Airport industrial area. We have been working with stakeholders from the Pasco Economic Development Council (PEDC) and the development community to create site readiness criteria for use in issuing and evaluating a request for proposals later this summer.

Economic Factors and Next Year's Budgets and Rates

Pasco County considered many factors in preparing the budget for the 2016 fiscal year, including the following:

- Total Taxable Assessed Values (TTAV) have increased every year since 2013 following five years of decline. In fact, TTAV increased by more than 12% since 2013 with the value of new construction accounting for half of that increase.
- The median value of a single-family home in Pasco County increased from \$107,300 in 2012 to \$142,000 in 2015 or more than 30%.
- Single-family Building permit values were \$435.7 million in 2015, an increase of \$4.6 million over the 2014 value.
- Pasco County has experienced a 38% growth in population and has maintained a steady 2.5% annual increase since 2010. The population of Pasco County increased from 479,340 in 2014 to 487,588 in 2015.
- Resident income levels have increased since 2000, with Pasco County's median household income levels now at \$45,678 compared to \$32,969 in 2000.
- Pasco County's unemployment rate at September 30, 2015 was 5.6%, a rate decrease of 0.09% from 2014, but still above the State of Florida rate of 5.4%.

**PASCO COUNTY, FLORIDA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2015**

Net change in fund balances reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances – Total Governmental Funds	\$ 28,068,274
The change in net position reported for governmental activities in the Statement of Activities is different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay for governmental funds (\$48,024,787) exceeded depreciation (\$32,172,786) in the current period.	15,852,001
In the Statement of Net Position, the loss on the sale of capital assets is reported. However, in the governmental funds the proceeds from the sale of capital assets increases financial resources. The change in net position differs from the change in fund balance by the net book value of assets disposed.	(1,499,089)
Repayments of bond principal (\$2,010,000) and notes payable (\$556,000) are expenditures in the governmental funds, but the repayments reduce long-term liabilities in the Statement of Net Position.	2,566,000
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds (decrease in compensated absences of \$7,230,006 and increase in accrued bond and note interest of \$63,190 when comparing prior year accrual and current year accrual).	7,166,816
Internal service funds are used by management to charge the costs of insurance and equipment services to individual funds. \$3,797,914 of total operating income and \$1,585,931 of total non-operating expenses and capital contributions of the internal service funds are reported with governmental activities.	5,383,845
Other post - employment benefits reported in the Statement of Activities do not require the use of current financial resources and, are not reported as expenditures in governmental funds.	(3,745,650)
Some special assessment charges and change in deferred inflows of resources related to accounts receivable and notes receivable and change in unavailable revenue of impact fees do not provide current financial resources and, therefore, are not reported as revenues in governmental funds.	517,938
Changes in the pension liability reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	11,955,528
Change in net position of governmental activities	<u>\$ 66,265,663</u>

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements in this report have been prepared in conformity with U.S. generally accepted accounting principles ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the standard-setting body for governmental accounting and financial reporting. The following is a summary of Pasco County's significant accounting policies.

The following is a brief overview of major components of the current reporting model, as prescribed by GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*:

Management's Discussion and Analysis

This is a narrative introduction and analytical overview of the County's financial activities and is similar to the analysis provided in private sector annual reports.

Government-wide Financial Statements

These financial statements are prepared using full accrual accounting for all of the County's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities. Accrual accounting also reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter. Included in the government-wide financial statements are the following:

Statement of Net Position

This statement is designed to display the financial position of the County, as to both its government and business-type activities. In this statement, the County reports all capital assets, including infrastructure acquired since 1980. The net assets of the County are reported in three categories: net investment in capital assets, restricted; and unrestricted.

Statement of Activities

This statement reports revenues and expenses in a format that focuses on each of the government's functions. It identifies the extent to which each function draws from the general revenues of the County or is self-financing through program revenue (fees and intergovernmental aid).

A. Reporting Entity

Pasco County (the "County"), founded in 1887, is a non-chartered political subdivision of the State of Florida and is authorized the power of self-government by the Constitution of the State of Florida and Florida Statutes. The Board of County Commissioners (the "Board") is the legislative and governing body of the County. A County Administrator is appointed by the Board and is responsible for administrative and budgetary control of the resources of the Board.

The Constitution of the State of Florida also provides for five Constitutional Officers with specific duties and reporting responsibilities prescribed by Statute. These Officers are as follows: Clerk of Circuit Court and County Comptroller ("Clerk & Comptroller"), Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector.

The Constitutional Officers and the Board maintain separate accounting records and budgets.

Annual operating budgets of the Clerk & Comptroller, Sheriff, and Supervisor of Elections are submitted to the Board for approval, as the Board's share of the funding for the operations of these Officers is provided primarily from general revenues of the County and is supplemented by fees charged by these Officers pursuant to Statute. The budgets of the Property Appraiser and the Tax Collector are submitted to the State's Department of Revenue for approval. The budget for court-related functions of the Clerk & Comptroller's operations is submitted to and approved by the Florida Clerks of Court Operations Corporation, a public corporation created under Section 28.35, Florida Statutes.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity (Continued)

Separate financial reports are prepared for each of the Constitutional Officers. The financial statements in this report represent a combination of those separate financial reports, together with the operations of the Board. The Board and the Constitutional Officers constitute the Pasco County *primary government*.

As required by generally accepted accounting principles, these financial statements comprise the Pasco County reporting entity, which includes the primary government and its component units. The process of evaluating potential component units involves the application of criteria set forth in GASB Statement No. 14, *The Financial Reporting Entity*, and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units (an amendment of GASB Statement No. 14)* and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*. In accordance with the criteria of GASB Statement No. 14, component units are organizations for which the primary government is financially accountable, or other organizations, for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body *and* either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. GASB Statement No. 39 provides additional guidance to determine whether certain organizations for which the primary government is not financially accountable should be reported as component units based on the nature and significance of their relationship with the primary government. Generally, it requires reporting, as a component unit, an organization that raises and holds economic resources for the direct benefit of a governmental unit.

Based on the aforementioned criteria, the following determinations have been made:

Discretely Presented Component Unit

Pasco County Housing Finance Authority

The Pasco County Housing Finance Authority was created by County ordinance as a public body corporate and politic under authority granted by Sec. 159.604, Florida Statutes. The Housing Finance Authority functions to alleviate a shortage of housing and capital for investment in housing within the territorial boundaries of Pasco County. The Board appoints all members of the Housing Finance Authority and may remove members without cause. The Board is empowered to terminate the Housing Finance Authority and may, at its sole discretion, and at any time, alter or change the structure, organization, programs, or activities of the Authority. All rules, regulations, and program guidelines of the Authority are effective only upon approval by the Board. Any and all fees earned by the Authority are required to be placed in a separate fund and the Board shall determine how such funds are to be used; funds are to be used only for low and moderate income housing purposes in Pasco County. The component unit column in the government-wide financial statements includes the financial data of the Pasco County Housing Finance Authority.

A. Reporting Entity (Continued)

J. “Ben” Harrill Villages of Pasadena Hills Stewardship District

The J. “Ben” Harrill Villages of Pasadena Hills Stewardship District (the “District”) was created and incorporated as a public body corporate and politic, a limited, special-purpose dependent district, under Chapters 125 and 189, Florida Statutes, and as defined in the Pasco County Land Development Code (the “Code”). The District functions to provide a framework for the delivery of infrastructure, facilities and services to accommodate growth, as well as the financing and oversight of lands, within the District boundaries. The governing board of the District is the Board of Supervisors, which is the Pasco County Board of County Commissioners. The Board exercises general and special powers as provided in the Code and District charter, respectively, as well as other powers, authority, and functions in accordance with Chapter 189, Florida Statutes. The District will remain in existence until terminated and dissolved pursuant to amendment to the Code by the Board, after retirement of any bonds or other obligations of the District. There were no financial activities conducted by the District during the year. However, under current reporting entity criteria, any future activity of the District would be included by the discrete presentation method.

There are no separately issued financial statements for these discretely presented component units.

Related Organizations

Pasco County Health Facilities Authority

The Pasco County Health Facilities Authority was created by County ordinance as a public body corporate and politic under Sec. 154.207, Florida Statutes. It functions to assist health facilities in the acquisition, construction, financing, and refinancing of projects within Pasco County.

Pasco County Educational Facilities Authority

The Pasco County Educational Facilities Authority was created by County resolution as a public body corporate and politic under authority granted by Sec. 243.21, Florida Statutes. The Educational Facilities Authority functions to assist institutions of higher education in the construction, financing, and refinancing of facilities or projects.

While the Board appoints the members of these authorities, and may abolish the authorities by ordinance or resolution, the Board is not able to impose its will on these organizations. In addition, the Board is not able to gain access to their economic resources and the authorities are neither financially accountable to nor fiscally dependent upon the Board. Consequently, these related organizations are not component units and are not included in the accompanying financial statements.

B. Basic Financial Statements

The County's Basic Financial Statements consist of the government-wide financial statements (based on the County as a whole) and the fund financial statements, with the focus on the County, as a whole, as well as on its major individual funds.

Government-wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These statements report information on the government's activities as a whole, which include the primary government and its component unit. For the most part, the effect of interfund activity has been eliminated from these statements in order to avoid a distortion of financial results. Net residual amounts due between governmental and business-type activities are presented as internal balances on the Statement of Net Position where they are eliminated in the total primary government column. Fiduciary funds of the government are also excluded from this presentation since their resources are not available for government funding purposes. The Statement of Net Position reports all financial and capital resources of the governmental and business-type activities. It is presented in a net position format (assets and deferred outflows, less liabilities and deferred inflows, equal net position) and is shown with three components: net investment in capital assets, restricted net assets; and unrestricted net assets. The Statement of Activities reports functional categories of programs provided by the County, and demonstrates the degree to which the direct expenses of a given function are offset by program revenues. In addition, the County chooses to eliminate indirect costs between governmental activities to avoid a "doubling up" effect.

Program revenues are classified into three categories: charges for services; operating grants and contributions; and capital grants and contributions. Charges for services refer to direct recovery of costs from customers for services rendered, such as those for emergency services, libraries, court operations, etc. Grants and contributions refer to revenues restricted for specific programs whose use may be restricted further to operational or capital items. The general revenues section displays revenue collected which helps support all functions of Pasco County government and contribute to the change in the net position for the fiscal year. General revenues include all taxes.

Fund Financial Statements

The fund financial statements appear after the government-wide financial statements and report additional and detailed information about Pasco County's operations for its major funds, individually, and nonmajor funds, in the aggregate, for governmental, proprietary and fiduciary fund types. A major fund is one that meets the criteria set forth in GASB Statement No. 34 or one which the County considers to be of particular importance. If neither of these conditions exists, funds are considered to be nonmajor funds. Included are budgetary comparison statements, which report the County's original budget together with the comparison of final budget and actual results. In addition, reconciliations are provided that convert the results of governmental fund accounting to the government-wide presentation.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus is used to describe the types of transactions and events that are reported, or measured. Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements and to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, respectively. Under the economic resources measurement focus, net position (total assets and deferred outflows less total liabilities and deferred inflows) is measured. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned and expenses are recognized in the period incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The operating revenues of the County's enterprise funds, the Water and Sewer Unit and the Solid Waste Disposal and Resource Recovery System, are charges for services to customers. Operating expenses of these operations include salaries, contractual services, materials and supplies, utilities, equipment rental and maintenance, communications, administrative charges, and depreciation. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. In addition, when both restricted and unrestricted resources are available for use, it is the County's policy to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted assets are available.

All governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Accordingly, under this measurement focus, only current assets, except as noted below, and current liabilities are included on their balance sheets, and the reported fund balances provide an indication of available spendable or appropriable resources. Statements of Revenues, Expenditures and Changes in Fund Balances report increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they present a summary of sources and uses of available spendable resources during a period.

Noncurrent portions of long-term receivables due in governmental funds are reported on their balance sheets. However, recognition of governmental fund type revenues represented by these noncurrent receivables is deferred until they become current receivables since they do not represent "available spendable resources" in the spending measurement focus used for governmental funds.

All governmental funds follow the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become susceptible to accrual; that is, measurable and available to finance expenditures of the current period. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, except for grant revenues for which the collection period is 365 days.

Expenditures are recorded when the related liability is incurred except for: (1) principal and interest on general long-term debt, which are recognized when due; (2) the noncurrent portion of accrued compensated absences, which is recorded as a long-term liability on the government-wide financial statements; and (3) prepaid items, reported only on the balance sheet when they occur, and do not affect expenditures.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

In applying the susceptibility-to-accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the County; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are substantially irrevocable, the exception being a failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt, or earlier if they meet the availability criterion.

Licenses and permits and miscellaneous revenues (except investment earnings) are not recorded until actually received, as, generally, these revenues are not measurable and available until that time. Property taxes and investment earnings are recorded as earned since they are considered to be measurable and available.

Special assessments are measurable when they are levied. They become available when they are due as long as the County receives them soon enough after year-end to pay current liabilities. Amounts that are measurable but not available are recorded as deferred inflows.

Major and Non-major Funds

GASB Statement No. 34 establishes criteria for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements and are detailed in the combining statements.

Major Funds of the County:

The following governmental fund is reported as a major fund:

General Fund

The General Fund is the County's primary operating fund. It accounts for all financial resources of the County, except for those required to be accounted for in another fund.

Both of the County's enterprise funds are reported as major funds:

Water and Sewer Unit and Solid Waste Disposal and Resource Recovery System Funds

These funds account for the financing of their respective services to the general public where all or most of the costs involved are paid in the form of charges to the users of such services.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Non-major Funds

In addition to those funds that are reported as major, the County also reports as nonmajor all funds that are included in the following fund types:

Special Revenue Funds

These funds are used to account for the proceeds of specific revenue sources (other than for major capital projects) that are legally restricted to expenditure for specified purposes.

Debt Service Funds

These funds are used to account for the accumulation of resources for, and the payment of, principal, interest and related costs of governmental activities long-term debt.

Capital Projects Funds

These funds account for resources provided by transfers from the General Fund that are used for the acquisition or construction of capital facilities and other projects (other than those financed by Proprietary Fund Types), as well as bond proceeds.

In addition, the County reports the following:

Internal Service Funds

These funds account for the County insurance, County self insurance, Clerk & Comptroller's insurance, Sheriff's Health Insurance, and equipment service operations that provide respective services and commodities to other operations of the County.

Agency Funds

These funds account for assets and liabilities held in an agency capacity for other governments and individuals.

D. Cash, Cash Equivalents, and Investments

Cash, cash equivalents and investments consist of cash on hand (petty cash), demand deposits, certificates of deposit, deposits with the Florida State Board of Administration's ("SBA") Florida PRIME and deposits with the Florida Local Government Investment Trust ("FLGIT"). In addition, the County considers short-term, highly liquid investments with a maturity of three months or less when purchased, that are both readily convertible to cash and so near their maturity that any changes in interest rates would cause only immaterial risk of change in value, as cash equivalents.

The County pools substantially all cash and investments, except for those situations requiring separate cash and investment accounts in accordance with legal restrictions. Each fund's equity in pooled cash and investments is stated at the respective fund's contributed cost plus earnings thereon.

Earnings from pooled cash and investments are allocated to each fund based on a three-month average of the equity balance of each fund. In fiscal 2015 deposits earned interest at the following rates: SBA's Florida PRIME, .17% to .20%; FLGIT Investment Trust Fund (reported at NAV) .23% to .74% (SEC yield); FLGIT Day to Day Fund (reported at NAV) 0.10% to 0.16%; and money market funds at 0.1%.

D. Cash, Cash Equivalents, and Investments (Continued)

The County accounts for its investments in accordance with the provisions of GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. This statement requires governmental entities to report investments at fair value (see Note 3). All changes in fair value of investments are recognized as gains or losses in the Statement of Activities. The SBA's Florida PRIME is a 2a7-like pool and is, therefore, reported at its actual pooled share price (its value) as the pool account balance (amortized cost) is the same as its fair value. A 2a7-like pool is an external investment pool that is not registered with the SEC as an investment company, but nevertheless has a policy that it will, and does operate in a manner consistent with the SEC's Rule 2a7. Rule 2a7 allows SEC-registered mutual funds to use amortized cost to report net assets to compute share prices if certain conditions are met (see Notes 3.B. and 3.C.).

For purposes of the statement of cash flows, investments in money market funds are considered cash and cash equivalents.

E. Receivables, Payables, and Amounts Due From/Due To

Trade accounts receivable and various payables of the County are recorded in the government-wide, and in the governmental and proprietary fund financial statements. In proprietary fund types, accounts receivable are recorded with appropriate allowances for uncollectible accounts, which totaled approximately \$4,160,000 at September 30, 2015. Related revenues are recognized as earned. In governmental funds, accounts receivable are recorded with appropriate allowances for uncollectible accounts, which totaled approximately \$62,196,000 at September 30, 2015, primarily related to ambulance billings. In governmental fund types, amounts generated as a result of operations of the County are not recognized as revenue until the amounts are both measurable and available. In addition, a receivable was recorded and revenue recognized in the Water and Sewer Unit Fund for estimated unbilled consumption at year-end. Such unbilled receivables totaled approximately \$6,855,000 at September 30, 2015. Activities between funds resulting in balances at year-end are reported as "Due From" and "Due To" amounts and represent interfund loans. Any residual balances outstanding between governmental and business-type activities are reported in the government-wide Statement of Net Position as internal balances.

F. Inventories

Inventories are determined by physical count and are stated at average cost using a moving average cost basis. Purchases of inventories for governmental fund types are reported as expenditures when used (consumption method). Inventories for governmental funds are reported on the balance sheet as an asset of their respective funds with a corresponding classification as a nonspendable amount in fund balance since they do not represent "available spendable resources". Inventories of proprietary fund types, consisting primarily of operating materials held for consumption, are reported as an expense when consumed in the operations of the fund. Inventories that consist of homes held for resale are stated at cost.

G. Restricted Assets

Certain assets are classified as restricted on the Statement of Net Position because of requirements imposed by law, regulation, creditors, grantors, contributors or other controlling provisions.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (roads, streets, bridges and sidewalks) acquired subsequent to October 1, 1980, as well as intangible assets acquired subsequent to October 1, 2009, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements. Capital assets are defined as those assets with an initial, individual cost of \$1,000 or more (\$5,000 in the case of intangible assets) and a useful life of at least one year. Capital contributions or donations are recorded at their estimated fair value at the time received. The cost of normal maintenance and repairs that do not add to the value of a capital asset or materially extend its useful life are not capitalized.

Depreciation (termed amortization for intangible assets with identifiable useful lives) is recorded on capital assets on a government-wide basis. Capital outlays of proprietary funds are recorded as capital assets that are depreciated over their estimated useful lives on a straight-line basis on both the funds basis and the government-wide basis. Depreciation is provided over the following estimated useful lives (straight-line method):

<u>Assets</u>	<u>Years</u>
Buildings	20 - 50
Improvements Other than Buildings	10 - 40
Machinery and Equipment	3 - 10
Infrastructure	35 - 40
Intangibles:	
Computer Software	3 - 5
Easements and Rights-of-Ways	See (1)

- (1) If the value is separable from the underlying land, the useful life is the shorter of the legal or the estimated useful life; if the life is indefinite or unlimited, then it is not amortized. If the value is inseparable from the underlying land, it is not amortized.

I. Deferred Outflows/ Inflows of Resources

In addition to assets, the statement of net position and the balance sheet includes a separate section for the deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has multiple items that qualify for reporting in this category including the deferred charge on bond refunding and pension related items such as: differences between expected and actual experience, changes in actuarial assumptions, net difference between projected and actual earnings on pension plan investments, changes in proportion and differences between the County's contributions and proportionate share of contributions, and the County's contributions subsequent to the measurement date, relating to the Florida Retirement System Pension Plan and the Retiree Health Insurance Subsidy Program. A deferred charge on bond refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other amounts will be recognized as increases in pension expense in future years.

In addition to liabilities, the statement of net position and the balance sheet include a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Deferred Outflows/ Inflows of Resources (Continued)

The County has multiple items that qualify for reporting in this category including differences between expected and actual experience, net difference between projected and actual earnings on pension plan investments, and changes in the proportion and differences between the County's contributions and proportionate share of contributions, relating to the Florida Retirement System Pension Plan and the Retiree Health Insurance Subsidy Program. The County also has several items, which arise only under a modified accrual basis of accounting that qualified for reporting in this category. Accordingly, the items are reported in the governmental fund's balance sheet. The governmental funds report unavailable revenues from intergovernmental revenues and charges for emergency medical services. The amounts are deferred and recognized as an inflow of resources in the period in which the amounts become available.

J. Long-term Obligations and Amortization

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statements of net position, net of unamortized bond discount or premium.

Bond discounts and premiums related to Water and Sewer and to Solid Waste Disposal and Resource Recovery System revenue bonds have been capitalized and are amortized over the term of the bonds using the effective interest method. Bond issue costs are expensed/expended in the period incurred. Gains and losses related to the refunding and legal defeasance of certain Water and Sewer and Solid Waste Disposal and Resource Recovery System Fund debt have been recorded as deferred inflows and outflows and are being amortized as a component of interest expense in accordance with GASB Statement No. 65.

K. Unearned Revenues

Unearned revenues will be recognized as revenue in the fiscal year they are earned.

L. Fund Equity

Governmental Funds

The County follows the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Governments are required to classify fund balance in governmental funds as nonspendable, restricted, committed, assigned, and unassigned.

In accordance with GASB Statement No. 54, the components of the fund balances of governmental funds are classified as follows:

Nonspendable Fund Balance

Amounts that are not in spendable form, either because they are legally or contractually required to be maintained intact or are not spendable as to form, such as inventory or prepaid items.

**PASCO COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Fund Equity (Continued)

Spendable Fund Balance

Restricted Fund Balance

Amounts that can be spent only for specific purposes because of constitutional provisions, enabling legislation, or because of constraints by third parties, such as creditors, grants, contributors, or laws and regulations of other governments.

Committed Fund Balance

Amounts that can be used only for the specific purposes determined by a formal action of the Board of County Commissioners, the County's highest level of decision making authority, such as an establishment of an ordinance or resolution of the Board. These commitments may be modified or removed by the Board of County Commissioners through an amendment or repeal of the ordinance or resolution.

Assigned Fund Balance

Amounts reflecting a government's intended use of resources. This intent must be established by the County Administrator, or his or her designee, and approved by the Board of County Commissioners. These amounts are intended to be used for specific purposes that are neither considered restricted or committed.

Unassigned Fund Balance

This is the residual spendable funds that have not been classified as restricted, committed, or assigned to a specific purpose.

The County considers the implementation of fund balance and spending policies and establishes when a general fund expenditure is incurred and where restricted, committed, assigned, or unassigned amounts are available to be used. The County will first use restricted amounts, then committed amounts, then assigned amounts, and lastly unassigned amounts. All other funds in which an expenditure is incurred and where restricted, committed, assigned, or unassigned amounts are available to be used, the County will first use unassigned amounts, then assigned amounts, then committed amounts, and finally restricted amounts.

When an expense is incurred for purposes for which both restricted and unrestricted net position is available, it is the County's consideration to first use restricted net position and then unrestricted net position.

M. Pension Costs

The County participates in the Florida Retirement System (FRS) defined benefit plan and Health Insurance Subsidy (HIS). In the government-wide and proprietary fund statements of net position, liabilities are recognized for the County's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the FRS defined benefit plan and the HIS and additions to/deductions from FRS's and HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and HIS plans. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds of employee contributions are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value (see Note 15).

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Compensated Absences

The County accrues accumulated, unpaid vacation, sick pay and associated fringe benefits when such benefits are earned. Both the current and long-term portion of these compensated absences are accrued and reported in the government-wide and proprietary fund financial statements. In governmental funds, compensated absences that have matured are accrued as current-year expenditures.

O. Advances

During the year ended September 30, 2015, the General Fund advanced \$1,534,000 to the Sheriff for the purpose of establishing the Sheriff's health insurance internal service fund. Such amounts do not accrue interest and are expected to be repaid with future savings of the fund. Such repayments are not expected to occur within one year.

P. Property Taxes

Property taxes are levied each November 1, based on assessed values on the previous January 1 (the lien date). Property taxes become due and payable on November 1 of each year. The Pasco County Tax Collector bills and collects property taxes on behalf of the County. The tax rate to finance general governmental services for the fiscal year ended September 30, 2015 was \$7.3341 per \$1,000 of assessed taxable property value. Taxes become delinquent on April 1 of each year. The County records delinquent property tax collections on a cash basis as delinquent taxes receivable are immaterial at September 30. This is primarily due to an annual tax certificate sale, held each year, which is advertised by law and creates a lien on the property which must be paid in full with interest.

Q. Adoption of New Accounting Principle

The County adopted the provisions of GASB Statement No. 68 *Accounting and Financial Reporting for Pensions*, and the related GASB Statement No. 71 *Pension Transition for Contributions Made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68* effective for the fiscal year ending September 30, 2015. The scope of Statement 68 addresses accounting and financial reporting for pensions that are provided to the employees of state and local governmental employers through pension plans that are administered through trusts. The scope of Statement 71 was to eliminate a potential source of understatement of restated beginning net position and expense in the County's first year of implementing Statement 68. This required the County to recognize a beginning deferred outflow of resources for pension contributions made during the period subsequent to the measurement date of the beginning net pension liability. This includes the County's participation in the Florida Retirement System, a multiple-employer cost-sharing public retirement systems. (See Notes 15 and 21 for further details).

R. Future Accounting Pronouncements

GASB issued GASB Statement No. 72, *Fair Value Measurement and Application* which is effective for the fiscal year ending September 30, 2016. The scope of this Statement addresses accounting and financial reporting issues related to fair value measurements of the assets and liabilities of the governmental entity. This includes the fair value measurement and hierarchy levels of valuation techniques used to measure fair value for the County's investments and long term liabilities. The County has not determined the impact of adopting this Statement for fiscal year 2016.

R. Future Accounting Pronouncements (Continued)

GASB issued GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68* which is effective for the fiscal year ending September 30, 2016. The requirements of this Statement will improve financial reporting by establishing a single framework for the presentation of information about pensions, which will enhance the comparability of pension-related information reported by employers and nonemployer contributing entities. The requirements of this Statement extend the approach to Statement 68 to all pensions, with modifications as necessary to reflect accounting and financial reporting for pension plans that are not administered through trusts and do not meet the criteria of Statement 68, and clarifies the application of certain provisions of statements 67 and 68 with regard to the information that is required to be presented as notes in the 10-year schedules, the reporting for separately financed liabilities of defined benefit pensions, and the timing of employer revenue recognition for the support of nonemployer contributing entities not in a special funding situation. The County has not determined the impact of adopting this Statement for fiscal year 2016.

GASB issued GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* which is effective for the fiscal year ending September 20, 2016. This Statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. It also amends Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, paragraphs 64, 74, and 82*. This Statement establishes the hierarchy of GAAP for state and local governments and this Statement applies to all state and local governmental entities. It establishes the order of priority of pronouncements and others sources of accounting and financial reporting guidance that the County should apply and requires that the County use the sources of authoritative GAAP for financial reporting in a hierarchical descending manner as follows: Officially established accounting principles-GASB Statements, (Category A) GASB Technical Bulletins, GASB Implementation Guides, and literature of the AICPA cleared by the GASB (Category B). The County has not determined the impact of adopting this Statement for fiscal year 2016.

2. BUDGETS AND BUDGETARY DATA

Chapters 129 and 200, Florida Statutes govern the preparation, adoption, and administration of the County's annual appropriated budget. Pursuant to those Statutes, the following procedures are followed by the County in establishing the operating budget:

- The Clerk & Comptroller, the Sheriff and the Supervisor of Elections must submit a tentative budget to the Board by June 1. In addition to the budget for funding provided by the Board, the Clerk & Comptroller submits a budget, for court-related functions, to the Florida Clerks of Court Corporation, a public corporation, for approval.
- The Property Appraiser and the Tax Collector prepare budgets, which are approved by the Florida Department of Revenue.

**PASCO COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015**

2. BUDGETS AND BUDGETARY DATA (CONTINUED)

- No later than 15 days after certification of the ad valorem tax roll by the Property Appraiser, the County budget officer submits, to the Board, a tentative budget for the fiscal year beginning on the following October 1.
- The public is informed of the proposed budget and tentative millage rates through legal advertising. Public hearings are held to hear comments from the public regarding the budget.
- Prior to September 30 the Board legally adopts the budget by resolution.
- Budgetary control is generally maintained at the departmental level. The County Administrator acts on intradepartmental budget changes that do not alter a total departmental budget. All other budgetary changes must be submitted to and approved by the Board in open session.
- Budgets are monitored at varying levels of classification detail with control generally maintained at the subfunction level. In accordance with Sec. 129.07, Florida Statutes, expenditures cannot legally exceed total appropriations.
- Beginning funds available for financing current appropriations are considered in the budgetary process but are not included in the financial statements of the Governmental Fund Types as budgeted revenue.
- Formal budgetary integration is employed as a management control device during the year for the General, Special Revenue, Debt Service and Capital Projects Funds.
- The actual results of operations in the Statement of Revenues, Expenditures and Changes in Fund Balance – Budget to Actual – General Fund are presented on a budgetary basis. Adjustments to convert the results of operations at the end of the year from the budgetary basis of accounting to the GAAP basis of accounting for the General Fund are as follows:

2. BUDGETS AND BUDGETARY DATA (CONTINUED)

- Budgets for certain Capital Projects Funds, certain Special Revenue Funds, and certain Debt Service Funds are adopted on a basis consistent with GAAP. Budgets were not prepared for the Restore Act, Department of Juvenile Justice, Criminal Justice ("FDLE"), HUD Housing and Recovery NSP II, American Recovery and Reinvestment Act, HUD Housing and Recovery, Department of Community Affairs Grants, Department of Transportation, HUD Housing and Recovery NSP 3, U.S. Department of Health and Human Services, Division of Library Services, Department of Elder Affairs (Florida and Federal), U.S. Department of Justice, Transportation Services, Title III-B Transportation, Elderly Nutrition, Department of Homeland Security, Office of Tourism, Trade and Economic Development, Department of Environmental Protection, U.S. Environmental Protection Agency, Multi-Model Transportation, Clerk & Comptroller, Sheriff, and Supervisor of Elections' special revenue funds. A budget also was not prepared for the Guaranteed Entitlement Refunding Revenue Bonds Series 2003 and Half-Cent Sales Tax Revenue Bonds Series 2003 debt service funds, and the Guaranteed Entitlement CIP capital projects fund.
- All appropriations, except those of Special Revenue Funds representing grants that overlap fiscal years and are budgeted on a life-to-date basis, lapse at year-end, even if encumbered. However, the County intends to honor those purchase orders, contracts and commitments represented by encumbrances outstanding at year-end and reported as assigned fund balance. The subsequent year's appropriations will provide authority to complete these encumbered transactions.

For comparative purposes, certain line items of the budgets in the financial statements have been reclassified to conform to reporting classifications of actual revenues and expenditures. In accordance with Sec. 129.01, Florida Statutes, only 95% of receipts reasonably anticipated from all appropriate sources, including taxes to be levied, are included in the budgetary data for revenues.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The County maintains a pooled cash program that is available for use by all Board and Clerk & Comptroller controlled funds. Earnings are allocated to each of the participating funds based on a three-month average of the equity balance of each fund. Cash and investments which must be segregated due to bond covenants or other legal restrictions are not included in this program.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

A. Insurance and Collateralization of Demand Deposits

The County's demand deposits are insured by Federal depository insurance or collateralized in accordance with Chapter 280, Florida Statutes. This Statute establishes a multiple financial institution collateral pool in which all financial institutions holding public deposits together pledge a pool of collateral against all public deposits they collectively hold. In the event of a default or insolvency by a qualified public depository, any loss not covered by deposit insurance or the proceeds from the sale of securities pledged by the defaulting depository is covered by an assessment against the other qualified public depositories of the same type as the depository in default. The assessment is based upon the average share of the public fund deposits held by each of these depositories during the previous 12 months in relation to total public deposits held by all depositories of the same type during the same period.

B. Investments

The County's formally adopted Investment Policy, developed in accordance with Section 218.415, Florida Statutes, gives the County the authority to invest surplus public funds in certain permitted investments, establishes limits for investment allocation, issuers and maturities, and prescribes collateralization and safekeeping requirements, among other controls.

Credit Risk

The Investment Policy limits credit risk by restricting authorized investments to the following:

- State of Florida Local Government Surplus Funds Trust Fund Investment Pool or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act of 1969 as provided in Section 163.01.
- Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency.
- Interest-bearing time deposits or savings accounts in qualified public depositories as defined in Section 280.02, Florida Statutes.
- Direct obligations of the United States Treasury.
- Federal agencies and instrumentalities.
- Securities of, or other interests in, any open-end or closed-end management-type investment company or investment trust registered under the Investment Company Act of 1940 provided the portfolio of such investment company or investment trust is limited to obligations of the United States Government or any agency or instrumentality thereof and to repurchase agreements fully collateralized by such United States Government obligations, and provided that such investment company or investment trust takes delivery of such collateral either directly or through an authorized custodian.
- Other investments authorized by law or by ordinance for a county or a municipality. In addition to Section 218.415(16), the investment of county funds is authorized by Sections 28.33 and 219.075, Florida Statutes:

B. Investments (Continued)

Deposits with the State Board of Administration

Qualified Public Depositories

Repurchase Agreements

Custodial Credit Risk

The Investment Policy, pursuant to Section 218.415(18), Florida Statutes, requires that all securities purchased by, and all collateral obtained by the County, must be held in the County's name through execution of a third-party custodial safekeeping agreement.

Interest Rate Risk

The Investment Policy limits interest rate risk by attempting to match investment maturities with known cash needs and anticipated cash flow requirements. In addition, the investment portfolio must be diversified as to maturity. The maximum stated investment maturity is 10 years, and applies to direct obligations of the United States Treasury and to designated United States Government Agencies and Instrumentalities only. At September 30, 2015, maturities of investments in U.S. Government and Agency Bonds ranged from less than 12 months to no more than two years.

Concentration of Credit Risk

The County diversifies its investments by security type, institution, and maturities in order to reduce overall portfolio risk while attaining acceptable rates of return. To manage concentration of investment risk, the County's investment policy establishes guidelines for diversification by instruments of the following:

	<u>Maximum</u>	<u>Issuer Limit</u>

C. State Board of Administration (“SBA”) Investment Holdings

The SBA administers the Florida Local Government Surplus Funds Trust Fund (Florida PRIME). Florida PRIME’s investment policies can be found at www.sbafla.com/prime. As stated in Note 1.D., above, Florida PRIME is a 2A-7 like external investment pool and is rated AAAM by Standard & Poor’s.

D. Repurchase Agreements

In connection with the issuance of the \$71,160,000 Water and Sewer Refunding Revenue Bonds, Series 2006 (see Note 9), the County entered into a repurchase agreement involving the investment of various proceeds from the bond issue, including \$4,880,300 representing a reserve account. At September 30, 2015, the balance of the repurchase agreement, which is fully collateralized in accordance with Section 218.415, Florida Statutes, is \$4,880,300. The County also entered into a tri-party custodial agreement in connection with this repurchase agreement. Under the custodial agreement, all securities are held by the custodian in the County’s name.

Revenue Bond Refunding

Bonds are refunded to retire all or a portion of an outstanding bond issue. Most typically, refunding is done to refinance at a lower interest rate to reduce overall debt service. Certain issues of bonds may be refunded prior to the call date, known as an advance refunding.

Future principal and interest payments on refunding bonds have been provided through advance refunding bond issues whereby refunding bonds are issued and the net proceeds, plus any additional resources that may be required, are used to purchase securities issued and guaranteed by the United States government. The County then deposits these securities in an irrevocable trust under an escrow agreement which states that all proceeds from the trust will be used to fund the principal and interest payments of the previously issued debt being refunded. The trust deposits have been computed so that the securities in the trust, along with future cash flows generated by the securities, will be sufficient to service the previously issued bonds.

During fiscal year 2015, the County issued the Water and Sewer Refunding Revenue Bonds, Series 2014A, and the Solid Waste Disposal and Resource Recovery System Refunding Revenue Bonds, Series 2015. See information below relating to these issuances:

D. Other Long-term Liabilities Matters (Continued)

Arbitrage Rebate

The Tax Reform Act of 1986 generally requires earnings from investments of bond proceeds that exceed the issuer's bond yield to be rebated to the U.S. Treasury at periodic intervals, usually every five years. Computations are performed to determine the yield on the bonds, the yield on the invested funds and the determination of the resulting arbitrage rebate liability. The computation period begins at issue date and extends to the 2015 fiscal year-end. When arbitrage rebate liabilities occur they are included in amounts Due to Other Governments and are charged against interest income.

The County had no rebate liability as of September 30, 2015.

Legal Debt Limits

The Florida Constitution and Pasco County set no legal debt limits.

Restrictions

The official statements and Commission resolutions authorizing the issuance of the bonds contain certain restrictive covenants. The Board of County Commissioners has covenanted that, on a monthly basis, it will deposit specified amounts derived from specific revenue sources into accounts and funds established by resolutions. The deposits into these accounts and funds are used to repay principal and interest coming due on the bonds and to provide sinking funds established for the purpose of retiring term bonds due in future years. The most restrictive of these covenants include rate covenants of not less than 125% of the current Debt Service Requirements and 100% of all reserve and other required payments.

Conduit Debt

Pasco County, through the Board, has issued various bonded debt to provide financial assistance to private-sector entities for the acquisition, construction and equipping of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance.

As of September 30, 2015, there were several series of industrial revenue and industrial development bonds outstanding for which the Board was unable to determine the outstanding balances; however, the original aggregate principal amount payable of these bonds was approximately \$46.9 million.

Additionally, as of September 30, 2015, the Pasco County Housing Finance Authority, a discretely presented component unit, had issued \$8.4 million Multifamily Housing Revenue Bonds and \$500,000 Taxable Multifamily Housing Revenue Bonds to provide assistance in the construction of an apartment project; the bonds are secured by loan payments and other trust funds. Also, the Pasco County Educational Facilities Authority, a related organization, had issued \$60 million Variable Rate Demand Revenue Bonds (the Saint Leo Project) in order to provide financial assistance to Saint Leo University for construction of facilities and retirement of previously issued bond indentures.

Neither the Board, State, nor any political subdivision thereof is obligated in any manner for the repayment of bonds issued by the Pasco County Housing Finance Authority or the Pasco County Educational Facilities Authority. Accordingly, these bonds are not reported as liabilities in the accompanying financial statements.

10. DUE FROM TAMPA BAY WATER

In May, 1998, the County, along with the counties of Hillsborough and Pinellas, and the cities of New Port Richey, St. Petersburg and Tampa, entered into an interlocal agreement to reorganize the West Coast Regional Water Supply Authority (the "Authority") from which the County purchased the majority of its water. In October 1998, the Authority was reorganized under the new name of Tampa Bay Water, a Regional Water Supply Authority. As part of this agreement, each party conveyed certain assets (consisting primarily of land, equipment, and water rights) to the Authority in exchange for credits to be applied against the cost of purchased water over the next 30 years. These credits are applied on a monthly basis, with interest (4.865%) compounded semi-annually.

Pasco County conveyed 6.328 acres at the North Pasco Wellfield, its production capacity at the North Pasco and Starkey Wellfields, and its equity in the Regional System and Cypress Creek Wellfield for a net amount of \$32,235,683 (\$3,000,000 in cash and \$29,235,683 recorded as due from other governments, a receivable that will be received in the form of credits as noted above).

These credits are recognized as a reduction of the cost of purchased water as the credits are received from the Authority. These deferred credits are recorded in the Water and Sewer Fund.

The amount outstanding at September 30, 2015 totaled \$17,573,262 and is receivable in future fiscal years as follows:

<u>Fiscal Year</u>	<u>Credits</u>
2016	\$ 993,092

11. RESTRICTED ASSETS OF ENTERPRISE FUNDS

Amounts accumulated as restricted assets at September 30, 2015, in the County's two Enterprise Funds (Water and Sewer Unit Fund, and Solid Waste Disposal and Resource Recovery System Fund, both classified as major funds), in accordance with the terms of bond indentures and state grant requirements, consisted of the following:

12. ENTERPRISE FUNDS' RESTRICTED NET POSITION

At September 30, 2015, restrictions of net position in the County's Enterprise Funds comprised the following:

	Water and Sewer Unit	Solid Waste and Resource Recovery System	Total
Debt Service	\$ 34,733,975	\$ 25,286,992	\$ 60,020,967

13. LANDFILL CLOSURE AND LONG-TERM CARE COSTS - SOLID WASTE DISPOSAL AND RESOURCE RECOVERY SYSTEM OPERATIONS

State and federal laws require that Pasco County place a final cover on its landfill sites when it stops accepting waste and that these sites be monitored for 30 years after closure. Although closure and long-term care costs will be paid only near or after the date that the landfills stop accepting waste, the County reports a portion of these costs as an operating expense in each period based on landfill capacity used as of the balance sheet date.

For the year ending September 30, 2015, the combined liability for landfill closure and post-closure costs increased by \$1,287,111. The accrued costs of closure and long-term care as of September 30, 2015 totaled \$51,108,904. The estimated total current costs of closure and long-term care remaining to be recognized are \$14,192,770 and \$36,916,134, respectively. Amounts related to cost are based on an estimate by the County consulting engineer of the cost to perform all closures and long-term care as of September 30, 2015. Actual costs may be higher due to inflation.

The amounts in escrow at September 30, 2015 include \$20,190,601 for closure and \$5,363,851 for long-term care. The total escrow balance of \$25,554,452 is reported as restricted cash in the Solid Waste Disposal and Resource Recovery System Fund to fund post-closure costs of the West Pasco Class III, West Pasco Class I-SW-I and SW-II, West Pasco Class I – AI, AII, AIII, and AIV, and East Pasco landfills.

The County is required by state and federal laws to make annual contributions to an escrow account to meet financial assurances requirements. Although state and federal laws requires one year of construction and long-term care, which would have totaled \$13,346,711, the County has funded the total accrual liability at approximately 50%, with investments of \$25,554,452 held for this purpose. In the event that the annual escrow contributions and interest earning prove to be inadequate due to inflation, changes in technology, or additional closure and long-term requirement, these costs may need to be covered by changes to future landfill users.

13. LANDFILL CLOSURE AND LONG-TERM CARE COSTS - SOLID WASTE DISPOSAL AND RESOURCE RECOVERY SYSTEM OPERATIONS (CONTINUED)

The capacity utilized and estimated remaining useful life for each of the County's landfills is as follows:

<u>Landfills</u>	<u>Capacity Utilized</u>	<u>Estimated Remaining Life (Years)</u>
East Pasco Class I (13 and 107 acres)	100.00%	-
West Pasco Class I - AI, AII, AIII, AIV	63.78%	14

14. POLLUTION REMEDIATION

GASB 49 provides guidance for estimating and reporting the potential costs of pollution remediation. While GASB 49 does not require the County to search for pollution, it does require the County to reasonably estimate and report a remediation liability when any of the following obligating events has occurred:

- Pollution poses an imminent danger to the public and the County is compelled to take action;
- The County is in violation of a pollution related permit or license;
- The County is named or has evidence that it will be named as a responsible party by a regulator;
- The County is named or has evidence that it will be named in a lawsuit to enforce a cleanup; or
- The County commences or legally obligates itself to conduct remediation activities.

Site investigation, planning and design, cleanup and site monitoring are typical remediation activities under way in the County. The County has knowledge and expertise to estimate the remediation obligations presented herein based upon prior experience in identifying and funding similar remediation activities. The standard requires the County to calculate pollution remediation liabilities using the expected cash flow technique. Where the County cannot reasonably estimate a pollution remediation obligation, it does not report a liability; however, the County has not identified any of these situations.

The remediation obligation estimates that appear in this report are subject to change over time. Cost may vary due to price fluctuations, changes in technology, changes in potential responsible parties, results of environmental studies, changes to statutes or regulations and other factors that could result in revisions to these estimates. Prospective recoveries from responsible parties may reduce the County's obligation. Capital assets may be created when pollution remediation outlays are made under specific circumstances.

14. POLLUTION REMEDIATION (CONTINUED)

At September 30, 2015, the County has recorded estimated liabilities of \$430,000 as a result of exceedances of certain groundwater quality limits at the East Pasco Sanitary Landfill. The Florida Department of Environmental Protection is requiring further investigation and monitoring to determine whether remediation is necessary. A contract with the County's Consultant has been executed in the amount of \$430,000 to perform investigation and an assessment of the exceedances, in addition to beginning the initial stages of formal closure of this solid waste facility.

The County has not received any other information and does not have any evidence regarding any other violations of a pollution related permit or license. The County has not been named as a responsible party in a lawsuit to enforce a cleanup nor is it aware of any other conditions requiring pollution remediation.

15. EMPLOYEE RETIREMENT PLANS

A. Plan Descriptions

Background

The Florida Retirement System (FRS) was created by Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the County are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The County's pension expense totaled \$(12,697,227) for both the FRS Pension Plan and HIS Plan for the fiscal year ended September 30, 2015.

Florida Retirement System Pension Plan

Plan Description

The Florida Retirement System Pension Plan (FRS Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees. The general classes of membership are as follows:

- Regular Class - Members of the FRS who do not qualify for membership in the other classes.

**PASCO COUNTY, FLORIDA

15. EMPLOYEE RETIREMENT PLANS (CONTINUED)

Florida Retirement System Pension Plan (Continued)

Plan Description (Continued)

- Elected County Officers Class - Members who hold specified elective offices in local government.
- Senior Management Service Class (SMSC) - Members in senior management level positions.
- Special Risk Class - Members who are special risk employees, such as law enforcement officers, meet the criteria to qualify for this class.

Employees enrolled in the FRS Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the FRS Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the FRS Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service, except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service. Employees enrolled in the FRS Plan may include up to four years of credit for military service toward creditable service. The FRS Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The FRS Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under FRS Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided

Benefits under the FRS Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3% per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3% determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3%. FRS Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions

The Florida Legislature establishes contribution rates for participating employers and employees. Effective July 1, 2011, all FRS Plan members (except those in DROP) are required to make 3% employee contributions on a pretax basis. The contribution rates attributable to the County, effective July 1, 2014, were applied to employee salaries as follows: regular employees 7.37%, special risk 19.82%, county elected officials 43.24%, senior management 21.14%, and DROP participants 12.28%. The County's contributions to the FRS Plan were \$19,207,013 for the year ended September 30, 2015.

Pension Costs

At September 30, 2015, the County reported a liability of \$99,688,415 for its proportionate share of the FRS Plan's net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015. The County's proportion of the net pension liability was based on the County's contributions received by FRS during the measurement period for employer payroll paid dates from July 1, 2014 through June 30, 2015, relative to the total employer contributions received from all of FRS's participating employers. At June 30, 2015, the County's proportion was 0.771800726%, which was an increase of 0.008135981% from its proportion measured as of June 30, 2014.

For the year ended September 30, 2015, the County recognized pension expense of \$4,460,543 for its proportionate share of FRS's pension expense. In addition, the County reported its proportionate share of FRS's deferred outflows of resources and deferred inflows of resources from the following sources:

Actuarial Assumptions

The total pension liability in the July 1, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60% per year
Salary Increases	3.25%, Average, Including Inflation
Investment Rate of Return	7.65%

Mortality rates were based on the Generational RP-2000 with Projection Scale BB. The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation, as outlined in the FRS Plan's investment policy, and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 7.65% for the FRS Plan. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, each of the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Liability Sensitivity

The following presents the County's proportionate share of the net pension liability for the FRS Plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

Description	1% Decrease Discount Rate	Current Discount Rate	1% Increase in Discount Rate
FRS Plan Discount Rate	6.65%	7.65%	8.65%

Pension Plan Fiduciary Net Position

Detailed information about the FRS Plan's fiduciary's net position is available in a separately-issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report. Retiree Health Insurance Subsidy Program

Plan Description

The Retiree Health Insurance Subsidy Program (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided

For the fiscal year ended September 30, 2015, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions

The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2015, the contribution rate was 1.26% of payroll pursuant to section 112.363, Florida Statutes. The County contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled. The County's contributions to the HIS Plan were \$2,367,902 for the year ended September 30, 2015.

Pension Costs

At September 30, 2015, the County reported a liability of \$57,650,329 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015. The County's proportion of the net pension liability was based on the County's contributions received during the measurement period for employer payroll paid dates from July 1, 2014 through June 30, 2015, relative to the total employer contributions received from all participating employers. At June 30, 2015, the County's proportion was 0.565286480%, which was an increase of 0.015391849% from its proportion measured as of June 30, 2014.

For the year ended September 30, 2015, the County recognized pension expense of \$4,417,145 for its proportionate share of HIS's pension expense. In addition, the County reported its proportionate share of HIS's deferred outflows of resources and deferred inflows of resources from the following sources:

Actuarial Assumptions

The total pension liability in the July 1, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60% per year
Salary Increases	3.25%, Average, Including Inflation
Municipal Bond Rate	3.80%

15. EMPLOYEE RETIREMENT PLANS (CONTINUED)

Retiree Health Insurance Subsidy Program (Continued)

Mortality rates were based on the Generational RP-2000 with Projection Scale BB. The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

Discount Rate

The discount rate used to measure the total pension liability was 3.80% for the HIS Plan. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Pension Liability Sensitivity

The following presents the County's proportionate share of the net pension liability for the HIS Plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

Description	1% Decrease	Current Discount Rate	1% Increase in Discount Rate
HIS Plan Discount Rate	2.80%	3.80%	4.80%

Pension Plan Fiduciary Net Position

Detailed information about the HIS Plan's fiduciary's net position is available in a separately-issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report. That report may be obtained through the Florida Department of Management Services website at <http://www.dms.myflorida.com>.

Investment Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan. The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. County employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the Pension Plan.

15. EMPLOYEE RETIREMENT PLANS (CONTINUED)

Investment Plan (continued)

Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.04% of payroll and by forfeited benefits of plan members. Allocations to the investment member's accounts during the 2014-15 fiscal year, as established by Section 121.72, Florida Statutes, are based on a percentage of gross compensation, by class, as follows: Regular class 6.30%, Special Risk Administrative Support class 7.95%, Special Risk class 14.00%, Senior Management Service class 7.67% and County Elected Officers class 11.34%.

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the Pension Plan is transferred to the Investment Plan, the member must have the years of service required for Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five-year period, the employee will regain control over their account. If the employee does not return within the five-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended September 30, 2015, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the County.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The County's Investment Plan pension expense totaled approximately \$2,261,000 for the fiscal year ended September 30, 2015.

16. OTHER POSTEMPLOYMENT BENEFITS ("OPEB")

A. Plan Description

Pasco County Board of County Commissioners

The Board of County Commissioners defined benefit postemployment healthcare plan, the Group Health Program for Pasco County ("GHPPC"), is a cost-sharing multiple-employer health care plan that primarily provides medical, dental, vision and life insurance benefits (OPEB benefits) to eligible County retirees and their spouses. The Board of County Commissioners and the Constitutional Officers, except the Pasco County Sheriff and Pasco County Clerk & Comptroller, participate in GHPPC.

16. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

A. Plan Description (Continued)

In order to be eligible for benefits an employee must satisfy either normal or early retirement conditions under the Florida Retirement System ("FRS"). The Board of County Commissioners has the authority to establish and amend the benefit provisions of the plan in accordance with Sec. 110.123, Florida Statutes.

Pasco County Sheriff

The Pasco County Sheriff's Office ("PCSO") operates a separate, single-employer cost-sharing health care plan. Pasco County Sheriff Health Care Plan ("PCSOHP") offers medical and free life insurance paying double the employee's salary, up to \$50,000. The Sheriff provides postretirement healthcare benefits in accordance with Section 110.123, Florida Statutes, to all employees who retire from the employ of the Sheriff. To be eligible for postretirement healthcare benefits, the retiree must have at least six years of service or attain normal retirement age as defined by Social Security. Retirees with more than 6 years of service, but less than 30 years of service, pay 100% of the premium cost to receive postretirement healthcare benefits. Retirees with 30 or more years of service do not pay a premium to receive postretirement healthcare benefits; however, they surrender their monthly state subsidy of \$150 per month.

Pasco County Clerk & Comptroller

The Pasco County Clerk & Comptroller's Office ("PCCC") offers a separate single-employer self-funded HMO health care plan ("PCCCHP") that offers medical, dental, vision and life insurance benefits (OPEB benefits) to eligible retirees and their dependents. In order to be eligible for benefits, a Clerk & Comptroller's office employee must satisfy either normal or early retirement conditions under the Florida Retirement System ("FRS"). Authority to establish and amend the benefit provisions of the plan is in accordance with Sec. 110.123, Florida Statutes.

Membership of each plan consisted of the following at September 30, 2014 the date of the latest actuarial valuation:

	<u>GHPPC</u>	<u>PCSOHP</u>	<u>PCCCHP</u>
Retirees and Beneficiaries Receiving Benefits	286	55	112
Active Plan Members	<u>2,314</u>	<u>1,184</u>	<u>333</u>
Total	<u>2,600</u>	<u>1,239</u>	<u>445</u>

The County follows the provisions of Governmental Accounting Standards Board Statement No. 45 ("GASB 45"), *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, in accounting for these plans. Although all three plans are cost-sharing, they are not administered as formal trusts, nor are they an equivalent arrangement as of September 30, 2014, and, as such, in accordance with GASB 45, the plans must follow the accounting and reporting requirements of an agent multi-employer retirement plan. Separate financial statements are not prepared for the three other postemployment benefit plans.

B. Funding Policy

Pasco County Board of County Commissioners

Eligible employees with less than 30 years of service may elect to continue medical coverage after they retire, for themselves and their dependents, by paying the full premium. Retirees under age 65, with 30 or more years of service, receive subsidized medical benefits from the County, and pay \$150 per month towards medical benefits for single coverage, with the balance paid by the County, until they reach age 65. No subsidy exists for spousal or other dependent medical coverage. Surviving spouses of retired employees are eligible for health care benefits if they were covered as dependents of the retirees prior to their demise. Spouses are not eligible for continuing retiree benefits if retirees cancel coverage due to Medicare eligibility/enrollment. Dental coverage is voluntary, and the cost is fully covered by retirees. Retirees are eligible to continue \$2,500 in life insurance coverage after retirement, and the premiums are paid for, in full, by retirees. The Program is currently unfunded.

16. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

B. Funding Policy (Continued)

Pasco County Board of County Commissioners (Continued)

There is no separate trust through which benefits for retirees are funded. No assets are currently accumulated or earmarked for this purpose. All approved benefits are paid from the County's general assets, when due. The GHPPC is funded on a pay-as-you-go basis.

Pasco County Sheriff

Eligible employees may elect to continue medical coverage after they retire, for themselves and their dependents, by paying the blended premium. Covered Spouses of retirees may remain covered under the retiree health insurance program ("PCSOHP") even when the retiree is not covered or becomes ineligible upon eligibility for Medicare, by payment of the full blended premium for spousal coverage. For members who retire with 30 years of service or more, and who receive benefits from the Florida Retirement System ("FRS"), the Sheriff's Office pays for individual coverage in the lowest cost plan, less the amount of health insurance subsidy received from FRS, until age 65. Retirees with less than 30 years of service are required to pay the total blended premium cost less FRS subsidies, if any. After attainment of age 65, all retirees are required to pay the total blended premium in order to continue coverage. Group dental, vision and life insurance are 100% paid by retirees. The Program is currently unfunded. There is no separate trust through which benefits for retirees are funded. No assets are currently accumulated or earmarked for this purpose. All approved benefits are paid from the Sheriff's general assets when due. The PCSOHP is funded on a pay-as-you-go basis.

Pasco County Clerk & Comptroller

In order to be eligible for benefits, a Clerk's office employee must satisfy either normal or early retirement conditions under the Florida Retirement System ("FRS"). Medical benefits for retirees are subsidized by the Clerk & Comptroller. For retirees under age 65, with less than 30 years of service, the Clerk & Comptroller pays \$5 per month per year of service for Pre-65 medical coverage. Retirees under age 65 with 30 or more years of service pay \$150 per month for single coverage, plus the full difference in the blended premium between single and employee-plus-one coverage if they cover their spouses. Retirees over age 65 pay 100% of the blended premium if they wish to continue coverage. Spouses of retired employees are only eligible to receive health care benefits as dependents of retirees. Coverage is not extended to surviving spouses of deceased retirees, except as provided by COBRA. Dental and vision benefits are separated out. The retiree may elect to continue or terminate each benefit on an individual basis. For purposes of the actuarial calculation of the OPEB liability, dental and vision benefits are part of the overall Medical package and are not separated out. There is no additional premium/contribution for dental and vision benefits. The Clerk & Comptroller's Office pays for 100% of the group life insurance premiums for all retirees (Accidental Death & Dismemberment benefit is terminated). The amount of life insurance coverage varies based on retirement date, job classification, and age. Employees who retire(d) on or after October 1, 2007 receive(d) life insurance in the amount equal to their annual salary as of the January 1 prior to their retirement. Employees who retired prior to October 1, 2007 received life insurance based on their job classification as follows: Regular Non-Exempt, \$20,000; Regular Exempt, \$30,000; Directors, \$40,000; Chief Deputy Clerk, \$50,000; Clerk, \$100,000. Life insurance coverage for all retirees reduces to 50% of the above amounts at age 65, and to 35% at age 70. The Program is currently unfunded. There is no separate trust through which benefits for retirees are funded. No assets are currently accumulated or earmarked for this purpose. All approved benefits are paid from the Clerk's general assets, when due. The PCCCHP is funded on a pay-as-you-go basis.

C. Annual OPEB Cost and Net OPEB Obligation

The annual other postemployment benefit ("OPEB") cost (expense) is calculated based on the Annual Required Contribution ("ARC") of the employer, an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over 30 years. The current ARC rate as a percentage of annual covered payroll is 2.2%, 3.8% and 3.8% for the GHPPC, PCSOHP and PCCCHP, respectively.

The following table shows the components of the County, Sheriff, and Clerk & Comptroller's OPEB cost for the year, the estimated contributions to the plan per the actuary report, and the changes in the net OPEB obligation ("NOO").

	GHPPC	PCSOHP	PCCCHP

The annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2015 and the two preceding years were as follows:

	Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed to the Plan	Net OPEB Obligation
GHPPC	9/30/2015	\$ 2,788,290	11.62%	\$ 13,351,459

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

17. RISK MANAGEMENT

Self-insurance fund operations have been established to handle the County's worker's compensation, general liability, automobile liability, health claims and the Clerk & Comptroller and Sheriff health claims. The County uses a combination of self-insurance and third-party insurance to protect itself against risks that cannot be eliminated.

The Clerk & Comptroller has an insurance fund that accounts for a self-insured plan for employee group health, dental, vision and prescription drugs. As of September 30, 2015, the insurance fund had \$5,098,753 of available net position to fund claims liabilities. The claims liability of \$401,024 reported in the Statement of Net Position – Proprietary Funds at September 30, 2015 is based on the provisions of GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, which requires that a liability for unpaid claims costs, including estimates of costs related to incurred but not reported claims, be accrued when insured events occur.

The Sheriff has an insurance fund that accounts for a self-insured plan for employee group medical and prescription drug coverage. At September 30, 2015, the claims liability of \$891,000 reported in the Statement of Net Position - Proprietary Funds is based on the provisions of GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, which requires that a liability for unpaid claims costs, including estimates of costs related to incurred but not reported claims, be accrued when insured events occur.

The County has worker's compensation insurance with a \$650,000 deductible per occurrence for police/fire and a \$500,000 deductible per occurrence for all others. The County's general liability insurance has a \$500,000 retention per claim with \$1,000,000 retention per occurrence and \$2,000,000 aggregate. Negligence claims in excess of the statutory limits set in Section 768.28, Florida Statutes, which provide for limited sovereign immunity of \$100,000/\$200,000 per occurrence can only be recovered through an act of the State Legislature. Effective October 1, 2011, sovereign immunity limits were increased to \$200,000 per claim and \$300,000 per occurrence for claims incurred after that date. The automobile liability is self-insured.

17. RISK MANAGEMENT (CONTINUED)

Almost all funds of the County participate in the worker's compensation, general liability, and automobile liability program and make payments to the County's insurance fund in accordance with cost allocations based upon the level of personnel staffing.

Effective October 1, 2013, the County transitioned to self-insured coverage for medical and other health related benefits for its employees in order to better insulate the County against increasing health care costs. All claims activity associated with the County's self-insured health plan is reported in the County Self Insurance Internal Service Fund. Total outstanding claim liabilities, inclusive of current claims payable and incurred but not reported claims, were \$1,282,273 as of September 30, 2015.

For the year ended September 30, 2015, the County reviewed its historical claims experience for purposes of determining estimates of the total claims and loss reserves for all self-insurance risks. The claim liability of \$13,460,845 reported in the fund at September 30, 2015, of which an estimated \$5,774,942 is due within one year, is based on the provisions of GASB Statement No. 10 which requires that a liability for unpaid claims costs, including estimates of costs related to incurred but not reported claims, be accrued when insured events occur. Changes in the funds claims liability amounts during the past two fiscal years are as follows:

Fiscal Year	Beginning of Fiscal Year Liability	Current Year Claims and Changes in		Claims Payments	Balance at Fiscal Year End
		Estimates			
2014	\$ 10,668,192	\$ 21,244,665	\$ 19,850,607	\$ 12,062,250	
2015	\$ 12,062,250	\$ 32,788,761	\$ 31,390,166	\$ 13,460,845	

The County had no significant reductions in insurance coverage during the fiscal year ended September 30, 2015. There were no settlements which exceeded the County's insurance coverage in any of the past three fiscal years.

19. DEFICIT FUND EQUITY

The following funds had deficit fund balances at September 30, 2015:

- Criminal Justice (FDLE) (\$19) – At September 30, 2014, the SBA transferred the original principal of the County's position in Fund B back to the County. Any unrealized gain associated with the investment holding was reversed and a loss was recognized. This unanticipated non-operating expense caused a deficit fund balance in this fund as of September 30, 2014 which carried into 2015. No continued recurring deficits are anticipated in this fund.
- HUD Housing and Recovery NSP-II Fund (\$3,201) – Certain administrative costs had not been billed to a grantor during fiscal 2011. Fiscal year 2015 balance reflects appropriate administrative costs offset by grant revenue with a deficit due to prior year administrative costs. These costs will be recouped in fiscal year 2016.
- Division of Library Services (\$26) – At September 30, 2014, the SBA transferred the original principal of the County's position in Fund B back to the County. Any unrealized gain associated with the investment holding was reversed and a loss was recognized. This unanticipated non-operating expense caused a deficit fund balance in this fund as of September 30, 2014 which carried into 2015. No continued recurring deficits are anticipated in this fund.
- Florida Department of Elder Affairs (\$38) – At September 30, 2014, the SBA transferred the original principal of the County's position in Fund B back to the County. Any unrealized gain associated with the investment holding was reversed and a loss was recognized. This unanticipated non-operating expense caused a deficit fund balance in this fund as of September 30, 2014 which carried into 2015. No continued recurring deficits are anticipated in this fund.
- Public Transportation Fund (\$66,848) – During fiscal 2015 certain administrative costs had not been billed to the grantor and were anticipated to be recouped in fiscal 2016. A portion of those costs have been submitted to and reimbursed by the grantor with the remaining deficit fund balance, noted herein, expected to be cleared after submission of additional reimbursement requests by the County.
- Department of Children and Families (\$209) – At September 30, 2014, the SBA transferred the original principal of the County's position in Fund B back to the County. Any unrealized gain associated with the investment holding was reversed and a loss was recognized. This unanticipated non-operating expense caused a deficit fund balance in this fund as of September 30, 2014 which carried into 2015. No continued recurring deficits are anticipated in this fund.
- School Impact Fees (\$4,305) – At September 30, 2014, the SBA transferred the original principal of the County's position in Fund B back to the County. Any unrealized gain associated with the investment holding was reversed and a loss was recognized. This unanticipated non-operating expense caused a deficit fund balance in this fund as of September 30, 2014 which carried into 2015. No continued recurring deficits are anticipated in this fund.
- Alcohol and Other Drug Abuse (\$2,562) – The fund has expenditures in excess of revenues in the amount of \$2,562 for the year ended September 30, 2015. This deficit is expected to be cured through additional revenues in 2016.

20. COMMITMENTS, CONTINGENCIES AND OTHER MATTERS

General Government Construction Commitments

At September 30, 2015, the County had various contract commitments for general government construction projects totaling approximately \$37.1 million.

Solid Waste Disposal and Resource Recovery System Commitments

At September 30, 2015, purchase and construction contract commitments in the Enterprise Funds were approximately \$35.6 million. On March 28, 1989, the Board entered into a service agreement with Covanta Pasco, Inc. ("Covanta"), formerly known as Ogden Martin Systems of Pasco, Inc., for the operation and maintenance of the Solid Waste Disposal and Resource Recovery System Facility. The agreement commenced on May 15, 1991 and was extended through the earlier of May 15, 2016 or the final maturity of the Solid Waste Disposal and Resource Recovery System Revenue Bonds, Series 1989A, 1989B and 1989C. Under the agreement, Covanta is paid a monthly service fee based on an annual operation and maintenance charge of \$5,375,000, as adjusted by additional revenues and expenses related to the operation and maintenance of the Facility, as defined in the service agreement. For the year ended September 30, 2015, charges to the Board under the service agreement totaled \$13,027,897.

Also, on March 28, 1989, the Board entered into an agreement with Duke Energy (formerly Progress Energy Corporation) wherein the Board sells and Duke Energy purchases the net electrical energy generated from the Solid Waste Disposal Resource Recovery System Facility. For the year ended September 30, 2015, the Board's power sales to Duke Energy totaled \$23,940,589. Under the terms of the agreement, the Board has committed to having available annually, 23 megawatts of electrical energy for purchase by Duke Energy through December 2024. The capacity of energy committed by the Board is subject to adjustment for the period January 2015 through December 2024, as defined in the agreement.

Grants

All expenditures financed by Federal and State of Florida grants are subject to audit by the granting agencies to determine if such expenditures comply with the conditions of a grant. Management believes that no material liability will arise from any such audits.

Claims and Lawsuits

A number of claims and lawsuits are pending against the County. However, based on knowledge of facts and advice of the County Attorney and outside counsel, Management believes that the outcome of these actions will not have a material adverse effect on the County's financial position or results of operations.

In March 2009 a verdict was asserted against the Pasco County Sheriff's Office awarding approximately \$8.7 million to the claimant. The Florida statutory sovereign immunity provisions at that time put a cap of \$100,000 on damages and such damages were paid through the Florida Sheriff's Automobile Risk Program ("SHARP"). However, the claimant has indicated their intent to pursue the remainder of the verdict award through a claim bill with the Florida Legislature. Should such claim bill be passed by the Florida Legislature, there is an additional \$322,000 of insurance coverage available through SHARP. Any claim in excess of available insurance coverage would be paid for from funding by the Board of County Commissioners. No liability has been recorded in the accompanying financial statements due to the uncertainty of the outcome.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

MUNICIPAL SERVICES FUND To account for various municipal services, including Planning & Growth Management, Zoning & Site Development, Code Enforcement, Animal Services, Emergency Services Administration, and Engineering Services that are provided in the unincorporated areas of the County.

LOCAL OPTION GAS TAX FUND To account for transportation expenditures needed to meet the requirements of the capital improvements element of the comprehensive plan, expenditures needed to meet immediate local transportation problems and for other transportation-related expenditures that are critical for building comprehensive roadway networks. Expenditures for the construction of new roads shall be deemed to increase capacity and such projects shall be included in the capital improvements element of the adopted comprehensive plan. This fund shall not include routine maintenance of roads. These expenditures are funded by the Five-Cent Second Local Option Fuel Tax in accordance with Chapter 102, Article III of County Code of Ordinances (§ 102-162), Section 336.025(1)(b), Florida Statutes, and Chapter 206, Florida Statutes. The Board of County Commissioners passed this ordinance on September 9, 2014.

BUILDING INSPECTIONS AND PERMITTING FUND To account for the administration of the Florida Building Code pursuant to Chapter 553.79, Florida Statutes, and in accordance with Chapter 18, Article III (§ 18-40) of County Code of Ordinance.

EAST AND WEST PASCO LAW LIBRARY FUNDS To account for the purchase of books and equipment and the payment of librarian salaries in the East and West Pasco Law Libraries. Effective July 1, 2004, the legislature gave the counties authority to impose a surcharge on court costs of an amount up to \$65 to be imposed when a person pleads guilty or nolo contendere to or is found guilty of any felony, misdemeanor, or criminal traffic offense under the laws of the State. The Board of County Commissioners passed this ordinance (§ 34-33) on June 8, 2004. The law specifies that twenty-five percent of the amounts collected shall be allocated to fund personnel and legal materials for the public as part of a law library. These funds are in accordance with Section 939.185, Florida Statutes.

ROAD AND BRIDGE FUND To account for major and minor maintenance of County roads, bridges, bicycle paths, and sidewalks; roadway and right-of-way maintenance and drainage; traffic signs, traffic engineering, signalization, and pavement markings installation, operation, maintenance, and repair; and street lighting installation, operation, maintenance, and repair. These expenditures are funded by the Two-Cent Constitutional Fuel Tax (Section 206.41(1)(a), Florida Statutes), One-Cent County Fuel Tax (Section 206.41(1)(b), Florida Statutes), Six-Cent First Local Option Fuel Tax (Section 336.025(1)(a), Florida Statutes and Chapter 102, Article III of County Code of Ordinances (§ 102-151)), and One-Cent Ninth-Cent Fuel Tax (Section 206.41(1)(d), Florida Statutes and Chapter 102, Article III of County Code of Ordinances (§ 102-160)).

LAW ENFORCEMENT FUND To account for the proceeds from the sale of forfeited property to be expended for law enforcement purposes such as protracted or complex investigations, additional technical equipment or expertise, or matching funds to obtain federal grants, or other law enforcement purposes, which the Board of County Commissioners deems appropriate in accordance with Section 932.7055, Florida Statutes.

(1) Section 192.00(2), Florida Statutes, defines assessed value of property as "an annual determination of the just or fair market value of an item or property...." Consequently, estimated actual value, above, is assessed value before exemptions.

(2) Chapter 196, Florida Statutes, grants various exemptions for qualifying economic development, governmental, historic, and institutional property; the latter including charitable, educational, literary, religious, and scientific property. Exemptions are also granted for residential property for the disabled, blind, widows and widowers as well as the homestead exemption (\$25,000), additional homestead exemption (age 65 or older, \$25,000), and homestead differential (just value minus a capped value). [Note: the classified use value of land classified as agricultural (Chapter 193, Florida Statutes) is netted against all real property exemptions in arriving at the net exemptions noted, above, for real property.]

(3) Centrally-assessed property has been added to the total estimated actual value of real and personal property when computing this percentage.

(4) Total Tax Levy (refer to Property tax Levies and Collections) to Total Taxable Assessed Value (above). Tax rates are in dollars per \$1,000 of taxable assessed value.

(1) Net of allowable discounts. [NOTE: Property taxes become due and payable on November 1st of each year. A 4-percent discount is allowed if the taxes are paid in November, with the discount declining by 1 percent each month thereafter. Accordingly, tax collections will never equal 100 percent of the tax levy. Taxes become delinquent on April 1st of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold not later than June 1st of each year.

(2) As of September 30th of each year.
