Independent Auditor's Report

Governing Board Window Rock Unified School District No. 8

#### **Report on the financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Window Rock Unified School District No. 8 (District), as of and for the year ended June 30, 2016, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Window Rock Unified School District No. 8 as of June 30, 2016, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Change in Accounting Principle

As described in Note 1, the District implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*, for the year ended June 30, 2016, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

#### **Other Matters**

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and net pension liability information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 20, 2017 on our consideration of the Window Rock Unified School District No. 8's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Window Rock Unified School District No. 8's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) (Required Supplementary Information)

As management of the Window Rock Unified School District No. 8 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2016. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements.

#### FINANCIAL HIGHLIGHTS

- The District's total net position of governmental activities increased \$1.8 million, which represents a two percent increase over the prior fiscal year.
- General revenues accounted for \$24.3 million in revenue, or 82 percent of all current fiscal year revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$5.5 million or 18 percent of total current fiscal year revenues.
- The District had approximately \$28.0 million in expenses related to governmental activities, a less than one percent decrease from the prior fiscal year.
- Among major funds, the General Fund had \$23.5 million in current fiscal year revenues, which primarily consisted of federal aid, state aid and local revenues. The General Fund also had \$17.7 million in expenditures and net transfers. The Title I Grants Fund had \$1.2 million in federal aid revenues and corresponding expenditures. The Impact Aid Revenue Bond Debt Service Fund had \$2.7 million in expenditures related to the repayment of bonds.
- Net assets for the Internal Service Fund decreased \$1.1 million from the prior fiscal year. Operating expenses of \$3.1 million exceeded operating revenues of \$2.0 million at the end of the current fiscal year.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **OVERVIEW OF FINANCIAL STATEMENTS (Cont'd)**

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, and operation of non-instructional services, and interest on long-term debt.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decision. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

#### **OVERVIEW OF FINANCIAL STATEMENTS (Concl'd)**

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Title I Grants Fund, Teacherage Fund and Impact Aid Revenue Bond Debt Service Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

**Proprietary funds.** The District maintains one type of proprietary fund. The internal service fund is an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses its internal service fund to account for its employee benefit trust. Because this service predominantly benefits governmental functions, it has been included within governmental activities in the government-wide financial statements. The Employee Benefit Trust, although a legally separate component unit, functions for all employees of the District, and therefore has been included as an internal service fund.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. Due to their custodial nature, the fiduciary funds do not have a measurement focus.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balance - budget and actual has been provided for the General Fund and major special revenue funds as required supplementary information.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$76 million at the end of the current fiscal year.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt,

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS (Cont'd)

it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted and may be used to meet the District's ongoing obligations to its citizens and creditors.

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2016 and June 30, 2015.

	As of	As of
	June 30, 2016	June 30, 2015

Unrestricted	(9,029,877)	(12,928,681)
Total net position	\$ 75,992,150	\$ 73,350,272

At the end of the current fiscal year the District reported a negative unrestricted net position of \$9 million. The deficit arose because of the prior year implementation of GASB Statement No. 68, which required the District to record a liability for its proportionate share of the state pension plan's unfunded liability. The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS (Cont'd)

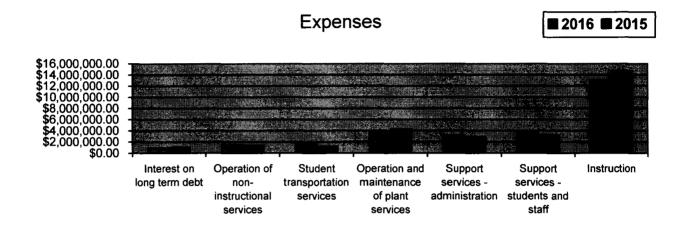

The following are significant current year transactions that have had an impact on the Statement of Net Position.

- The depreciation expense of existing assets resulting in the addition of \$5.3 million in accumulated depreciation.
- The principal retirement of \$2.1 million of bonds.

**Changes in net position.** The District's total revenues for the fiscal year ended June 30, 2016, were \$30.0 million. The total cost of all programs and services was \$28.0 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2016 and June 30, 2015.

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS (Concl'd)

The following table presents the cost of the seven major District functional activities: instruction, support services - students and staff, support services - administration, operation and maintenance of plant services, student transportation services, operation of non-instructional services and interest on long-term debt. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

	Year Ended June 30, 2015		Year Ended	June 30, 2015	
	Total	Net(Expense)/	Total	Net(Expense)/

Total	\$ 27,962,969	\$ (22,480,741)	\$ 28,734,477	\$ (22,925,269)	

- The cost of all governmental activities this year was \$28.0 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$5.5 million.
- Net cost of governmental activities (\$22.5 million) was financed by general revenues, which were made up of primarily federal, state, and county aid \$24.3 million.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds**. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$21.2 million, an increase of \$3.7 million due primarily to the District's continuation of cost control measures.

The General Fund comprises 69 percent of the total fund balance. Approximately \$14.3 million or 98 percent of the General Fund's fund balance constitutes unassigned fund balance.

The General Fund is the principal operating fund of the District. The increase in fund balance of \$3.2 in the General Fund to \$14.5 million was a result of continued cost control measures by the District. General fund revenues approximated prior year revenues. General fund expenditures increased \$538,369 due primarily to increased insurance cost.

The fund balance changes in the Title I Grants fund, the Teacherage Fund, and the Impact Aid Revenue Bond Debt Service Fund were not significant for the 2015-16 fiscal year.

**Proprietary funds.** Unrestricted net assets of the Internal Service Fund at the end of the year amounted to a deficit of \$1,530,273. The decrease of \$1,051,146 from the prior fiscal year was primarily due to claims and other expenses exceeding contributions received during the year.

#### **BUDGETARY HIGHLIGHTS**

Over the course of the year, the District revised the General Fund annual expenditure budget for changes in student enrollment. The difference between the original budget and the final amended budget was a decrease of \$1,386,678, or 10.2 percent.

Significant budget to actual variances for the District's revenues were because the State of Arizona does not require the preparation of a revenue budget. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The significant variances can be seen on that schedule. The favorable variances of \$323,139 in instruction, \$352,660 in operation and maintenance of plant services, and \$311,818 in student transportation were a result of the District's less than anticipated costs related to various cost saving measures.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

**Capital Assets**. As of June 30, 2016, the District had invested \$169.8 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$381,844 from the prior fiscal year, primarily due to equipment purchases. Total depreciation expense for the year was \$5.4 million.

The following schedule presents capital asset balances net of depreciation for the fiscal years ended June 30, 2016 and June 30, 2015.

	As of	As of	
	June 30, 2016	June 30, 2015	
Capital assets – non-depreciable	\$ 261,580	\$ 261,580	
Capital assets – depreciable, net	91,290,395	96,231,468	
Total	\$ 91,551,975	\$ 96,493,048	

Additional information on the District's capital assets can be found in Note 6.

**Debt Administration:** At year-end, the District had \$15.4 million in long-term debt outstanding, with \$2.1 million due within one year. The following table presents a summary of the District's outstanding debt for the fiscal years ended June 30, 2016 and June 30, 2015.

	As of	As of
	June 30, 2016	June 30, 2015
Bonds payable	\$ 15,445,000	\$ 17,555,000
Total	\$ 15,445,000	\$ 17,555,000

The District's general obligation bonds are subject to two limits; the constitutional debt limit (total debt limit) on all general obligation bonds (up to 30 percent of the total secondary assessed valuation) and the statutory debt limit on Class B bonds (the greater of 10 percent of the secondary assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$4.2 million and the Class B debt limit is \$2.8 million, which are more than the District's total outstanding general obligation and Class B debt, respectively.

Additional information on the District's long-term debt can be found in Notes 7 - 9.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2016-17 budget. The primary factors were the fiscal year 2015-16 budget balance carry forward, the District's student population, and employee salaries. Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund increased about 6 percent to \$12.9 million in fiscal year 2016-17. State aid and federal aid are expected to be the primary funding sources. No new significant programs were added to the 2016-17 budget.

## **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Window Rock Unified School District No. 8 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

During the year ended June 30, 2016, the District implemented the provisions of GASB Statement No. 72, *Fair Value Measurement and Application*. This Statement addresses accounting and financial reporting issues related to fair value measurements and establishes a hierarchy of inputs to valuation techniques used to measure fair value. This Statement also enhances accountability and transparency through revised note disclosures.

The more significant of the District's accounting policies are described below.

# A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore and athletic functions.

# **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**

## **B.** Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted Federal, State and County aid, and other items not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, the proprietary fund and the fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

## C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

<u>Government-Wide Financial Statements</u> - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. In addition, the fiduciary fund financial statements are reported on the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

**Fund Financial Statements** - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. As permitted by generally accepted accounting principles the District applies the "early recognition" option for debt service payments. Property tax resources are provided in the Debt Service Fund during the current year for the payment of debt service principal and interest due early in the following year (less than one month). Therefore, the expenditures and related liabilities have been recognized in the current period.

Property taxes, federal, state and county aid, tuition and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as unavailable revenue on the governmental fund financial statements.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type. The District reports the following major governmental funds:

<u>General Fund</u> - The General Fund is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District's Maintenance and Operations Fund as well as certain activities budgeted in separate funds in accordance with A.R.S. These funds are maintained as separate funds for budgetary purposes but do not meet the criteria for separate reporting in the financial statements.

## **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**

<u>Title I Grants fund</u> – The Title I Grants Fund accounts for financial assistance received for the purpose of improving the teaching and learning of children failing, or most at-risk of failing, to meet challenging State academic standards.

<u>Teacherage Fund</u> – The Teacherage Fund accounts for the operations of District housing facilities provided for employees of the District exclusively on Indian and federal lands.

<u>Impact Aid Revenue Bond Debt Service Fund</u> - The Impact Aid Revenue Bond Debt Service Fund accounts for impact aid monies received and interest earned that is used for the payment of impact aid revenue bond principal and interest payments.

Additionally, the District reports the following fund types:

<u>Proprietary Funds</u> - The Proprietary Fund is an internal service fund that accounts for activities related to the District's self-insurance program.

<u>Fiduciary Funds</u> - The Fiduciary Funds are Agency Funds, which account for resources held by the District on behalf of others and includes the Student Activities Fund. This Fund accounts for monies raised by students to finance student clubs and organizations held by the District as an agent.

The Proprietary Fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting and are presented in a single column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for health and welfare benefits. Operating expenses for internal service funds include the cost of goods and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The agency funds are custodial in nature and do not have a measurement focus and are reported using the accrual basis of accounting. The agency funds are reported by fund type.

## **D.** Cash and Investments

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents at year-end were cash in bank and cash and investments held by the County Treasurer.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

## D. Cash and Investments (Concl'd)

A.R.S. require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. As required by statute, interest earnings of the Bond Building Fund are recorded initially in that fund, but then transferred to the Debt Service Fund. All investments are stated at fair value.

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, Statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Statute requires collateral for deposits of Bond Building and Debt Service Funds monies in interest bearing savings accounts and certificates of deposit at 101 percent of all deposits not covered by federal depository insurance.

Arizona statute requires a pooled collateral program for public deposits and a Statewide Collateral Pool Administrator (Administrator) in the State Treasurer's Office. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured with collateral of 102 percent of the public deposits, less any applicable deposit insurance. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

## E. Investment Income

Investment income is composed of interest, dividends and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the governmental fund financial statements and in nonoperating revenues in the proprietary fund.

# **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**

## F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable are shown net of an allowance for uncollectable.

## G. Property Tax Calendar

Property tax levies are obtained by applying tax rates against either the primary assessed valuation or the secondary assessed valuation. Primary and secondary valuation categories are composed of the exact same properties. However, the primary category limits the increase in property values to 10% from the previous year, while there is no limit to the increase in property values for secondary valuation. Override and debt service tax rates are applied to the secondary assessed valuation and all other tax rates are applied to the primary assessed valuation.

The County levies real property taxes on or before the third Monday in August, which become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. The billings are considered past due after these dates, at which time the applicable property is subject to penalties and interest.

The County also levies various personal property taxes during the year, which are due the second Monday of the month following receipt of the tax notice, and become delinquent 30 days thereafter.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asses does not arise.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

## H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements and as expenditures when purchased in the fund financial statements.

## I. Inventories

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories consist of expendable supplies held for consumption. Inventories are recorded as expenses when consumed on the government-wide financial statements and as expenditures when purchased on the fund financial statements.

#### J. Capital Assets

Capital assets, which include land and improvements, buildings and improvements, vehicles, furniture, equipment and construction in progress, are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost, or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at the estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements	5 - 50 years
Buildings and improvements	5 - 50 years
Vehicles, furniture and equipment	5-15 years

## K. Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

A liability for these amounts, including related benefits, is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

## L. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

## M. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts, as well as issuance costs and the difference between the reacquisition price and the net carrying amount of the old debt, are deferred and amortized over the life of the bonds using the straight-line method over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

## N. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds and after nonoperating revenues/ expenses in the proprietary funds.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concl'd)

## **O.** Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

## P. Net Position Flow Assumption

In the government-wide fund financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

#### Q. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## **NOTE 2 – FUND BALANCE CLASSIFICATIONS**

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

*Nonspendable.* The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

*Restricted.* Fund balance is reported as restricted when constraints place on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

## **NOTE 2 – FUND BALANCE CLASSIFICATIONS (Cont'd)**

*Committed.* The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those accounts. The District does not have a formal policy or procedures for committed fund balance, accordingly, no committed fund balance amounts are reported.

Assigned. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the Governmental Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by formal Governing Board action. The District does not have a formal policy or procedures for the utilization of assigned fund balance, accordingly, no assigned fund balance amounts are reported.

Unassigned. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had to be restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

# NOTE 2 – FUND BALANCE CLASSIFICATIONS (Concl'd)

The table below provides detail of the major components of the District's fund balance classifications at year end.

	Ger	neral Fund		Title I Grants	Teacherage	mpact Aid Revenue Bond Debt Service	Non-Major overnmental Funds
Fund Balances:		·	_,				 
Nonspendable	\$	229,241	\$		\$	\$	\$

Total fund balances	\$ 1	4,540,033	\$		\$2,072,314	\$ 2,985,363	\$ 1,580,712

## **NOTE 3 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**Individual Deficit Fund Balances** – At year end, the following non-major governmental funds reported a deficit in fund balance.

	 Deficit
Non-Major Governmental Fund:	 
Food Services	\$ 2,736
Joint Technological Education	153,927

The deficits arose because of operations during the year. Additional revenues received in fiscal year 2016-17 are expected to eliminate the deficits.

**Excess Expenditures Over Budget** - At year end, the District had expenditures in the funds that exceeded the budgets, however, this does not constitute a violation of any legal provisions.

## **NOTE 4 - CASH AND INVESTMENTS**

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$5,500,283 and the bank balance was \$5,693,770. In addition, of this amount, \$5,539,566 was held with a trustee and the remaining balance was covered by Federal depository insurance or collateral held by the banking institution in the District's name.

The County Treasurer's pool is an external investment pool with no regulatory oversight. The pool is not required to register (and are not registered) with the Securities and Exchange Commission. The fair value of each participant's position in the County Treasurer investment pool approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments.

At year end, the District's investments consisted of the following.

Investment Type	Average Maturities	Fair Value
County Treasurer's investment pool	1 to 5 years	\$13,040,511
Total		\$13,040,511

*Interest Rate Risk.* The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit Risk.* The District has no investment policy that would further limit its investment choices. As of year end, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

*Custodial Credit Risk – Investments.* The District's investment in the County Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however the District's portion is not identified with specific investments and is not subject to custodial credit risk.

Concentration of Credit Risk. The District places no limit on the amount the District may invest in any one issuer.

## **NOTE 5 - RECEIVABLES**

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year-end for the District's individual major funds and non-major governmental funds in the aggregate, are as follows:

	General Fund			tle I Grants Fund	lon-Major overnmental Funds	Totals
Due from governmental entities:						 
Due from federal government	\$		\$	1,030,003	\$ 1,533,246	\$ 2,563,249

Net due from governmental entities	\$	2,991,466	\$	1,030,003	\$ 1,674,456	\$ 5,695,925

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unearned revenue reported in the governmental funds were as follows:

Transfers between funds are used to (1) move Federal grant funds restricted for indirect costs and (2) to make contributions from the General Fund to the Impact Aid Revenue Bond Debt Service Fund in accordance with the provisions of the bond offering statement.

# **NOTE 11 - CONTINGENT LIABILITIES**

<u>**Compliance**</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

**Lawsuits** - The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

## **NOTE 12 – PRIOR PERIOD ADJUSTMENT**

The July 1, 2015 the government-wide net assets and governmental fund balances do not agree to the prior year financial statements due to the correction of an error. The cash balance in the Impact Aid Revenue Bond Debt Service Fund was understated by \$829,454. The adjustment to correct the understatement had the following effect on the Statement of Activities and the Statement of Revenues, Expenditures and Changes in Fund Balances:

			Statement of Revenues, Expenditures and		
	1	Statement of Activities	Ch	anges in Fund Balances	
Net position/Fund balance, June 30, 2015 as previously reported Cash with Fiscal Agent not recorded in prior year	\$	73,350,272 829,454	\$	1,720,746 829,454	
Net position/Fund balance, July 1, 2015, as restated	\$	74,179,726	\$	2,550,200	

## **NOTE 13 - RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the state. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

The District established an Employee Benefits Fund (an Internal Service Fund) to account for and finance its uninsured risks of loss related to employee healthcare claims. Under this program, the Fund provides coverage for up to a maximum of \$125,000 for each claim, not to exceed an annual aggregate of \$50,000. The Fund purchases commercial insurance for claims in excess of this coverage. Settled claims have not exceeded this coverage in any of the past three fiscal years.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation and changes in legal doctrines. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries for example from salvage or subrogation, are another component of the claims liability estimate.

## NOTE 13 - RISK MANAGEMENT (Concl'd)

Changes in the balances of claims liabilities during the past two years are as follows:

	Claims Payable Beginning of Year	Current Year Claims and Changes in Estimates	Claim Payments	Claims Payable at End of Year
Employee Benefits 2015-16 2014-15	\$ 878,892 586,846	\$ 2,742,882 1,835,263	\$ 2,300,219 1,543,217	\$1,321,555 878,892

## **NOTE 14 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS**

**Plan Description.** District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the ASRS website at <u>www.azasrs.gov</u>.

**Benefits Provided.** The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Retirement Initial Membership Date:				
	Before July 1, 2011	On or After July 1, 2011			
Years of service and age	Sum of years and age equals 80 10	30 years age 55			
required to receive	Years age 62	25 years age 60			
Benefit	5 years age 50*	10 years age 62			
	Any years age 65	5 years age 50*			
		Any years age 65			
Final average salary is based on	Highest 36 months of last 120 months	Highest 60 months of last 120 months			
	2.1% to 2.3%	2.1% to 2.3%			
Benefit percent per year of service	*With actuarially reduced benefits				

## **NOTE 14 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (Cont'd)**

**Pension Liability.** At June 30, 2016, the District reported a liability of \$18.4 million for its proportionate share of the net pension liability of the ASRS. The net pension liability was measured as of June 30, 2015. The total pension liability used to calculate the net pension liability from an actuarial valuation as of June 30, 2014, to the measurement date of June 30, 2015. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2015, the District's proportion was 0.12 percent, which was an increase of around 0.04 percent from its proportion measured as of June 30, 2014.

**Pension Expense and Deferred Outflows/Inflows of Resources.** For the year ended June 30, 2016, the District recognized pension expense of \$(885,887) and reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Ir	Deferred Iflows of esources
Differences between expected and actual experience	\$	500,741	\$	961,577
Changes of assumptions or other inputs				
Net difference between projected and actual earnings				
on pension plan investments				588,088
Changes in proportion and differences between				
contributions and proportionate share of contributions				2,879,823
Contributions subsequent to the measurement date		1,135,194		
Total	\$	1,635,935	\$	4,429,488

The deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30:	
2017	\$(2,264,303)
2018	(1,565,684)
2019	(523,285)
2020	424,525

# NOTE 14 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (Cont'd)

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

**Contributions.** In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 11.47 percent (11.35 percent for retirement and 0.12 percent for long-term disability) of the members' annual covered payroll, and the District was required by statute to contribute at the actuarially determined rate of 11.47 percent for health insurance premium benefit, and 0.12 percent for long-term disability) of the active members' annual covered payroll. The District's contributions to the pension plan for the year ended June 30, 2016 were \$1,135,194.

In addition, the District was required by statute to contribute at the actuarially determined rate of 9.36 percent (9.17 for retirement, 0.13 percent for health insurance premium benefit, and 0.06 percent for long-term disability) of annual covered payroll of retired members who worked for the District in positions that would typically be filled by an employee who contributes to ASRS.

The District's contributions for the current and two preceding years for OPEB, all of which were equal to the required contributions, were as follows:

		E Sup	lealth Benefit Splement Fund	Long-Term Disability Fund	
Year ending June 30:	2016 2015 2014	\$	52,313 63,893 68,655	\$	12,261 12,682 27,293

## **NOTE 14 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (Cont'd)**

Actuarial Assumptions. The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2014
Actuarial roll forward date	June 30, 2015
Actuarial cost method	Entry age normal
Investment rate of return	8.0%
Projected salary increases	3.0-6.75%
Inflation	3.0%
Permanent base increases	Included
Mortality rates	1994 GAM Scale BB

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2012. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2013, actuarial valuation. The study did not include an analysis of the assumed investment rate of return.

The long-term expected rate of return on ASRS pension plan investments was determined to be 8.79 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Equity	58%	6.79%
Fixed income	25	3.70
Real Estate	10	4.25
Multi-asset	5	3.41
Commodities	2	3.93
Total	100%	

**Discount Rate.** The discount rate used to measure the ASRS total pension liability was 8.0 percent, which is less than the long-term expected rate of return of 8.79 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 8.0 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	Current						
	1% Decrease	Discount Rate	1% Increase				
	(7.0%)	(8.0%)	(9.0%)				
Proportionate share of the net pension liability	\$24,045,224	\$18,350,346	\$14,447,488				

**Pension Plan Fiduciary Net Position.** Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report. The report is available on the ASRS website at <u>www.azasrs.gov</u>.

# **NOTE 1 - BUDGETARY BASIS OF ACCOUNTING**

The adopted budget of the District is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following item.

• Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.

The following schedule reconciles expenditures, other financing sources (uses), fund balance at the end of the year.

## **NOTE 2 – PENSION PLAN SCHEDULES**

**Change in Accounting Principle.** For the year ended June 30, 2016, the District implemented the provisions of GASB Statement No. 82, *Pension Issues*. The statement changed the measure of payroll that is required to be presented in required supplementary information from covered employee payroll to covered payroll. Accordingly, payroll amounts presented in the pension plan schedules and related ratios for prior periods have been restated.

Actuarial Assumptions for Valuations Performed. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

**Factors that Affect Trends.** The actuarial assumptions used in the June 30, 2014, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2012. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2035, actuarial valuation. The study did not include an analysis of the assumed investment rate of return.

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Governing Board Window Rock Unified School District No. 8 Fort Defiance, AZ

Members of the Board:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Window Rock Unified School District No. 8 (District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 20, 2017.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of Window Rock Unified School District No. 8's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies: 2016-001.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the management of the Window Rock Unified School District No. 8, in a separate letter dated February 20, 2017.

#### **District's Response to Findings**

The District's response to finding 2016-001 identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Governing Board Window Rock Unified School District No. 8 Fort Defiance, AZ

#### **Report on Compliance for Each Major Federal Program**

We have audited Window Rock Unified School District No. 8's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Window Rock Unified School District No. 8's major federal programs for the year ended June 30, 2016. Window Rock Unified School District No. 8's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Window Rock Unified School District No. 8's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Window Rock Unified School District No. 8's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Window Rock Unified School District No. 8's compliance.

#### Basis for Qualified Opinion on CFDA's #84.377 School Improvement Grants, #10.555 National School Lunch Program, #84.041 Federal Impact Aid, #84.060 Indian Education – Grants to LEA's

As described in the accompanying schedule of findings and questioned costs, Window Rock Unified School District No. 8 did not comply with requirements regarding CFDA's #84.377 School Improvement Grants, #10.555 National School Lunch Program, #84.041 Federal Impact Aid, #84.060 Indian Education – Grants to LEA's as described in respective finding numbers 2016-002 through 2016-005 – Procurement and Suspension and Debarment. Compliance with such requirements is necessary, in our opinion, for Window Rock Unified School District No. 8 to comply with the requirements applicable to that program.

- 111 -

#### Qualified Opinion on CFDA's #84.377 School Improvement Grants, #10.555 National School Lunch Program, #84.041 Federal Impact Aid, #84.060 Indian Education – Grants to LEA's

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion on CFDA's #84.377 School Improvement Grants, #10.555 National School Lunch Program, #84.041 Federal Impact Aid, #84.060 Indian Education – Grants to LEA's paragraph above, Window Rock Unified School District No. 8 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on CFDA's #84.377 School Improvement Grants, #10.555 National School Lunch Program, #84.041 Federal Impact Aid, #84.060 Indian Education – Grants to LEA's for the year ended June 30, 2016.

#### Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, Window Rock Unified School District No. 8 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2016.

#### **Other Matters**

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2016-006. Our opinion on each major federal program is not modified with respect to these matters.

Window Rock Unified School District No. 8's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Window Rock Unified School District No. 8's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

#### **Report on Internal Control over Compliance**

Management of Window Rock Unified School District No. 8, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Window Rock Unified School District No. 8's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Window Rock Unified School District No. 8's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies. A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2016-002 through 2016-005 to be significant deficiencies.

Window Rock Unified School District No. 8's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Window Rock Unified School District No. 8's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# SECTION II – FINDINGS RELATED TO FINANCIAL STATEMENTS REPORTED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### Reference Number: 2016-001

**Type of Finding**: Noncompliance, Significant Deficiency **Description**: Internal Controls over Accounting Records and Financial Reporting

#### **CRITERIA**

District management is responsible for establishing and maintaining internal controls that include controls for the GAAP basis financial statements issued by the District. The District's system of internal controls must extend beyond the cash basis general ledger and the supporting schedules prepared by the District; rather it must also include controls over the GAAP basis financial statements. As such, management requested the auditors to prepare a draft of the financial statements, including related note disclosures. The outsourcing of these services is not unusual with school districts and is the result of management's cost benefit decision to rely on the accounting expertise of the auditors. Also, as part of the financial statement preparation, we proposed certain adjusting journal entries.

#### CONDITION/CONTEXT

The District's management did not have adequate internal control procedures in place over the financial statements issued by the District using the basis of accounting required by generally accepted accounting principles (GAAP). While the District's management and staff have an understanding of Arizona statutes, budgetary controls, general ledger controls, and compliance requirements, sufficient internal controls are not in place for the fund-based and government-wide financial statements and related notes to the financial statements. Also, the District did not adequately reconcile the construction in progress account in order to determine that all capital assets were appropriately recorded in the proper fiscal year.

#### <u>EFFECT</u>

The District's internal controls over financial reporting at the financial statement level are not adequate to ensure that a misstatement would be prevented and/or detected.

#### CAUSE

The District's internal controls over accounting records and financial reporting at the financial statement and general ledger level were not adequate to ensure that a misstatement would be prevented and/or detected. Audit adjustments were required. Errors in coding and allocations of revenue were also noted.

#### **RECOMMENDATION**

The District must design and implement effective internal control procedures to ensure the financial statements and related notes are free from material misstatements. Specifically, the District should use checklists to aid in review of the financial statements and related notes to the financial statements. The District's personnel should obtain additional training to increase their understanding of the GAAP basis financial statements drafted by the audit firm as well as the related adjusting entries posted during the conversion of the cash basis general ledger to the accrual basis financial statements.

#### VIEWS OF RESPONSIBLE OFFICIALS AND PLANNED CORRECTIVE ACTIONS

The District has worked diligently over the past several years to bring its financial records into compliance with the Uniform System of Financial Reporting. The District will continue to work at eliminating the need for audit adjustments in the cash basis to accrual basis of accounting conversion process.

#### SECTION III – FINDINGS AND QUESTIONED COSTS RELATED TO FEDERAL AWARDS

Reference Number: 2016-002 Program: School Improvement Grants CFDA Number: 84.377 Federal Agency: U.S. Department of Education Pass-Through Agency: Arizona Department of Education Applicable ARRA Programs: N/A Grantor Number: S377A16 Questioned Costs: \$105,000 Type of Finding: Noncompliance, Significant Deficiency Compliance Requirement: Procurement and Suspension and Debarment

#### **CRITERIA**

The District is required to follow Arizona State Purchasing laws, policies, and procedures as outlined by the Uniform System of Financial Records for School Districts (USFR). Those guidelines require that the District obtain verbal quotations, written quotations, and competitive bids based on pre-determined criteria. For fiscal year 2015-16 purchases exceeding \$100,000 (unless exempt) are required to follow competitive sealed proposals for the procurement of construction, materials, and services.

#### **CONDITION/CONTEXT**

For one vendor file examined it was noted that the vendor was paid more than \$100,000 for goods but the goods were not put out for bid by Request for Proposal or Invitation for Bid as required by the USFR. It was noted that the District did not perform any competitive bidding procedures for fiscal year 2015-16.

#### **EFFECT**

The District was not in compliance with the policies set forth by the USFR in regards to procurement of goods/services and therefore was not in compliance with procurement guidelines as set forth by the Federal Government.

#### CAUSE

The District did not follow policies and procedures to ensure that vendors paid over pre-determined amounts during a contract period were competitively bid as required.

#### **RECOMMENDATION**

The District should take measures to ensure compliance with Federal government policies regarding the procurement of goods/services as required and outlined by the USFR compliance questionnaire.

#### VIEWS OF RESPONSIBLE OFFICIALS AND PLANNED CORRECTIVE ACTIONS

The District will review the USFR procurement rules and all purchases of goods/services with Federal funds to ensure future compliance in this area. The District will continue to improve its purchasing procedures to ensure competitive bidding compliance when required.

#### **CRITERIA**

The District is required to follow Arizona State Purchasing laws, policies, and procedures as outlined by the Uniform System of Financial Records for School Districts (USFR). Those guidelines require that the District obtain verbal quotations, written quotations, and competitive bids based on pre-determined criteria. For fiscal year 2015-16 purchases exceeding \$50,000, but less than \$100,000 (unless exempt), are required to obtain three written price quotations for the procurement of construction, materials, and services.

#### **CONDITION/CONTEXT**

For one vendor file examined it was noted that the vendor was paid more than \$50,000 for goods/services but the USFR was not followed. Three written price quotations were obtained by the District but the District failed to adequately document why the lowest priced vendor was not selected.

#### <u>EFFECT</u>

The District was not in compliance with the policies set forth by the USFR in regards to procurement of goods/services and therefore was not in compliance with procurement guidelines as set forth by the Federal Government.

#### **CAUSE**

The District did not follow policies and procedures to ensure that vendors paid over pre-determined amounts during a contract period were competitively bid as required.

#### **RECOMMENDATION**

The District should take measures to ensure compliance with Federal government policies regarding the procurement of goods/services as required and outlined by the USFR compliance questionnaire.

#### VIEWS OF RESPONSIBLE OFFICIALS AND PLANNED CORRECTIVE ACTIONS

The District will review the USFR procurement rules and all purchases of goods/services with Federal funds to ensure future compliance in this area. The District will continue to improve its purchasing procedures to ensure competitive bidding compliance when required.

**Compliance Requirement:** Procurement and Suspension and Debarment

#### **CRITERIA**

Non-Federal entities are prohibited from contracting with or making sub-awards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred. "Covered transactions" include those procurement contracts for goods and services awarded under a non-procurement transaction (e.g. grant or cooperative agreement) that are expected to equal or exceed \$25,000 or meet certain other specified criteria. Section 180.220 of the government-wide non-procurement debarment and suspension common rule contains those additional circumstances. All non-procurement transactions (i.e., sub-award to sub-recipients), irrespective of award amount, are considered covered transactions.

#### **CONDITION/CONTEXT**

For all procurements that exceeded \$25,000 made from all Federal contracts, the District did not ensure that the vendor was suspended or debarred as required.

#### **EFFECT**

The District was not in compliance with the policies set forth by the Federal Government.

#### **CAUSE**

The District did not have policies and procedures in place to ensure vendors were not suspended or debarred for purchases above the requiring threshold amount.

#### **RECOMMENDATION**

The District should take measures to ensure compliance with Federal government policies regarding suspension and debarment.

#### VIEWS OF RESPONSIBLE OFFICIALS AND PLANNED CORRECTIVE ACTIONS

Window Rock Unified School District will ensure additional training is provided in the areas of compliance with Federal government policies regarding suspension and debarment. The District will review the suspension and debarment rules with applicable staff members to ensure future compliance in this area.
