Summary Rating Rationale

Moody's Investors Service assigns an A3 rating to Spartanburg Regional Health Services District (SRHS) \$250 million of Hospital Revenue Bonds, Series 2017A & Series 2017B (Federally Taxable) to be issued through the Spartanburg Regional Health Services District. The bonds are fixed rate and expected to mature in 2048 and 2039, respectively. At this time we are also downgrading SRHS outstanding rated debt to A3 from A2. The outlook is revised to stable from negative at the lower rating level.

The downgrade and assignment of the A3 rating reflects the system's increase in leverage absent an increase in operating performance and tempers already modest liquidity metrics. Additionally, the A3 is supported by risks associated with a large master facility plan. SRHS' participation in the State of South Carolina Defined Benefit Plan, which is significantly underfunded, poses additional long term pressure on the rating. These challenges are balanced by the system's strong market position, size and scope of operations and conservative investment strategy.

Rating Outlook

The stable outlook at the lower rating level incorporates our view that the system will be able to stabilize operating performance in the near term as it looks to implement several strategic initiatives. Additionally, the stable outlook at the lower rating level provides cushion for the system to work through its performance improvement initiatives. The system will need to tightly manage expenses through a heavy capital spending period in order to achieve budgeted results and support additional debt.

Factors that Could Lead to an Upgrade

- Sustained improvement in operating performance
- Improvement in liquidity measures resulting in days cash on hand and absolute liquidity at or near the A2 median
- Improved leverage metrics more in line with similarly rated peers

Factors that Could Lead to a Downgrade

- Inability to improve and sustain projected operating performance
- Increased capital spending or additional increase in debt beyond expectations
- Significant delays, disruptions or cost overruns related to currently planned projects

Legal Security

Pledge of Gross Receipts as defined in the bond documents. A mortgage pledge does not exist. As part of the 2017 plan of a finance a springing MTI is being put into place. Under the revised MTI bonds will be secured by a pledge of gross receivables.

Use of Proceeds

The Series 2017A and Series 2017B bonds will be issued to refund the Series 2008 and Series 2009 bonds, pay off the line of credit obligation with Branch Banking and Trust Company, support capital expenses related to the master facility plan and pay cost of issuance.

Obligor Profile

SRHS is a four hospital system which includes a Cancer Center, Heart Center and Center for women. The flagship hospital located in Spartanburg, SC is a tertiary hospital with a level III NICU and level I trauma center.
