Dear Chair Harris and School Board Members:

The Comprehensive Annual Financial Report (CAFR) of the School District of Hillsborough County, Florida, (the District) for the fiscal year ended June 30, 2017, is hereby submitted. These financial statements are presented in conformity with U.S. generally accepted accounting principles (U.S. GAAP) and are audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in "Government Auditing Standards" issued by the Comptroller General of the United States by a firm of licensed certified public accountants.

Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the District's management. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with U.S. GAAP. The District's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The District's financial statements have been audited by KPMG LLP, a firm of licensed certified public accountants. The objective of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2017, are free from material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2017, are fairly presented in conformity with U.S. GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

U.S. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A), which should be read in conjunction with the financial statements. The District's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The District and its governing board (School Board) were created pursuant to Section 4, Article IX of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered and supervised by District school officials in accordance with Chapter 1001, Florida Statutes. The School Board consists of seven elected officials. The appointed Superintendent serves as chief executive officer of the school system and is responsible for the administration and management of district schools. The District and Superintendent are required by Section 1010.01, Florida Statutes to maintain financial records and accounts as prescribed by law and rules of the State Board of Education.

The CAFR contains the audited financial statements for all operations over which the School Board is financially accountable. Various potential component units were evaluated to determine whether they should be considered as part of the District's reporting entity. Accordingly, the financial statements include the Hillsborough School Board Leasing Corporation (the Corporation) reported as a blended component unit. The Corporation was formed by the School Board solely for the purpose of acting as lessor, with the School Board acting as lessee, to finance the acquisition and/or construction of certain facilities, vehicles and equipment to be used in District operations. The members of the School Board serve as the Board of Directors of the Corporation. In addition, included in the reporting entity are the Charter Schools that are separately operated, under Section 1002.33, Florida Statutes. The Charter Schools are included as discretely presented component units in the accompanying financial statements. Additional information on these component units can be found in the notes to the financial statements.

The District provides a full range of educational programs in Hillsborough County. These include early childhood, kindergarten through 12th grade, basic and enriched programs, and exceptional student education. The District also provides vocational, workforce and adult programs.

The District's geographic boundaries correspond with those of Hillsborough County. The District is the 3rd largest school district in Florida and the 8th largest in the United States with over 212,000 K-12 students.

The annual budget serves as the foundation for the District's financial planning and control. The District establishes and maintains policies, procedures, and budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the School Board. Activities of the General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds are included in the annual appropriations budget. Although project length financial plans are adopted for the Capital Project Funds, the funding is contingent upon the annual budget adoption. Budgetary control is maintained for individual accounts or group of accounts within each school or department through the use of an encumbrance accounting system. This process tests for availability of funds, which precludes a requisition for services, equipment, supplies or materials from becoming a purchase order if the account would be overspent.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Economy. The District relies heavily upon state funding for the core of the educational programs within the District, and while the economic conditions of the nation and state interact with state funding adequacy and availability, the economic outlook for the District is consistent with the national situation. The State of Florida is dependent upon sales tax collections and tourism. In addition, the community within the District is wholly supportive of the educational program, as evidenced by the contribution of money, time and effort. Any funding fluctuations will mean that new programs, innovative initiatives and educational enhancements may not be available within the desired time frames, but the positive improvements will continue to occur.

In addition, the Board, Superintendent, and staff are acutely aware of the perils of interrupted revenue receipts. Prudent business practices, accompanied by statutes mandating balanced budgets, result in a continual review of the financial condition of the District.

Long-Term Financial Planning. The District strives to maintain adequate fund balances and top debt ratings by careful management of its financial resources. The District continues to implement budget saving initiatives to maintain fund balances and has made position formulas, and unit changes to implement district wide cuts to the workforce.

Major Initiatives

Capital/Facilities Plan – To protect, improve, and maintain over 240 schools and centers in our district takes many hours and days. The District has worked to provide enough capacity to reduce class sizes and meet anticipated student enrollment. After many years of student growth, the District's student numbers have leveled out. Additionally, with the opening of more Charter Schools every year, the enrollment in District operated schools has begun to decline. It has become necessary to focus our capital outlay resources on preventative maintenance, repairs, and the upkeep or replacement of building systems. This is critical to continue to meet health, safety and accessibility requirements.

School districts in Florida have been hit hard by the reduction in local capital outlay taxing authority and fluctuation in property values over the past ten years. In response to the U.S. recession in 2008 and 2009, the Florida Legislature reduced the capital millage authority of local school boards by 25%. This 25% reduction of the taxing rate, previously used by districts to meet the needs of facility maintenance, have forced school systems to utilize general fund dollars to cover the expense of the ongoing, everyday operational projects at school sites and in turn has grown the deferred capital project listings.

We continue to update, adopt and review existing position formulas for both instructional and instructional support units. The cost realignment, department reorganizations, and hiring freezes have helped us become more financially structured and flexible.

Awards and Acknowledgements.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its CAFR for the fiscal year ended June 30, 2016. This was the sixteenth consecutive year that the District received this prestigious award. To be awarded a Certificate of Achievement, a District must publish an easily readable and efficiently organized CAFR. This report must satisfy both U.S. GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this CAFR could not have been accomplished without the efficient and dedicated services of the staff of Accounting Services Team. We would like to express our appreciation to all members of the Business Services Team, and other divisions who assisted and contributed to its preparation.

Sincerely,

Jeff Eakins

Independent Auditors' Report

Honorable Chairperson and Members of the School Board
School District of Hillsborough County, Florida:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the School District of Hillsborough County, Florida (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the aggregate discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for discretely presented component units, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the School District of Hillsborough County, Florida, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund and the contracted services fund for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 5-12, the schedules of employer contributions on pages 83, 85, 87, and 92, the schedules of employer proportionate share of net pension liability on pages 84 and 86, the schedule of net pension liability on page 88, the schedule of changes in net pension liability and related ratios on page 89, the schedule of investment returns on page 90, the schedule of funding progress on page 91, and the notes to required supplementary information on pages 93 and 94 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, other supplementary information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provision of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

THE SCHOOL DISTRICT OF HILLSBOROUGH COUNTY, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017
(Unaudited)

The School District of Hillsborough County's (the "District") management's discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the District's financial activity, (c) identify changes in the District's financial position (its ability to address the next and subsequent years' challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the District's financial statements (beginning on page 15). All dollar amounts unless otherwise indicated, are expressed in thousands of dollars.

Overview of the Financial Statements

This MD&A is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements have three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the District's finances in a manner similar to the corporate private sector. Governmental and business-type activities are consolidated into columns which add to a total for the Primary Government.

The Statement of Net Position details information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the assets plus deferred outflows of resources minus liabilities and deferred inflows of resources being reported as net position. This statement combines the governmental fund's current financial resources (short-term spendable resources) with capital assets and long term obligations. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the District has changed.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported when the underlying obligation/event giving rise to the change occurs, regardless of the timing of the related cash flows. This statement is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities and/or component units.

The government-wide financial statements include not only the District but its component units as well. The Hillsborough School Board Leasing Corporation, although legally separate, functions for all practical purposes, as a department of the District, and therefore has been included as an integral part of the primary government. Several separate public charter schools are included as discretely presented component units.

Key financial highlights included assets and deferred outflows of resources exceeding its liabilities and deferred inflows of resources by \$621,092 (net position). Of this amount \$(956,003) represents a deficit unrestricted net position. This deficit balance was attributed to the effects of the long term liabilities for pensions, other post employment benefits, and compensated absences. See notes 12, 18, and 19 and 20 to the financial statements for additional information.

The government wide-financial statement can be found on pages 15 - 17 of this report.

Fund Financial Statements

Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Funds are established for various purposes and the Fund Financial Statements allow for the demonstration of sources and uses and/or budgetary compliance associated therewith (beginning on page 18). All funds of the District can be divided into three major categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental funds focus on the sources and uses of liquid resources and balances of spendable resources available at the end of the fiscal year.

This is the manner in which the financial plan (the budget) is typically developed. The flow and availability of liquid resources is a clear and appropriate focus of any analysis of a government. Because the focus is narrower than that of government-wide financial statements, it is useful to compare it to the information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Reconciliation between the government-wide and the governmental fund financial information is necessary because of the different measurement focus (current financial resources versus economic resources); such reconciliation is reflected on the page following each statement (see pages 21 and 27). The flow of current financial resources reflects bond proceeds and interfund transfers as other financing sources as well as capital expenditures and bond principal payments as expenditures. The reconciliation eliminates these transactions and incorporates the capital assets and long-term obligations (bonds and others) into the governmental activities column in the government-wide statements.

The District maintains ten individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Contracted Services Fund, Other Debt Service Fund, Local Capital Improvement Fund and Other Capital Projects Fund that are considered to be major funds. Data from the other five governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for all of its governmental funds.

Proprietary Funds

The District maintains an internal service fund as its only proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for its group health, workers compensation, and liability self-insurance activities.

The basic proprietary fund statements can be found on pages 32 – 34.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017
(Unaudited)

Fiduciary Funds

The District is the trustee, or fiduciary, for its employee pension plans. It is also responsible for other assets that, because of a trust agreement, can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The District excludes these activities from the government-wide financial statements because the District cannot use these assets to finance any of its ongoing operations.

The basic fiduciary fund statements can be found on pages 35 -36.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on page 37 – 82 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of an entity's financial position. In the case of the District, assets plus deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$621,092 at the end of the current fiscal year.

By far the largest portion of the District's net position reflects its net investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related debt and deferred outflows of resources used to acquire those assets that is still outstanding. The District uses capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017
(Unaudited)

An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The District's net position decreased by \$126,383 from last year, due to current year operations and the effects of long term liabilities for pensions, other post employment benefits (OPEB), and compensated absences. The decrease attributed to current year operations was primarily due to workforce related expenditures.

Governmental Activities

Governmental activities decreased the District's net position by \$126,383. Key elements of this decrease are as follows:

The increase in unrestricted grants and contributions revenue of \$4,459 is a result of an increase in grants awarded to the District. Property taxes increased \$15,382 during the year as a result of an increase in assessed values.

THE SCHOOL DISTRICT OF HILLSBOROUGH COUNTY, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017
(Unaudited)

For the most part the increase in expenses was due to the increase in OPEB, compensated absences, salaries due to implementation of the empowering effective teacher's evaluation system, and pension expense.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$374,802, an increase of \$1,954 as compared to the prior year.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$99,053, while the total fund balance was \$140,774. The fund balance of the District's General Fund decreased by \$5,301 during the current fiscal year. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents approximately six percent of total general fund expenditures, while total fund balance represents approximately eight percent of that same amount. The fund balance decrease of \$5,301 in the current year was due in part to:

A portion of the reduced revenues comes from the recalibration process which was implemented in FY 2013-2014 to reduce the amount of funding for each student to 1.0 Full Time Equivalent (FTE). Students can take course loads greater than 1.0 FTE by accessing virtual schools and other acceleration opportunities. Acceleration is encouraged by Florida Statutes, and the district is prohibited from denying those opportunities. In FY 2013-2014 the Legislature decided that although the Legislature requires districts to allow enrollment beyond one FTE for each student, the Legislature would no longer pay for the extra enrollment. The projected district enrollment was reduced to 2,325 unweighted FTEs (UFTE) that year because of recalibration. The average annual impact of recalibration for the past several years has reduced the total enrollment counts by about 1.5%.

Additionally, the District experienced a decrease in State funding for the Capital Projects Funds and for Public Education Capital Outlay (PECO) maintenance. With these decreasing revenues Unassigned funds from the General Fund were used for operational repairs and technology needs at school sites.

Current year expenditures decreased \$10,151 over prior fiscal year. Salaries and benefits represent the most significant expenditures of the District. The District continued efficiencies of meeting financial challenges by reducing salaries, and ongoing review of requests for purchases of goods, services and equipment. In the review process the requests were deemed essential or non-essential. Also, work continued with energy efficiency strategies, and the next year of the 15-year school bus replacement plan, with the purchase of 100 new school buses and the sale of 100 old and inefficient yellow school buses.

THE SCHOOL DISTRICT OF HILLSBOROUGH COUNTY, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017
(Unaudited)

Expenditures continued with the ongoing Legislative Mandate for the "Additional hour of reading for the 300 lowest performing elementary schools." This mandate requires an additional hour of reading instruction beyond the normal school day for all students attending these schools.

The Contracted Services Fund revenue and expenditures remain equal to the prior year.

The Other Debt Service Fund decreased this year over last year due to transfers to the capital funds. As it was originally intended, those dollars were used for maintaining and improving aging schools.

The Local Capital Improvement Fund's ending fund balance of \$419 decreased \$17,928 from the prior year. The decrease was due to various projects and transfers to cover expenditures related to Capital Improvement, but not recorded in those funds.

Other Capital Projects Fund includes the Certificates of Participation funds. Overall there was a increase of \$48,227 in fund balance of \$64,403 to a current year fund balance of \$112,630. The increase was due to an increase in impact fees and community investment tax revenue.

General Fund Budgetary Highlights

During the fiscal year, the District revised its budget and brought amendments to the District's governing board (School Board) on a monthly basis. These amendments were needed to adjust to actual revenues and direct resources where needed. The School Board approves the final amendment to the budget after year-end.

Budgeted expenditures increased \$59,550 from the original budget to the final amended budget. The difference was due in part to salary increases resulting from the continuance of empowering effective teacher's evaluation system and other negotiated increases.

Actual expenditures were \$47,599 below the final amended expenditure budget. Unexpended appropriations of \$47,599 were composed of the following: (1) \$34,198 in restricted programs, (2) \$2,767 in other earmarked assigned funds and (3) \$10,634 in other unexpended budget items. The \$10,634 is less than 1.0% of the final budget. In the normal course of business, some of the budget is left unspent, primarily due to temporarily unfilled positions.

Capital Assets and Debt Administration

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2017, amounts to \$2,272,764 (net of accumulated depreciation). This investment in capital assets is comprised of the following:

	Governmental Activities 2017	Governmental Activities 2016
Land	\$ 161,410	\$ 161,410
Land improvements	96,077	94,735
Construction in progress	40,552	34,839
Improvements other than buildings	77,303	77,340
Buildings and systems	1,827,423	1,865,122
Furniture, fixtures and equipment	23,808	25,513

Computer software	718	1,265
Total capital assets	\$ <u>2,272,764</u>	\$ <u>2,294,399</u>

This year's additions of \$74,705 which includes transfers from construction in progress, is comprised of several renovation projects. The total of capital assets decreased due to the fact that deletions and depreciation charges were higher than additions.

See note 5 to the financial statements for more information on the District's capital assets.

Long Term Debt

At the end of the current fiscal year the District had total borrowed and bonded debt outstanding of \$948,933, which includes unamortized bond premiums of \$48,619.

	2017	2016
Bonds payable	205,079	205,177
Certificates of participation	743,854	779,863
Total long term debt	\$ <u>948,933</u>	\$ <u>985,040</u>

The District's total borrowed and bonded debt decreased by \$36,107 (net of repayment of principal on outstanding debt) during the current fiscal year. The decrease is approximately equal to the payment of principal.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES**

FOR THE FISCAL YEAR ENDED JUNE 30, 2017

(dollar amounts expressed in thousands)

Net Change in Fund Balances - Total Governmental Funds	\$	1,954
---------------------------------------------------------------	-----------	--------------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$74,518) was less than depreciation expense (\$96,078) during the current period.	(21,560)
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------

The statement of activities reflects only the gain/loss on the sale of assets, whereas the governmental funds include all proceeds from these sales. Thus, the change in net position differs by the cost of assets sold.	(229)
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------

Revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	806
---------------------------------------------------------------------------------------------------------------------------------------------	-----

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount by which payments of bond principal (\$51,016) and payments to refunding agent (\$87,916) was more than proceeds of (\$105,327) in the current year.	33,605
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------

Governmental funds report certain bond transaction as resources or uses. However, in the statement of activities these transactions are reported over the life of the debt as (\$5,733 bond premium).	(5,733)
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------

Expenses in the statement of activities that do not require the use of current financial resources are not reported in the governmental funds:

Postemployment health care benefits	(17,498)
-------------------------------------	----------

Interest expense	390
------------------	-----

Compensated absences	(3,105)
----------------------	---------

Pension	(120,438)
---------	-----------

Amortization of bond discount and premium	5,843
-------------------------------------------	-------

Amortization of investment derivative	874
---------------------------------------	-----

Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities.	(1,292)

SCHOOL DISTRICT OF HILLSBOROUGH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017
(dollar amounts expressed in thousands)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The School District of Hillsborough County, Florida (District) has direct responsibility for the operation, control, and supervision of the District schools and is considered a primary government for financial reporting purposes. The District is a part of the Florida system of public education. The governing body of the school district is the Hillsborough County District School Board (Board) that is composed of seven (7) elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Hillsborough County.

The accompanying financial statements present the activities of the District and its component units. Criteria for determining if other entities are potential component units, which should be reported within the District's financial statements, are identified and described in Governmental Accounting Standards Board (GASB) Statement No. 14, The Financial Reporting Entity, as amended by GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units and GASB Statement No. 61, The Financial Reporting Entity - Omnibus. The application of these criteria provide for identification of any entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that exclusion would cause the District's financial statements to be misleading or incomplete.

Based on the application of these criteria, the following component units are included within the District's reporting entity:

Blended Component Unit

The Hillsborough School Board Leasing Corporation (Corporation) was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in note 7. The governing board of the Corporation is the same as the Board. Financial records for the Corporation are maintained by the District and District staff is responsible for the day-to-day operation of the Corporation. Due to the substantive economic relationship between the District and the Corporation, the financial activities of the Corporation are included in the accompanying financial statements of the District in the Other Capital Projects Fund. Separate financial statements of the Corporation are not published.

Discretely Presented Component Units

The component units column in the government wide financial statements includes the financial data of the District's discretely presented component units for the fiscal year ended June 30, 2017. These component units consist of the District's Charter Schools. Charter Schools are reported in a separate column to emphasize that they are legally separate from the District. While the District's officials are not financially accountable for the Charter Schools, it would be misleading to exclude them from the District's financial statements. None of the individual component units are considered to be major.

SCHOOL DISTRICT OF HILLSBOROUGH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017
(dollar amounts expressed in thousands)

A. Reporting Entity (continued)

The Charter Schools are separate not-for-profit corporations organized under Section 1002.33, Florida Statutes to operate as public (as opposed to private) schools and are held responsible for prudent use of the public funds they receive. Each Charter School is a separate component unit that operates under a charter approved by their sponsor, the Board. There are thirty-eight (38) Charter Schools operating in the School District of Hillsborough County that meet the criteria for presentation as a discretely presented component unit.

The individual Charter Schools are listed below. Further, complete audited financial statements of the individual discretely presented component units can be obtained from their administrative offices. These schools include:

B. Basis of Presentation

The basic financial statements include the government-wide financial statements and fund financial statements.

Government-wide Financial Statements – Government-wide financial statements include a Statement of Net Position and a Statement of Activities that display information about the primary government, the District, and its component units. These financial statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal service fund activities. The effect of interfund activities has not been eliminated in the Statement of Activities.

The Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the District's functions. The expense of individual functions is compared to the revenues generated by the function (for instance, through user charges or intergovernmental grants). Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

B. Basis of Presentation (continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges to other funds and to employees for workers compensation and insurance. Operating expenses for the internal service funds include the cost of services and administrative costs. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Fund Financial Statements – The fund financial statements provide information about the District's funds, including its fiduciary funds and blended component unit. Separate statements for each fund category – governmental and fiduciary - are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds. Because the focus of the governmental fund financial statements differs from the focus of the government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as investment earnings, result from non-exchange transactions or ancillary activities.

The District reports the following major governmental funds:

General Fund - to account for all financial resources not required to be accounted for in another fund and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

Contracted Services - to account for funds from the State or Federal Government which are restricted for Federal programs.

Other Debt Service – Accounts for and reports on the payments of principal and interest for outstanding bonds and Certificates of Participation.

Local Capital Improvement – Accounts for and reports on the revenues generated from the local capital outlay property taxes.

Other Capital Projects Fund – Accounts for and reports on other miscellaneous funds from various sources including Certificates of Participation.

Additionally, the District reports the following fund types:

Internal Service Funds – to account for the District's workers' compensation, general and automobile liability self-insurance programs and the employee health insurance program.

Pension Trust Fund – to account for resources used to finance the early retirement program.

(dollar amounts expressed in thousands)

B. Basis of Presentation (continued)

Agency Funds – to account for resources held by the District as custodian for others primarily for the benefit of various schools and their activity funds.

C. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources (current assets less current liabilities) or economic resources (all assets plus deferred outflows of resources less liabilities and deferred inflows of resources). The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

Government-Wide Statements – The government-wide statements are presented using the economic resources measurement focus. The government-wide financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows have taken place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues, other than grant funds, reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Grant funds are considered available if collection is expected in the upcoming fiscal year. Property taxes, sales taxes, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured.

General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted assets available to finance the program. It is the District's policy to first apply cost reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. Cash

Cash consists of petty cash funds and deposits held by banks qualified as public depositories under Florida law. All deposits are fully insured by Federal depository insurance and a multiple financial institution collateral pool required by Chapter 280, Florida Statutes. The statement of cash flows for the Proprietary Funds considers cash as those accounts used as demand deposit accounts.

E. Investments

Investments of the general government consist of amounts placed with the State Board of Administration (Florida Prime) for participation in the State investment pool, public fund certificates of deposit and those made by the State Board of Administration from the District's bond proceeds held and administered by the State Board of Education.

District monies placed with the State Board of Administration for participation in the State investment pool represent an interest in the pool rather than ownership of specific securities. Such investments are stated at fair value. Investments of the early retirement program are also reported at fair value.

Types and amounts of investments held at year-end are further described in note 3.

F. Inventory

Inventories consist of expendable supplies and parts held for consumption in the course of District operations. Inventories at the central warehouse, maintenance, technology repair and the bus garage are stated at cost based on a moving average. Food service inventories are stated at cost based on the first-in, first-out basis, except that United States Department of Agriculture surplus commodities are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Health and Rehabilitative Services, Food Distribution Center. All other inventories are stated at cost on the last invoice price method, which approximates the first-in, first-out basis. The cost of inventories is recorded as expenditures when used rather than purchased.

G. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets acquired are recorded at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets purchased after July 1, 2004 are defined as those costing more than \$1,000 dollars and having a useful life of more than one year; those purchased before July 1, 2004 are defined as those costing more than \$750 dollars and having a useful life of more than one year. Donated assets are recorded at fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Interest costs incurred during construction are not capitalized as part of the cost of construction.

NOTES TO THE FINANCIAL STATEMENTS

(dollar amounts expressed in thousands)

G. Capital Assets (continued)

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class Description</u>	<u>Estimated Useful Lives</u>
Buildings	15-50 years
Improvements other than buildings	10-25 years
Building improvements	10-25 years
Furniture, fixtures and equipment	5-20 years
Motor vehicles	4-10 years
Audio visual materials and computer software	3-5 years

H. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported in the government-wide statement of net position. Bond premiums, discounts, and gains and losses on refunding issuances are deferred and amortized over the life of the bonds using the straight line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Gains and losses on refunding issuances are netted and reported as deferred outflows of resources.

In governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize bond premiums, discounts, gains and losses on refunding issuances during the current period. The face amount of debt issued, as well as any related premium and gain on refunding issuances are reported as an other financing source while discounts on debt issuances and losses on refunding issuances are reported as an other financing use.

The liability for compensated absences reported in the government-wide financial statements consists of unpaid, accumulated annual vacation and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

Changes in long-term liabilities for the current year are reported in note 12.

I. Lease Obligations

The District has operating leases for facility rental. These agreements allow use of a facility that meet specific needs of certain programs. Adult Education pays rental fees out of workforce funding, Early Childhood pays rental fees with federal funding sources, while Student Nutrition Services pays with earned revenue.

J. State Revenue Sources

Revenues from State sources for current operations are primarily from the Florida Education Finance Program (FEFP), which is administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the Board determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the

reported number of FTEs and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of nine (9) months following the date of original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions of or additions to revenues in the year when the adjustments are made.

The District receives revenue from the State to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided. The amounts not expended or encumbered as of the close of the fiscal year are usually carried forward into the following year to be expended for the same programs. The Department requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted for the balance of categorical educational program resources.

K. Property Taxes

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property taxes are assessed by the Hillsborough County Property Appraiser and are collected by the Hillsborough County Tax Collector.

The School Board adopted the 2016 tax levy for the 2017 fiscal year on September 6, 2016. Tax bills are mailed in October; and taxes are payable between November 1 of the year assessed and March 31 of the following year with discounts of up to four percent for early payment.

Taxes become delinquent on April 1 of the year following the assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. These procedures result in the collection of essentially all taxes prior to June 30 of the year following the assessment.

Property tax revenues are recognized in the government-wide financial statements in the fiscal year for which the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when the taxes are received by the District, except that revenue is accrued for taxes collected by the Hillsborough County Tax Collector at fiscal year end which have not yet been remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued.

Millages and taxes levied for the current year are presented in note 17.

L. Federal Revenue Sources

The District receives Federal financial assistance for the enhancement of various educational programs. This assistance is generally received based on applications submitted to and approved by various granting agencies. For Federal financial assistance in which a claim to

these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

M. Deferred Outflows of Resources and Deferred Inflows of Resources

In the government-wide financial statements, the District records deferred outflows of resources which represent the consumption of net position by the District that is applicable to a future reporting period. At June 30, 2017, deferred outflows of resources represent activity associated with a swap agreement as discussed in note 9, the deferred charge on refunding as discussed in note 11 and pension related items as discussed in note 18.

In addition to liabilities on the government-wide financial statements, the District records deferred inflows of resources which represent an acquisition of net position that applies to future periods. At June 30, 2017, deferred inflows of resources represent activity associated with pension related items as discussed in note 18.

N. Use of Estimates

The preparation of the financial statements requires management of the District to make a number of assumptions relating to the reported amounts of assets, deferred outflows of resources and liabilities, and deferred inflows of resources and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

2. BUDGET COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The District follows the procedures established by State statutes and State Board of Education rules in establishing final budget balances reported in the financial statements:

1. Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules. Original budgets are submitted to the State Commissioner of Education for approval.
2. The budget is prepared by fund, function, object and department. Management may make transfers of appropriations between departments and object. The functional level is the legal level of budgetary control and may only be amended by resolution of the Board at any Board meeting prior to the due date for the Superintendent's Annual Financial Report (State Report). Budgetary disclosure in the accompanying financial statements reflects the original and final budget, including all amendments approved for the fiscal year through September 19, 2017.

SCHOOL DISTRICT OF HILLSBOROUGH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017
(dollar amounts expressed in thousands)

2. BUDGET COMPLIANCE AND ACCOUNTABILITY (continued)

3. Budgets are prepared using the modified accrual basis as is used to account for actual transactions in the governmental funds.
4. Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

All budget amounts presented in the basic statements and the accompanying supplementary information reflect the original budget and the final amended budget (which has been adjusted for legally authorized revisions of the annual budget during the year).

At the governmental fund level, outstanding encumbrances are re-appropriated in the subsequent year. Encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities but represent budgetary accounting controls.

3. CASH AND INVESTMENTS

At June 30, 2017, the District's deposits were entirely covered by federal depository insurance or by collateral pledged with the State Treasurer pursuant to Chapter 280, Florida Statutes. Under this Chapter, in the event of default by a participating financial institution (a qualified public depository), all participating institutions are obligated to reimburse the governmental entity for the loss.

As of June 30, 2017, the District had the following investments and maturities:

Investment	Maturities	Fair Value
U.S. Treasuries	05/31/2018 - 05/31/2020	\$ 510

3. CASH AND INVESTMENTS (continued)

Investments are reflected in the financial statements as follows:

Governmental funds	\$	182,723
Internal service funds		43,092
Fiduciary funds		
Pension trust		10,996
Agency		41,516
Total Primary Government	\$	<u>278,327</u>

Interest Rate Risk

The District has a formal investment policy which states that the investment objectives are safety of capital, liquidity of funds, and investment income, in that order. The performance measurement objective shall be to exceed the State Board of Administration's Florida PRIME yield. The policy limits the type of investments and the length of investments of idle funds. The weighted average duration of the investment portfolio shall not exceed five years.

Credit Risk

Section 218.415(17), Florida Statutes, limits the types of investments that the District can hold. The District policy authorizes the following investments:

- (a) The State Board of Administration (SBA) Investment Pool, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided by Section 163.01, Florida Statutes.
- (b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency.
- (c) Interest-bearing time deposits or savings accounts in qualified public depositories, as defined in Section 280.02(26), Florida Statutes.
- (d) Direct obligations of the U.S. Treasury.
- (e) Obligations of Federal agencies, government sponsored enterprises, and instrumentalities.
- (f) Securities of, or other interest in, any open-end or closed-end management type investment company or trust registered under the Investment Company Act of 1940, 15 U.S. C. 80a-1.
- (g) Short-term obligations commonly referred to as "money market instruments" including but not limited to commercial paper, provided such obligations carry the highest credit rating from a nationally recognized rating agency.

3. CASH AND INVESTMENTS (continued)

- (h) Asset-backed securities when either a) the underlying asset is guaranteed by the issuer or b) the security carries the highest quality rating by a nationally recognized rating agency.

The District's investments in the SBA consist of Florida PRIME.

Florida PRIME is an external investment pool that is not registered with the Securities Exchange Commission (SEC), but does operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Rule 2a7 allows funds to use amortized cost to maintain a constant net asset value (NAV) of \$1.00 per share. Accordingly, the District's investment in the Florida PRIME is reported at the account balance which is considered fair value. Florida PRIME is rated AAAm by Standard & Poors.

The District's investments in United States Agencies or Treasuries for the Pension Trust Fund were rated either AA+ by Standard and Poors or AAA by Moody's Investors Services. The remaining government securities were rated either AA+/A-1 by Standard and Poors or Aaa by Moody's Investors Services.

The District's investments in Certificates of Deposits were in qualified public depositories.

Investments in the State Board of Administration Debt Service Account totaling \$4,287 are to provide for debt service payments on bonded debt issued by the State Board of Administration for the benefit of the District. These investments consist of United States Treasury securities, with maturity dates of six months or less and are reported at fair value. The District has no formal policy for managing interest rate risk or credit risk for this account, but relies on policies developed by the State Board of Administration.

Custodial Credit Risk

The District's investment policy requires that securities purchased or otherwise acquired by the District shall be properly designated as an asset of the District. Also, Section 218.415(18), Florida Statutes requires every security purchased under this section on behalf of the District to be properly earmarked and:

1. If registered with the issuer or its agents, must be immediately placed for safekeeping in a location that protects the District's interest in the security;
2. If in book entry form, must be held for the credit of the District by a depository chartered by the Federal Government, the state, or any other state or territory of the United States which has a branch or principal place of business in Florida as defined in Section 658.12, Florida Statutes or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in Florida, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or
3. If physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault.

3. CASH AND INVESTMENTS (continued)

Of the District's investments, \$510 of U. S. Treasuries and \$16,553 of U.S. Agencies are not registered in the name of the District, but are held by the counterparty's trust department or agent and are not insured.

Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer. The District had no investment, excluding amounts held with the State Board of Administration, that comprised more than 5% of total investments.

Foreign Currency Risk

The District has no investments which are exposed to foreign currency risk at June 30, 2017. The District does not have a formal investment policy that limits its investment in foreign currency.

Fair Value Measurement

The District categorizes its fair value measurement within the hierarchy established by U.S. generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District has the following fair value measurements as of June 30, 2017:

- U.S. treasury securities of \$510 are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices (Level 2 inputs).
- U.S. agency securities of \$16,553 are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices (Level 2 inputs).
- Money markets of \$233 are valued using the quoted market prices (Level 1 inputs).
- Certificate of deposits of \$36,931 are valued using the quoted market prices (Level 1 inputs).
- Interest rate swap derivative of \$15,321 is valued using the zero coupon method (Level 2 inputs).

State board of administration of \$224,100 are valued using the net asset value (NAV) per share.

6. LINE OF CREDIT

Pursuant to the provisions of Section 1011.13, Florida Statutes, on May 10, 2016 the Board authorized the Superintendent to establish a Line of Credit Tax Anticipation Note (Note) for fiscal year 2017, in the amount of \$100,000 with Wells Fargo Bank of Florida. The outstanding principal amount of the Note shall bear interest at one month London Interbank Offered Rate (LIBOR) plus 80 basis points adjusted monthly. This line-of-credit allows the Board to borrow funds if established revenues (cash) are lagging behind expenditures such as weekly payrolls and weekly vendor payments. The Note is secured by a pledge of anticipated ad valorem tax proceeds. This Note would be repaid in full in ninety days from the first draw. The Note shall not exceed \$100,000 at any time. For the year ended June 30, 2017, no funds had been borrowed or utilized under this line-of-credit, and therefore no amounts are outstanding at June 30, 2017.

7. OPERATING LEASE

The District entered into a 3, 10, and 15 year facility lease for Adult Education, Early Childhood, and Student Nutrition Services, respectively. The facility lease for Adult Education ended June 30, 2017 but was recently renewed through June 30, 2020. The facility lease for Early Childhood ends September 7, 2018 with an expected renewal, and the lease for Student Nutrition Services ends February 28, 2031. Adult Education funds their lease with workforce dollars. Both Early Childhood and Student Nutrition Services are federally funded; however Student Nutrition Services utilizes earned revenue to pay their lease. Rental expenditures in Fiscal Year 2017 for Adult Education was \$146, Early Childhood was \$401, and Student Nutrition Services was \$222. The District has entered into other operating leases; however, they are not considered material.

The following is a schedule, by years, of the District's portion of future minimum rental payments required under operating leases that have lease terms in excess of one year.

8. OBLIGATIONS UNDER LEASE PURCHASE AGREEMENT – CERTIFICATES OF PARTICIPATION

The District entered into various financing arrangements, each of which was characterized as a lease-purchase agreement, with the Corporation, whereby the District secured financing of various education facilities through the issuance of Certificates of Participation to be repaid from the proceeds of rents paid by the District.

As a condition of the financing arrangement, the District has given ground leases on District property to the Corporation, with a rental fee of \$10 per year. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the leases and to provide for the rent payments through to term, the District may be required to surrender the sites included under the ground lease agreements to the Trustee for the benefit of the securers of the Certificates of Participation to the end of the ground lease term. Generally, the Certificates of Participation maturity and the ground lease term expiration are consistent.

Certificates of Participation that are still part of the District's debt obligation are as follows:

The Series 2014A Certificates of Participation were issued in order to provide funds necessary to fully advance refund the Series 2002 Certificates of Participation and partially advance refund the Series 2004B Certificates of Participation and refinance the educational facilities that the District acquired, constructed and installed from the proceeds of the Series 2002 and Series 2004B Certificates of Participation. The Series 2015A Certificates of Participation were issued in order to refund the Series 2005A and advance refund the Series 2006A Certificates of Participation and refinance the educational facilities that the District acquired, constructed and installed from the proceeds of the 2005A and 2006A Certificates of Participation. The Series 2015B Certificates of Participation were issued in order to refund the Series 2004C Certificates of Participation and refinance the educational facilities that the District acquired, constructed and installed from the proceeds of the 2004C Certificates of Participation. The Series 2016A Certificates of Participation were issued in order to advance refund the Series 2007 Certificates of Participation and refinance the educational facilities that the District acquired, constructed and installed from the proceeds of the 2007 Certificates of Participation. The Series 2017A Certificates of Participation were issued in order to advance refund the Series 2006B Certificates of Participation and refinance the educational facilities that the District acquired, constructed, and installed from the proceeds of the 2006B Certificates of Participation. See Note 10 for current issuances.

Due to the economic substance of the issuances of the Certificates of Participation as a financing arrangement on behalf of the Board, the financial activities of the Corporation have been blended with the financial statements of the District. For accounting purposes, due to the blending of the Corporation within the District's financial statements, basic lease payments are reflected as debt service expenditures when payable to Certificate holders.

The lease payments for the Series 1998, Series 2004A, Series 2006B, Series 2007, Series 2010A, Series 2012A, Series 2014A, Series 2015A, Series 2016A and Series 2017A Certificates are payable by the District, semi-annually, on July 1 and January 1 at interest rates of 3.60 to 5.50 percent, 5.25 percent, 3.50 to 5.00 percent, 3.75 to 5.00 percent, 3.00 to 5.00 percent, 4.00 to 5.00 percent, 2.56 percent, 2.00 to 5.00 percent, 5.00 percent, and 4.00 to 5.00 percent respectively. The lease payments for the Series 2008A and Series 2015B Certificates are payable by the District semi-annually on July 1 and January 1. The interest is paid monthly based on a daily rate set by the remarketing agent that is expected to approximate the Securities Industry and Financial Markets Associations (SIFMA) Municipal Swap index over the life of the Bonds.

The lease payments for the Series 2004-QZAB, 2005-QZAB and 2010-QSCB Certificates are due June 7, 2020, December 20, 2020 and December 1, 2028, respectively. There is no interest to be paid on the QZABs or QSCB, as the certificate holders receive Federal Tax Credits in lieu of interest payments. The District is required to reserve a portion of the lease payments each year.

9. INTEREST RATE SWAPS

<u>Type</u>	<u>Objective</u>	<u>Notional Amount</u>	<u>Effective Date</u>	<u>Maturity Date</u>	<u>Fair Value</u>	<u>Cash Flow</u>
Pay fixed interest rate swap	Hedge in changes in cash flows on Series 2008A COPS	\$109,575	7/1/2008	7/1/2023	(\$17,960)	(\$4,744)

The District entered into a swaption contract on February 19, 2003 that provided the District an up-front payment of \$5,007. This payment was reduced by \$1,800 at which time the swaption was amended on April 19, 2005 to reduce the original notional amount from \$177,195 to \$109,830. The swaption was exercised on July 1, 2008, commencing a pay-fixed interest rate swap that provided for payment of a fixed rate of 4.97% and receiving a variable rate of municipal swap index (defined as the bond market association municipal swap index). Prior to the exercise date, the swaption was considered an investment derivative instrument. Accordingly, the negative fair value at the exercise date in the amount of \$13,103 is being amortized as an increase to the deferred outflow balance and a decrease to interest expense over the remaining life of the swap agreement. Such amortization amounted to \$874 for the year ended June 30, 2017.

The fair value of the interest rate swap is estimated using the zero coupon method. This method calculates the future net settlement payments required by the swap, assuming the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero coupon bonds due on the date of each future net settlement on the swaps. The fair value of the derivative instrument was recorded as derivative instrument – liability in the Statement of Net Position at June 30, 2017.

9. INTEREST RATE SWAPS (continued)

During the year ended June 30, 2017, the change in the fair value of the derivative instrument, which was recorded as a decrease to deferred outflows of resources in the Statement of Net Position, was \$6,891.

Risks

Credit risk – The credit rating for the counterparty of the derivative is A+ by Standard and Poors.

Interest rate risk – The District is exposed to interest rate risk on its pay fixed, receive variable interest rate swaps. As the municipal swap index decreases, the District's net payment on the swap increases.

Termination risk – The District or the counterparty may terminate the derivative instrument if the other party fails to perform under the terms of the contract.

10. BONDS PAYABLE (continued)

The various bonds were issued to finance capital outlay projects of the District. The following is a description of bonded debt service:

STATE SCHOOL BONDS

These bonds are issued by the State Board of Education (SBE) on behalf of the District. The bonds mature serially and are secured by a pledge of part of the District's portion of State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these issues. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the State Board of Education and the State Board of Administration.

DISTRICT REVENUE BONDS

Series 2015 Capital Improvement and Racetrack Revenue Refunding Bonds

These bonds are authorized by Chapter 71-680, Laws of Florida, which authorized the Board to pledge all of the portion of racetrack funds accruing annually to Hillsborough County, under the provisions of Chapters 550 and 551, Florida Statutes, as allocated to the Board pursuant to law, and Chapter 132, Florida Statutes, which authorized the refunding of the District Revenue Bonds of 1985. As required by the bond resolution, the Board established the sinking fund and reserve account and has accumulated and maintained adequate resources in the sinking fund and reserve account.

Sales Tax Revenue Bonds Series 2015A, 2015B and 2017A

These bonds are authorized by the Constitution and Laws of the State of Florida, including, particularly Chapter 1010, Florida Statutes, Chapter 212, Part I, Florida Statutes and other applicable provisions of law. The bonds are secured by a pledge of the proceeds received pursuant to the Interlocal Agreement from the levy and collection by the County of the one-half cent local infrastructure sales surtax.

Annual requirements to amortize all bonded debt outstanding as of June 30, 2017, are as follows:

11. DEFEASED DEBT

On May 25, 2017, the District issued \$67,580 Sales Tax Revenue Refunding Bonds, Series 2017A at a discount with an interest rate of 2.49%. The proceeds were used to currently refund \$47,515 of the District's outstanding Sales Tax Revenue Refunding Bonds, Series 2007 maturing in the years 2024-2026. Net proceeds of \$47,822 (after payment of \$106 of issuance costs) were placed in an irrevocable trust to provide for future debt service payment of the refunded amount of the Series 2007 bonds. Also, proceeds of \$19,746 were deposited to a project fund to be used for HVAC replacement/repairs at various schools.

As a result, \$47,515 of the Series 2007 bonds are considered defeased and the liability for these certificates has been removed from long term debt. Accordingly, the trust account assets and liability for that portion of the Series 2007 bonds are not included in the District's financial statements.

As a result of the refunding, the District reduced its total debt service requirements by \$6,070 which resulted in an economic gain of \$84.

On May 25, 2017, the District issued \$32,445 Refunding Certificates of Participation, Series 2017A at a net premium, with an interest rate of 4.00% to 5.00%. The proceeds were used to partially advance refund \$37,075 of the Certificates of Participation, Series 2006B maturing in the years 2018-2026. Net proceeds of \$37,872 (after payment of \$272 of issuance costs) were placed in an irrevocable trust to provide for future debt service payment of the refunded amount of the Series 2006B certificates.

As a result, \$37,075 of the Series 2006B certificates are considered defeased and the liability for these certificates has been removed from long term debt. Accordingly, the trust account assets and liability for that portion of the Series 2006B certificates are not included in the District's financial statements.

As a result of the refunding, the District reduced its total debt service requirements by \$4,154 which resulted in an economic loss of \$408.

Internal service funds predominately serve the governmental funds and, accordingly, long-term liabilities of those funds are included in the governmental activities. For the governmental activities, compensated absences, net pension liability, and other postemployment benefits are generally liquidated with resources of the General and Special Revenue Funds. The estimated liability for long term claims are generally liquidated with resources of the Worker's Compensation and the General and Automobile liability programs Internal Service Funds.

13. FUND BALANCE REPORTING

The Governmental Accounting Standards Board (GASB) issued Statement No. 54, Fund Balance Reporting and Government Fund Type Definitions (GASB 54) with intention of providing more structured classification of fund balance reporting. The reporting standards established a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources.

GASB 54 provides for two major types of fund balances, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal of an endowment fund. The District has inventories that are considered nonspendable. The District does not have any other nonspendable fund balances.

NOTES TO THE FINANCIAL STATEMENTS

(dollar amounts expressed in thousands)

13. FUND BALANCE REPORTING (continued)

GASB 54 provides a hierarchy of spendable fund balances, based on spending constraints:

Restricted – fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.

Committed – fund balance that contain self-imposed constraints by the Board, (the District's highest level of decision-making authority). The Board has not established a policy to commit fund balance, therefore no such balance is reported.

Assigned – fund balances that contain self-imposed constraints of the government to be used for a particular purpose. The District has a policy approved by the Board that designates administrative staff (the Superintendent and Chief Business Officer) to determine the assignments.

Unassigned – fund balance of the general fund that is not constrained for a particular purpose.

The District has classified its fund balances based on the GASB 54 hierarchy as follows:

Nonspendable – The District has inventories totaling \$5,642 that are classified as nonspendable.

Spendable – The District has classified the spendable fund balances as restricted, assigned and unassigned. The District currently has no funds classified as committed.

Restricted:

Federal Laws, Florida Statutes and local constraints require that certain revenues be specifically used for certain expenditures. These funds have been included in the restricted category of fund balances. The restricted fund balances total is \$267,339 and represent \$22,161 for Federal programs, \$31,173 for State programs, \$3,026 for Local programs, \$90,650 for Debt Service and \$120,329 for Capital Projects.

Assigned:

The District has set aside certain spendable fund balances in the amount of \$2,768 for local instructional programs (District operations) which include teacher educational recognition supplements.

Unassigned:

The District has a policy that requires it to maintain a contingency fund balance in its operating fund of no less than 5 percent of the annual revenues. The District has \$99,053 in unassigned fund balance. At the end of the fiscal year the unassigned fund balance in the general fund is 6.13 percent of total general fund revenues.

The District applies resources for expenditures to restricted, then assigned and then unassigned, when expenditures are incurred which could use any of the fund balance classifications.

Non-Major Governmental Funds	697	1,935
Internal Service Funds	1,200	4,790
Total	<u>\$ 91,014</u>	<u>\$ 91,014</u>

The majority of interfund receivables and payables are established during the closing period. The receivable in the general fund is for payback of direct/indirect charges for June, 2017 and temporary loans to contracted services for cost reimbursement grants. The amounts in local capital improvement, other capital projects fund and non-major funds are mostly due to the movement of expenditures between capital project funds. The amount in the internal service fund is due to movement of revenue to other funds. The amounts payable are expected to be paid within a reasonable period of time.

15. INTERFUND TRANSFERS

The following is a summary of interfund transfers reported in the fund financial statements:

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) and the Health Insurance Subsidy (HIS) and additions to/deductions from FRS and HIS's fiduciary net position have been determined on the same basis as they are reported by FRS and HIS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

b. General Information about the Pension Plan

Plan description. All regular employees of the District are covered by the Florida Retirement System (FRS). The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined benefit pension plan (Plan), a Deferred Retirement Option Program (DROP), and a defined contribution plan, referred to as the FRS Investment Plan.

Essentially all regular employees of participating employers are eligible and must enroll as members of the Plan. Employees in the Pension Plan vest at six years of service if enrolled in the plan prior to July 1, 2011. Enrollment after July 1, 2011 requires eight years of service to vest. All vested members are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. For enrollees prior to July 1, 2011, pension plan benefit payments are based on the member's highest 5-year average annual salary (average final compensation) times the number of years of service. Enrollees after July 1, 2011 have benefit payments based on the member's highest 8 year average annual salary. For Regular Class members enrolled before July 1, 2011, the annual final compensation is multiplied by a percentage ranging from 1.60 percent at age 62 or with 30 years of service, to 1.68 percent at age 65 or with 33 years of service. Regular Class members enrolled after July 1, 2011 have an annual final compensation multiplied by a percentage ranging from 1.60 at age 65 or with 33 years of service to 1.68 percent at age 68 or with 36 years of service. Members are eligible for early retirement after 6 years of service, however, normal benefits are reduced by 5 percent for each year a member retires before age 62. As described in note 19, the District administers a single-employer retirement program that under certain conditions covers the difference in benefits between normal and early retirement.

The Plan provides retirement, disability, and death benefits and annual cost-of-living-adjustments, as well as supplements for certain employees to cover social security benefits lost by virtue of retirement system membership.

A Deferred Retirement Option Program (DROP) was established effective July 1, 1998. It permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with a Florida Retirement System employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the Florida Retirement System Trust Fund and accrue interest.

Eligible FRS members may elect to participate in the FRS Investment Plan in lieu of the Defined Benefit Plan. District employees participating in DROP are not eligible to participate in the Investment Plan. This plan is funded by employer contributions that are based on salary and membership class (Regular, Elected County Officers, etc.) Contributions are directed to individual member accounts, and the ultimate benefit depends in part on the performance of investment funds chosen. Employees in the FRS Investment Plan vest after one year of service.

18. STATE RETIREMENT PROGRAMS (continued)

The benefit provisions and all other requirements of the Plan are established by Florida Statutes.

The contribution rates for the Plan are established by Section 121.71, Florida Statutes, and may be amended by the State of Florida. As of June 30, 2017, the contribution rates were as follows:

<u>Class or Plan</u>	<u>Percent of Gross Salary</u>	
	<u>Employee</u>	<u>Employer (A)</u>
Florida Retirement System, Regular (HA)	3.00	7.52
Florida Retirement System, County Elected Officers (HI)	3.00	42.47
Florida Retirement System, Senior Management Service Class (HM)	3.00	21.77
Florida Retirement System, Special Risk (HB)	3.00	22.57
Teachers' Retirement System, Plan E (IE)	6.25	11.90
Florida Retirement System, Reemployed Retiree (UA)	3.00	4.49

Notes: (A)

Employer rates include the post-retirement health insurance supplement, which remained the same from the prior year. As of July 1, 2016 the supplement was 1.66 percent.

The District's contributions to the Plan, net of employee contributions, for the fiscal year ended June 30, 2017, totaled \$64,502. This amount is equal to the required contributions for the fiscal year. Effective July 1, 2011, all members of FRS, except for DROP participants and reemployed retirees who are not eligible for renewed membership, are required to contribute 3 percent of their compensation to FRS. Amounts collected by the District, and remitted to the Plan, for employee contributions are not considered employer contributions by the Plan.

c. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability of \$964,676 for its proportionate share of the FRS Pension Plan net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's proportionate share of the net pension liability was based on a projection of the District's long term share of contributions to the pension plan relative to the projected contributions during the fiscal year ended June 30, 2016. At June 30, 2016, the District's proportionate share was 2.54 percent, which was a decrease of 0.22 percentage-points from its proportionate share of 2.76 percent measured as of June 30, 2015.

For the year ended June 30, 2017, the District recognized pension expense of \$165,190 for the FRS Pension Plan. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions for the FRS Pension Plan from the following sources:

Actuarial assumptions. The total pension liability for the FRS Pension Plan was determined by an actuarial valuation as of the valuation date calculated on the assumptions listed below:

Valuation date	July 1, 2016
Measurement date	June 30, 2016
Discount rate	7.00%
Long-term expected rate of return, net of investment expense	7.00%
Inflation	2.60%
Salary increase, including inflation	3.25%
Mortality	Generational RP-2000 with Projection Scale BB
Actuarial cost method	Entry Age

The actuarial assumptions that determined the total pension liability of the FRS Pension Plan as of June 30, 2017, were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

Long-term expected rate of return. To develop an analytical basis for the selection of the long-term expected rate of return assumption for the FRS Pension Plan, the 2016 FRS Actuarial Assumptions conference reviews long-term assumptions developed by multiple contracted capital market assumptions teams. The table below shows resulting assumptions for each of the asset classes in which the plan was invested based on the long-term target asset allocation. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model. The expected real rate of return is presented in arithmetic means.

Discount rate. The discount rate used to measure the total pension liability for the FRS Pension Plan was 7.00 percent and is based on a projection of cash flows that assumed that employee contributions will be made at the current contribution rate and that contributions from participating members will be made at statutorily required rates, actuarially determined. Based on those assumptions, the FRS Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net position liability to changes in the discount rate. The following presents the District's proportionate share of the net pension liability of the FRS Pension Plan calculated using the discount rate of 7.00 percent. Also presented is what the District's proportionate share of the FRS Pension Plan net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

d. General Information about the Health Insurance Subsidy (HIS)

HIS plan description. The HIS Pension Plan is a cost-sharing multiple-employer defined benefit pension plan established to provide a monthly subsidy payment to retired members of any state-administered retirement system, or beneficiary entitled to receive benefits.

HIS benefits provided. The benefit of the HIS Pension Plan is a monthly payment to assist retirees in paying their health insurance costs. This plan is administered by the Department of Management Services within the Florida Retirement System. HIS benefits are not guaranteed and are subject to annual legislative appropriation.

For fiscal year ended June 30, 2017, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of creditable service completed at the time of retirement multiplied by \$5. The payments are a minimum of \$30 but not more than \$150 monthly per Florida Statutes 112.363.

HIS contributions. The HIS Pension Plan is funded by required contributions from FRS participating employers. The funds are deposited in a separate trust fund and consequently paid from that trust fund. Employer contributions are a percentage of gross compensation for all FRS members. For the fiscal year ended June 30, 2017, the contribution rate was 1.66 percent of payroll per Florida Statutes 112.363. Employees do not contribute to this plan.

The District's contributions to the HIS Pension Plan totaled \$19,067 for the fiscal year ended June 30, 2017.

e. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to HIS Pensions

At June 30, 2017, the District reported a liability of \$432,150 for its proportional share of the HIS Pension Plan net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's proportionate share of the net pension liability was based on a projection of the District's long term share of contributions to the pension plan relative to the projected contributions during the fiscal year ended June 30, 2016. At June 30, 2016, the District's proportionate share was 3.71 percent, which was a decrease of 0.03 percentage-points from its proportionate share of 3.74 percent measured as of June 30, 2015.

The actuarial assumptions that determined the total pension liability of the HIS Pension Plan as of June 30, 2017, were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013. The discount rate decreased from 3.80 percent to 2.85 percent. This change will continue to allow FRS to meet or exceed its assumed investment return in future years.

Long-term expected rate of return. Because the HIS pension Plan is funded on a pay-as-you-go basis funding structure, a municipal bond rate (Bond Buyer General Obligation 20-Year Bond Municipal Bond Index) of 2.85 percent was used to determine the total pension liability for the program.

19. EARLY RETIREMENT PROGRAM

a. Summary of Significant Accounting Policies

Pension. The Plan is accounted for as a pension trust fund; therefore it is accounted for in substantially the same manner as a proprietary fund with an economic measurement focus and the accrual basis of accounting. Employer contributions are recognized in the period in which contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Plan assets are valued at fair value, based on quoted market prices, for financial statement purposes.

Separate Statements are not issued for the Plan.

b. General Information about the Early Retirement Program

Plan description. As authorized by Section 1012.985, Florida Statutes, the Board implemented an Early Retirement Plan (Plan), effective August 1, 1984. The Plan is a single-employer defined benefit plan. The purpose of the Plan is to provide eligible District employees, who elect to retire under the early retirement provisions of the

19. EARLY RETIREMENT PROGRAM (continued)

Florida Retirement System, described in Note 18, with a monthly benefit equal to the statutory reduction of the normal retirement benefits when early retirement precedes the normal retirement age of 62. The Board entered into an agreement with Wells Fargo Bank, N.A., designating the bank as the investment manager and custodian (Trustee) for the Plan assets. The Agreement also provides that monthly benefits be paid by the Trustee.

Eligibility. A member of the Plan was eligible upon attainment of age 55 to 59, completion of 25, but not more than 28, years of creditable service, at least 5 consecutive and uninterrupted years of service immediately preceding early retirement, and having applied for retirement under FRS. The Board approved to eliminate new participants to the Early Retirement Program on June 30, 2008. Certain employees were eligible to enter the Plan before July 1, 2010. As of July 1, 2010, the Plan was closed to any new participants.

Benefits provided. The amount of the monthly benefit will be equal to the reduction imposed on the retirement benefit by the FRS due to early retirement. The benefit amount will be based on the initial benefit amount determined by the FRS prior to any cost of living adjustments and once established will remain unchanged, unless a specific increase is authorized by the Board.

Employees covered by benefit terms. Based on an actuarial report as of June 30, 2017, employee membership data related to the Plan was as follows:

Retirees and beneficiaries currently receiving benefits:

532

Active Plan Participants: There are no longer any active plan participants.

Contributions. The District's Early Retirement Program was established by the Board on August 1, 1984. On July 1, 2010, the Plan was closed to any new participants. Pursuant to the Plan Agreement, no contribution shall be required or permitted from any member. The District's annual contribution to the pension trust is determined through the budgetary process and with reference to actuarially determined contributions. The Board establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The contribution is designed to accumulate sufficient assets to pay benefits when due. As of June 30, 2017, the actuarial study shows a net pension liability of \$14,751 in accordance with GASB 68.

Total contributions to the Plan in fiscal year 2017 amounted to \$1,185.

19. EARLY RETIREMENT PROGRAM (continued)

Investments. The District oversees the management of the Early Retirement Plan. The Superintendent has established procedures to ensure that idle funds are invested as authorized by Florida Statute, to earn the maximum interest. Investments are reported at fair value. The primary objectives, in priority order, in investment activities shall be safety, liquidity, and yield.

The Plan's investments at June 30, 2017, consisted of the following:

	Balance June 30, 2017	Percentage of Plan Net Position
U.S. Treasury Notes and Bonds	\$ 498	4.51%

Long-term expected rate of return. The long-term expected rate of return on pension plan investments was confirmed appropriate using Aon's (the District's actuary) e-tool model assuming general inflation of 2.5 percent, which is a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 are summarized in the following table:

<u>Asset Class</u>	<u>Target allocation</u>	<u>Long-term Expected real rate of return</u>
Government Fixed Income	98%	0.5%
Cash	2%	0.3%

Rate of return. For the year ended June 30, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 2.5 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Receivables. The pension plan does not have receivables from long-term contracts with the District contribution.

19. EARLY RETIREMENT PROGRAM (continued)

Allocated insurance contracts. The Plan has no allocated insurance contracts that are excluded from pension plan assets.

Reserves. The Plan has no reserves that are required to be disclosed under paragraph 30e of GASB Statement No. 67, Financial Reporting for Pension Plans.

Deferred Retirement Option Program (DROP). The District does not offer DROP to employees in the Early Retirement Program.

d. Total Pension Liability

The District's total pension liability for the Early Retirement Program for the current fiscal year were as follows

Total Pension Liability	2017
Service cost	\$ -
Interest cost	654
Changes of benefit terms	-
Differences between expected and actual experience	(78)
Changes of assumptions	-
Benefit payments, including refunds of contributions	(1,932)
Net change in total pension liability	(1,356)
Total pension liability (beginning)	27,141
Total pension liability (ending)	<u>\$ 25,785</u>

Discount rate. The discount rate used to measure the total pension liability was 2.50 percent and is consistent with the prior year. The projection of cash flows used to determine the discount rate assumed that the District's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the District, calculated using the discount rate of 2.50 percent, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.50 percent) and 1-percentage point higher (3.50 percent) than the current rate.

e. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability of \$14,751 for the Early Retirement Plan net pension liability. The liability was measured as of June 30, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's net pension liability was based on a projection of the pension plan relative to the projected contributions during the fiscal year ended June 30, 2017.

20. POST EMPLOYMENT HEALTH CARE BENEFITS

a. Plan Description

The Postemployment Health Care Benefits Plan is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District and eligible dependents may continue to participate in the District's health and hospitalization plan for medical and prescription drug coverage. Based on the valuation as of July 1, 2016, the District had 26,453 active employees and 1,089 retirees and eligible dependents in the plan. The District subsidizes the premium rates paid by retirees by allowing them to participate in the plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. Separate financial statements for the Plan are not issued.

b. Funding Policy

The District, via the Board, can establish and amend the funding requirements. The District has not advance funded the OPEB costs or the net OPEB obligation. For the 2017 fiscal year, retirees and eligible dependents received postemployment health care benefits, which are funded by the District on a pay as you go basis. The District provided contributions of \$5,877 toward annual OPEB costs, comprised of benefit payments made on behalf of the retirees for claims expenses (net of reinsurance), administrative expenses, and reinsurance premiums and net of retiree contributions totaling \$9,653, which is approximately 0.84 percent of covered payroll.

c. Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The ARC represents a level of funding that is paid on an ongoing basis and is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the net OPEB obligation:

2015	30,151	4,463	14.80%	121,137

d. Funded Status and Funding Progress

As of June 30, 2017 the actuarial accrued liability for benefits was \$216,684, all of which was unfunded. The covered payroll (annual payroll for active participating employees) was \$1,149,179 for the 2017 fiscal year, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 18.9 percent. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

e. Actuarial Methods and Assumptions

Actuarial methods and assumptions used for the OPEB calculations are as follows:

1. Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future; actuarially determined amounts are subject to continual revisions as actual results are compared to past expectations and new estimates are made about the future.

SCHOOL DISTRICT OF HILLSBOROUGH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017
(dollar amounts expressed in thousands)

20. POST EMPLOYMENT HEALTH CARE BENEFITS (continued)

2. Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future.
3. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.
4. The actuarial methods and significant assumptions used in calculating the ARC for the current year and the funded status of the plan are from the actuarial valuation as of July 1, 2016:

Actuarial cost method	Entry age
Actuarial value of assets	Fair value
Investment rate of return	2.0%
Salary scale	4.0%

Healthcare cost trend rate is 7.20 percent for pre-65 and 7.60 percent for post-65 participants for fiscal year ended June 30, 2018. This rate grades to 4.50 percent for fiscal year ending June 30, 2027.

Past service liability is amortized over a closed 30-year period as a level percentage of projected payroll assumed to grow 3.0 percent per year.

Inflation rate adjustment	2.5%
---------------------------	------

21. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Workers' compensation, automobile liability, and general liability coverage are being provided on a self-insured basis up to specified limits. Prior to July 18, 2007, the District entered into agreements with various insurance companies to provide specific excess coverage of claim amounts above the stated amount on an individual claim basis. Effective July 18, 2007, the District chose not to purchase excess coverage. The District has continued to retain \$4,000 to cover any excess claims. The Board has contracted with an insurance administrator to administer these self-insurance programs, including the processing, investigating, and payment of claims.

SCHOOL DISTRICT OF HILLSBOROUGH COUNTY, FLORIDA
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017
(dollar amounts expressed in thousands)

21. RISK MANAGEMENT (continued)

Settled claims resulting from the risks described above have not exceeded commercial insurance coverage for the past five fiscal years.

A liability in the amount of \$24,448 was actuarially determined using a discount rate of 2.0 percent to cover reported and unreported insurance claims payable at June 30, 2017. It is estimated that \$13,620 of the liability is current and due within one year. The remaining \$10,828 will be due in future years.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance program:

	Beginning-of- Fiscal-Year Liability	Current-Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year-End
2015 – 2016	\$ 19,000	\$ 17,688	\$ (12,770)	\$ 23,918
2016 – 2017	\$ 23,918	\$ 10,253	\$ (9,723)	\$ 24,448

Claims and judgments are generally liquidated by the internal service funds that are funded by the general fund and special revenue funds.

22. COMMITMENTS AND CONTINGENCIES

22. COMMITMENTS AND CONTINGENCIES (continued)

Litigation

The District is involved in several pending and threatened legal actions. In the opinion of District management, the range of potential loss from all such claims and actions should not materially affect the financial condition of the District.

Grants and Contracts

The District participates in various federally assisted grant programs that are subject to review and audit by the grantor agencies. Entitlement to these resources is generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a federal audit may become a liability of the District.

23. SUBSEQUENT EVENTS

On September 13, 2017, Lee Elementary School had extensive fire damage. The school was deemed not usable and students, faculty, and staff were transferred to Lockhart Elementary School. The District is working with its insurance carrier to assess the financial impact.

The 2008A Certificate of Participation's outstanding principle balance was refunded on November 13, 2017. In association of this refunding the related interest swap was terminated.

The 2012A Certificate of Participation's outstanding principle balance was refunded on November 13, 2017.

2017	-	216,684 (7)	216,684	0%	1,149,179 (7)	18.9%

Notes:

- (1) The Entry Age Actuarial Cost Method is used to determine the Plan's funding requirements.
- (2) The percentage funded is derived by dividing the actuarial value of plan assets by the actuarial accrued liability.
- (3) The unfunded actuarial accrued liability is the actuarial accrued liability minus the actuarial value of plan assets.
- (4) Based on data from an actuarial valuation report as of July 1, 2013, dated August 14, 2014.
- (5) Based on data from an actuarial valuation report as of July 1, 2014, dated August 5, 2015.
- (6) Based on data from an actuarial valuation report as of July 1, 2015, dated June 30, 2016.
- (7) Based on data from an actuarial valuation report as of July 1, 2016, dated June 30, 2017.

Isolated analysis of the dollar amounts of the actuarial value of assets, actuarial accrued liability, and unfunded actuarial accrued liability can be misleading.

Expressing the actuarial value of assets as a percentage of the actuarial accrued liability provides one indication of the Plan's funding status on a going-concern basis. Analysis of this percentage over time indicates whether the Plan is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the Plan.

Note: Property Taxes become due and payable on November 1st of each year. A four percent (4%) discount is allowed if taxes are paid in November, with the discounts declining by one percent (1%) each month thereafter. Accordingly, taxes collected will never be 100% of the tax levy. Taxes become delinquent on April 1st of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold not later than June 1st of each year. Accordingly, the majority of taxes are collected in the fiscal year levied.
