3.b.vi. Management Discussion and Analysis of Financial Condition and Recent Financial Performance

The Corporation, St. Charles Health System, Inc. (SCHS) (fka Cascade Healthcare Community, Inc.), showed a consolidated excess of revenue over expenses of \$10.7 million for the twelve months ended December 31, 2011 compared to \$33.6 million for the twelve months ending December 31, 2010. SCHS's core operating activities showed income of \$8.9 million for the twelve months ended December 31, 2011 compared to \$14.3 million for the twelve months ended December 31, 2010.

Net patient revenues, after adjustments for bad debt, of \$456.9 million for the twelve months ended December 31, 2011 exceeded the \$441.5 million for the twelve months ended December 31, 2010 by \$15.4 million or 3%. St. Charles Medical Center – Bend experienced no increase in net patient revenue; St. Charles Medical Center – Redmond experienced a 19% increase in net patient revenue; and Pioneer Memorial Hospital saw a 16% increase in net patient service revenue. The increase in revenues are a result of a 1% increase in utilization combined with a 7% overall rate increase implemented effective January 1, 2011. Total operating revenues of \$475.8 million for the twelve months ended December 31, 2010 by 3%. Total operating expenses increased by 5% from \$445.9 million for the twelve months ended December 31, 2010 to \$467.0 million for the twelve months ended December 31, 2010 to \$467.0 million for the twelve months ended December 31, 2011.

SCHS hospitals' net patient service revenue per adjusted patient day, a measure of per unit revenue, increased by 2% for the twelve months ended December 31, 2011 versus the twelve months ended December 31, 2010. SCHS hospitals' total expenses per adjusted patient day increased by 3% for the twelve months ended December 31, 2011 versus the twelve months ended December 31, 2010. SCHS management expects continued reimbursement pressures, particularly in government programs, as a result SCHS's ability to limit per unit expense levels in the future will be critical to improving operational performance.

Investment income is an important contributor to SCHS's income; SCHS's investment portfolio realized gains of \$6.2 million, earned interest and dividends of \$5.3 million and recognized unrealized losses of \$9.4 million in 2011.

SCHS's liquidity position increased to \$207.1 million as of December 31, 2011 from \$199.7 million as of December 31, 2010. Liquidity represented 119% of long-term debt as of December 31, 2011.

SCHS's debt to capitalization decreased from 36.1% as of December 31, 2010 to 34.4% as of December 31, 2011, primarily due to the reduction in outstanding debt in fiscal 2011.

SCHS operating results in 2011 illustrate the increasing difficulty to contain and lower operating expenses in an environment of continued economic and employment challenges. Despite increased utilization, the payor mix, changes in reimbursement and payor contracting exerted downward pressure on performance. As a result of these factors, the 2011 results showed an operating margin of 1.9% compared to 3.1% in 2010.

3.b.vi. Sources of Patient Revenue

	2005	2006	2007	2008	2009	2010	2011
Sources of Patient Revenue							
Medicare/Non-Capitated	41.9%	43.8%	43.5%	46.6%	49.3%	50.5%	51.0%
Medicaid/OHP	9.7%	8.1%	8.2%	9.4%	9.9%	11.5%	14.9%
HMO/PPO	32.7%	35.2%	35.9%	31.1%	30.6%	27.8%	26.2%
Other Commercial	10.0%	7.0%	6.6%	6.5%	3.5%	3.6%	2.5%
Self Pay	5.7%	5.9%	5.8%	6.4%	6.7%	6.6%	5.4%
Total	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%	100.0%

Note: 2008, 2009, 2010 and 2011 amounts include Bend, Redmond and Prineville, whereas prior years are only Bend and Redmond
